Silent Marker John Carson

The body of 10 year-old kidnap victim Terry White is found in a derelict house, three years after his disappearance. This is a second chance for DI Frank Miller, whose detective wife was killed when the ransom drop went bad. There is also a vicious gang of armed thieves who have been robbing banks in Edinburgh and their violence has escalated to murder. As Miller and his team investigate, they find a link between Terry's kidnapping and the robberies. Two members of the gang are now dead, leaving behind clues that the gang are planning one last heist before going their separate ways. Miller only has a few days to catch them before they disappear forever...and with them, they'll take the key to solving Terry's murder...

Pen says

Slogged through 65% of the book and then just gave up. Absurd.

Amy Peck says

WOW!

What a great read! A complex, juicy yarn that you can totally get caught up in. If you like police procedurals or British detectives, or just want a good book to read, then download this one immediately. Can't wait for the next one in the series to be released.

Mary-ann says

Great characters, good writing

I thoroughly enjoyed this novel, even more than the first in what I hope will become a long-running series. The believable characters were well drawn and kept me reading late into the night. A very twisty plot kept me guessing to the last page.

My rating would have been four stars if not for the high number of typographical errors. I lost count of how many times, "you're" was used instead of "your." Mr. Carson is too good a writer to have these small annoyances diminishing enjoyment of his work. If you can overlook the typos, this is a highly entertaining read, with a marvelous Edinburgh setting.

Christine Morales says

Good read

Solid whodunit. Keeps you intrigued trying to figure out who the "bad guys" are. Would recommend to anyone looking for a clean whodunit.

David says

Circumstances dictated I didn't get a good run at this so the enjoyment was slightly dulled but it was a very good read nonetheless.

pat goode says

Good book,

Really good story ,I was gripped fr o m the first chapter ,like this author would like to read more

Gary Van Cott says

This is a good book although it seemed too long (hard to tell exactly when you read something on kindle). It is a bit different plot wise and the author keeps the story moving along. Unusually, the author introduces new characters (and there are a lot) through most of the book. This story follows directly from the previous book in the series which I strongly recommend you read first. There are a number of typos.
