Far From Home Neve Cottrell

Caspian Warwick, the Marquess of Pembroke, has been enjoying life on Mangrove Island, hosting lavish parties on his yacht and getting a taste of the local female flavor. When his old friend and political advisor arrives to woo him back to public office in England, they hatch a plan to rehabilitate his image, starting with his scandalous love life.

Public relations guru Rebecca Laughlin has fled to Mangrove Island from New York after a disastrous affair with her womanizing boss. She's sworn off charmers and takes an instant dislike to Lord Warwick. In desperate need of money, however, she agrees to help him resurrect his defunct political career by finding him a suitable wife that the public will adore.

No one can deny the heat between them ~ the heated arguments and hot tempers, that is. Will they embrace their feelings for each other or will they let their past dictate their future?

Love

I love Neve's books! Perfect summer reads and I adore how all the characters tie in together like a little community. These books remind me of a racy hallmark movie, keep you wanting to read more!

I know that the storyline of an English aristocrat that falls in love with an american is a little banal, but this story was different - for my taste.

I loved both characters, Caspian & Rebbecca, and their chemistry together. There were a few great scenes, and I couldn't put the kindle down.

Most recommended for reading (and re-reading in a few months)

Redeeming a rogue. Much better than the first in this series.

Cute

Sandra Casile says

Really enjoyed the story.

With trust issues, and play boy lifestyle it was hard to keep those blinders off. Mix that all into the pot and just let the love roll.

Jai says

Apparently people still write books about playboy dukes who fall in love with ordinary American girls. If you can swallow that one then you'll likely enjoy this book. The characters are likable and the setting lovely.

Lorraine Anton says

Good

The characters are likable. Rebecca and Caspian, love and humor. The story line is one that is questionable. They have chemistry though.

This was a quick and enjoyable read that had some unexpected twists and turns along the way to its happily ever after. It was nice to return to Mangrove Island in Florida and feel the warmth of the sun and ocean breezes as I sit here waiting for snow.

Rebecca has a fiery personality and she lets it loose whenever something isn't going her way, which lately has been often. Coming home to her parent's vacation home on the island to lick her wounds and to decide what to do with her life now that she is without her job in public relations in New York City and her former boyfriend and boss, Brad, was something that she was trying to keep from her parents. Her brother Connor shows up unexpectedly and it was interesting to see their interactions – some loving, caring and supportive and others like they reverted to their childhoods. Caspian, who hails from England, is a unique character that I tended to picture older than he actually is and his political advisor and good friend, Alistair, tried to keep him on the straight and narrow. He had a lot of redeeming qualities even if he tended to drink too much, date women once before dropping them and didn't seem to do much but throw parties and entertain.

It was nice to reunite with characters from book one but there were many others throughout that piqued my interest as well. There was a plot line that was far fetched at times but actually worked especially since Rebecca and Caspian had immediate chemistry even if it was explosive! There were friends, family, acquaintances, adventures on the water, beautiful descriptions of the island, the boats, the restaurants/bars, homes and the water that made me feel like I was there. There was lots of loving along with some romance and the anticipated happily ever after. There was nice closure but enough loose ends that it's nice to know we'll be back.

Cottrell is a new to me author after having read and reviewed her first book, Long Way Home. I look forward to continuing the series when I read No Place Like Home, Book 3 which was just released.

Snarky

I love Rebecca. She has gone to her parents summer home to get away from it all. No job & no place to live. She is back on the island one day and Caspian has run her over in his yacht. From that point on the sarcasm just rolls off her. They are so much fun to read about. You will love this book!

A good contemporary romance about an English aristocrat (Caspian Warwick) hiding out on the island after resigning from his position in the House of Lords after one too many media scandals. The heroine (Rebecca Laughlin) is escaping to the island after an affair with her boss ends with her finding out he cheated with her co-worker. Rebecca is hired by Caspian and his political advisor/longtime friend Alistair to fix Caspian's image in time for him to run for an election in the House of Commons (representing Bunbury). This is a tall order, as the introduction of Caspian into the story was him waking up in his bed next to some random woman and with a hangover after a night of partying on his yacht.

I really liked Caspian; I loved Alistair and quite frankly he deserves his own book (he is ready to marry Jemima, Caspian's sister, but Caspian's mom wants Caspian married off first). Rebecca I couldn't relate to or connect with - she is impulsive to the point of TSTL territory, and she has bad judgment (sleeping with her boss who has quite the reputation as a love'em and leave'em sort). Her family is emotionally exhausting; her mother calls daily and her brother comes to the island to find the truth of Rebecca's sudden vacation. Yeah, I don't mind that Rebecca lied to them throughout the story.

Even though I didn't care for the heroine, I still raced through the book because it was entertaining and much better written than many contemporary romances I have read. I definitely bought into the HEA, but a HFN could have worked just as well. A copy editor is needed to polish this solid story.

A hideaway becomes a new life

Rebecca runs away from a bad love affair to her family's summer place. By chance she gets a PR job to rehab the image of an English lord! A tough job but, she is up for it.
