[Ch. 12-15]

Interesting volume once again. I love Yuuta. He's so cute. :)

And that death guy. Hmm.. interesting. I feel bad for him though. He can't seem to trust anybody so whenever someone tries to help him he just takes it the wrong way and curses them.

Lebih seru dan menegangkan dari volume sebelumnya! Suka! ?

But still, masih nggak pengen dan nggak mau nge-ship siapa-siapa. Karena kebanyakan scifi yang aku baca/tonton malah jadi "ranjau"-nya romance. If you know what I mean. ?

It's growing on me. I'm starting to like it much more than I expected to with the first book.

read for fun

This series is hot! I have found myself to become totally engrossed in each book as I read them. The books are excellently written and drawn and I absolutely love the concept. I have no idea where it is going to go, which is perfectly fine by me. Keep me guessing and surprised.

I like the addition of Nami to the group and hope that she will soon come to trust both Taisuke and Yuta, as that would help their relationship.

As for Gou, even his name is ugly. He is an overweight, pimple-faced, repulsive fellow who has no qualms about killing anybody that he sees as being stronger than him. Obviously, his low self-esteem hasn't helped matters, but I find him to be quite disgusting, like most of Katsumata's Gang.

What I really enjoyed was when Taisuke finally used his powers to defend himself from Nami when they were fighting at the beginning of the book. Since Taisuke used heat and Nami uses cold, his his powers

offset hers. They make a good team.

Overall, Alive: The Final Evolution: Volume 4 is another excellent addition to a series that is quickly becoming one of my favorite to read. I look forward with great anticipation to Alive: The Final Evolution: Volume 5. Boy, oh boy. I cannot wait!

I rated this book a 9 out of 10.

It's been forever since I've read the previous volume but it didn't take me long to remember the story. There are some new interesting characters in this volume and I can't wait to read the next volume.
