Twelve Hours Leo J. Maloney

“A must!” —Lee Child

Black Ops veteran Leo J. Maloney delivers an explosive tale of international intrigue and the menace of a third World War. The clock is ticking...

Twelve Hours

New York City is under siege. A bomb has exploded in Penn Station. Islamic terrorists have occupied the Waldorf Astoria. And a bloody, catastrophic battle is being fought in Grand Central Station. It's all part of an insidious plot targeting a visiting head of state. Dan Morgan knows what he has to do to prevent an irreversible domino effect from bringing the world to its knees. There's just one catch. Dan's teenage daughter is trapped among the hostages. And she's determined to fight her way out...

Marcee Kutner says

Fast and Furious

I wish this was a longer novel, but Maloney crafted a scenario that is quick and deadly. Morgan's daughter continues to grow as a character but I missed the Zeta team.

Joe says

Great read

Sure was intense and fast moving. Alex is a character that is worth writing about. I think it's a winner.

Karen Jones says

Great read

Enjoyed yet another adventure with Dan Morgan. I am looking forward to the next book in the series. Thank you !

Joel Morley says

Good book but too short

Great quick read. Good action and great outcome. Just too bad Amazon didn't market book as a short novel. Disappointing. Not authors fault.

Lee says

A short Dan Morgan story which finds him in New York attempting to stop a major terrorist attack in New York. Okay for a short story.

Mikel Rhodes says

Another great thriller!

A great fast moving action thriller with a good cast of characters. The main character, Dan Morgan, is a good normal guy who doesn't quit, which makes the character that much more realistic.

Arthur says

Twelve Hours (Dan Morgan book 4)

Leo's pushed the limits again. This book will have you flipping pages as you follow the action and adventure Dan Morgan's life takes in just twelve hours. His mission, rescue the Iranian President and prevent World War III. In his way, the head of security and his team who are behind the entire mess. Hang on, it's a bumpy ride. Thanks for another great read.

george agle says

Who Knew What A Difference 12 hours Could Make

Dan Morgan was a mysterious man. But, even Shasous could tell he would do anything to protect his daughter. This book was oh so fast. It was exciting to read.

Randy R says

Great short story

Karl says

A good read

Good action. I like the characters (the good guys). Not far fetched. I like the family ties and the added dimension that it creates. Clean language. A good read.

Matt says

Maloney brings Dan Morgan out for a wonderful short story to keep fans on the edge of their seats. With the President of Iran in New York City to make peace, security is heightened, but no one expects an inside job when Islamic terrorists begin a destructive set of events that has Morgan and his daughter, Alex, in the eye of the storm. While acts take place at various sites, Morgan and the FBI must fight to quell the action and keep

the hostages safe. Working to free the hostages is one thing, but with a head of state held captive, there are no second chances, which Morgan knows all too well. Maloney takes the readers through the story in a mere twelve hours to save the city and pave the way towards peace on numerous fronts. A great novella with just enough action and new character introduction.

Maloney teases his fans effectively with this submission, though it could easily have been drawn out into a longer story. While the snippet-length chapters allow readers to forge ahead in an effective manner, the jilted style can be somewhat hard for the reader to gather the needed momentum in one scene. Still, it is a bridge to the next full-length book and likely there have been some characters and scenarios peppered within the pages to make a decent transition.

Kudos, Mr. Maloney for his lovely place-setting novella. Hoping to see more Dan Morgan before the year is out.
