CoralStar Taylor says

it really doesn't uncover anything. Everything in it is in the series itself.

Lauren says

Nice for fans of the series.

Rebecca says

It has a lot of spoilers, so don't read it unless you want the series spoiled for you.

Julianne Clements says

There were some interesting points that were covered in this book but I felt that a lot of the rest of them were either pointless or they were points that were obvious to anyone who'd read the manga. If you're someone who has only watched the anime, then this will have a lot of new info ^_^ If you've seen it and read the manga, then you can skim over a lot of this book.
