All the Pretty Faces

Rita Herron

All the Pretty Faces Rita Herron

Josie DuKane is on shaky ground. Having narrowly escaped the notorious Bride Killer, she penned a tell-all memoir that dug up a town's dark past. Now the book is being made into a movie, and Josie must visit the very place that will trigger an avalanche of unwanted memories—Graveyard Falls. On the heels of her arrival, she receives a gruesome photograph of a dead woman with talon marks carved into her face. And worse, Josie just might be the next victim.

Torn between guilt, justice, and revenge, Special Agent Dane Hamrick will do anything to find the man who brutally murdered his sister. When he realizes the recent tragedies in Graveyard Falls bear an uncanny resemblance to her death, he volunteers to spearhead the investigation. But doing so means teaming up with Josie.

Nothing prepares him for the feelings the beautiful, tough woman evokes. As the body count rises and the suspect pool widens, Josie and Dane must put aside their growing attraction to run down the killer who devastated both their lives.

A killer who seems determined to destroy all the pretty faces...

My Musings

Another great read! Great thriller, fantastic characters, and intriguing plot. I have really enjoyed this excellent series. Happy ?reading ?!

Jackie Roche says

I would like to thank NetGalley and Montlake Romance Publishers for giving me the opportunity to read this in exchange for an honest and open review.

I didn't realise that this was the follow-up to "All The Beautiful Brides", which I hadn't read. However, this did not hinder my enjoyment of the book.

What a thriller this was! A real roller-coaster ride, full of twists, turns and red herrings.

I liked Josie. She's a strong, fiesty character and I loved the bond that developed between her and FBI agent Dane.

The other characters in the book were a mix of likeable and unlikeable.

I thought I'd worked out who the killer was a few times but then Ms Herron threw a spanner in the works making my theory obsolete.

I look forward to reading more books by Rita Herron.

Paula Phillips says

For those who have read the first book All the Pretty Brides, will recall that Josie DuKane ended up as the last potential victim but managed to escape from Billy Linder. She was also at the time a budding writer who had come to write about The Thorn Killer murders that happened thirty years ago. In doing so, secrets were unraveled, and the actual killer was found out along with a new copycat killer. Now the book is being made into a movie set right in the heart of Graveyard Falls, and again people aren't happy that the movie will be sensationalizing their loss of loved ones. What will happen though when it looks like a new serial killer is in town killing those who are here to try out for the movie? For one of the deputies Dane Hamrick, the MO hits a little close to home as ten years ago his sister Betsy was murdered in the same fashion as the girls are today in Graveyard Falls. Is it the same killer or a copycat? Can Dane along with Josie's help solve not only the murders that are happening currently in Graveyard Falls and stop more actresses from dying but will he be able to put Betsy's cold case to rest and give his family some closure? I have to admit that this particular one was a lot slower than Book #1 and harder to get into as parts of the story seemed to drag, and I felt like the author had tried too hard with all the various suspects and multiple storylines that though they all threaded together, in parts seemed too much for the one story. Overall, however, All the Pretty Faces by Rita Herron was another good small town mystery and perfect for those fans of Kendra Elliot and Melinda Leigh.

Adrian Lawrence says

Repeat performance of book 1

The format of this book is far too similar to book #1. It's simply a re-run where only the names have been altered. The personalities of the main protagonists have been lifted straight out of the previous book. If you've read #1 you are going to know their characters; they're the same, just on new faces.

The sheriff is not the thinking type. His idea of an investigation is to accuse, bully and threaten to throw the key away to anyone who looks at his beautiful new FBI partner. She is little better than Daphne from Scooby-Doo: thinks she's smart, gets in trouble and needs constant rescuing. These two can't investigate the most serious parts of the case without thinking how they want to go and bone the rest of the investigation away. Pretty eye-rolling stuff and they're both equally irritating and hopeless.

The story is a case one-plot-fits-all. It felt like I was reading book #1 all over again. A bunch of plentiful and obvious suspects are introduced in order to create a whodunit, all of which you know to dismiss as filler. Unfortunately, the real culprit/s (no spoiler) is identifiable the moment they appear because of the same format to the previous book. It was glaringly transparent.

Annoying as I found the characters I still enjoyed this book. The general plot is engrossing and as a recommendation I'm now on book #3.

Abbie says

Actual rating - 3.5

Ron DeLisio says

Disappointing

The 2 star rating was selected because:

- author's previous books were significantly better
- the hero exhibited the personality traits of the villains, he was verbally abusive to the heroine
- concerning when the surgically altered person was the stereotypical "bad guy", should not happen even if current society is in agreement with what is or is not considered "normal"

Will attempt one more of this author's newer books to decide if I will continue to read her books

Knockin' Books says

OK, I'll admit that I made a half-assed buying decision on this one. I didn't even read the blurb. I downloaded it because I saw that it was written by a bestselling author, and...I liked the cover. There, I admitted that I'm totally shallow. It has a pretty cover, OK??? Don't judge.

But once I got past the cover, I was less than blown away, which I found surprising. The writing was great. The story flowed beautifully. There was a totally WTF plot twist at the end that I loved. But the main characters? Yawn. Full review on the blog: <http://www.knockinbooks.com/reviews/a...>

Kendra says

2.5 stars, I rounded down because while I liked the storyline, the two main characters were completely one-

dimensional. There's Dane, the over protective detective/cop who is constantly overcome with 'pent-up rage', is completely obsessed with finding his sister's killer, and refuses to fall in love because 'his job is his life.' (Ugh, cue the eye rolls here) He loves to play bad cop by gruffly accusing every single suspect of murder before asking any other questions. Then there's Josie, a crime writer/reporter who is intuitive, caring, a bit spunky, and completely defenseless. She constantly needs saving although she gets angry when Dane does so, claiming she 'had it under control.' (Seriously lady? You were backed into a corner and having a panic attack, would it kill you to say thank you?) It's so cliché it hurts and at times is extremely aggravating because there is absolutely no chemistry or character development.

That being said, the actual murder mystery story-line is quite good. (view spoiler)

Book Him Danno says

This is the first book i have read by Rita Herron and will not be the last. I couldn't put the book down with its amazing twist, turns and roller coaster of a ride that will keep the readers on their toes until the last words on the page. I honestly thought I knew who the killer was but in the end Rita Herron shocked me. What a great thriller.

I didn't read All the Beautiful Brides but I plan to go back and read that book.

AC from Netgalley

Yellagirlgc says

I received a copy of this book from NetGalley and the publisher for my honest review.

Josie was abducted by the Bride Killer and lived to write a book about it. Now the movie is being made and not everyone is happy about it. Graveyard Falls has a new serial killer in town....

The suspense was good and Dane and Josie added the romance even if it wasn't acted on.

Patricia says

Creepy, Action packed, Great mystery keeps you guessing until the end.

Kelly at says

Review will be posted at www.books-n-kisses.com .

NUMBER OF HEARTS: 4

Oh man!!! All the Pretty Faces is an excellent follow up to Ms. Herron's All the Beautiful Brides. We met Dane & Josie in book one.

****This might be a spoiler, so if you have not read book 1 and don't want to know stop here****

Josie was the lone survivor of the Bride Killer. To cope with this she wrote a story to tell about the events that happened. Now she is back in Graveyard Falls getting ready for her book to be turned into a movie. But there are many in town that don't want Josie there or want the stories to be retold. But how far is someone willing to go to make her leave? Is someone willing to start killing just to stop a movie?

I really enjoyed this book. I loved how the past gets all tangled up in the present and how we left guessing who is who and why they did what they did.

I am very much looking forward to the next book in this series.

Disclaimer:

I received a complimentary copy of this book from Netgalley & Montlake Romance in exchange for an honest review. This review is my own opinion and not a paid review.

Petra says

The premise of this book was actually really good and the plot was intriguing. Unfortunately, there were too many severe eye-rolling moments, the relationship between the hero and the heroine was dull, and the investigation didn't seem realistic at all.

To top it all off, the narrator made the male lead sound like an 80-year-old (I believe he's supposed to be in his 30s).

Good story line but could have been so much better.

Jessica says

This was just like the first for me. It just took me forever to finish it. I usually read a book in 2 or 3 days so with this one taking 5 it just didn't beg me to keep reading I guess. I can't say why though because the storyline was decent. Another quick wrap up of the romance side which I think takes away from the book a bit.

Overall I liked it though. Just remember, a 3 star on Goodreads means "Liked It" which is what I did. It wasn't amazing and I can't bump up even to a really liked, but I did like it. I always feel bad leaving three stars for a decent book because I wouldn't buy a product with 3 star reviews when dealing with other things. The only real negative rating on Goodreads is a 1 star review.

Alyse says

All the Pretty Faces is the second book in Rita Herron's Graveyard Falls series. It is also the first book that I've read by this author. Personally, I felt that I was missing a big part of the backstory with not reading All the Beautiful Brides first. This book was just okay for me. I found the main characters to be somewhat... blah. I thought the storyline and premise of All the Pretty Faces was good though.

I thought the hero was standoffish (and didn't come off as the "tortured hero" as I think the author was trying to convey him to be. He was just eh for me. Also while the heroine was more personable, I didn't think she stood out to me as a leading lady for me.

One thing that annoyed me was throughout the book the word HOSPITAL (I'm assuming) was spelled HOSPITALIC. Each and every time. I didn't know hospitalic was a word, so I googled it and Google asked me if I meant "hospice", so I have no clue what happened there between the author and editing.

Rating: 2.5 out of 5

****I received an ARC through Netgalley in exchange for a honest review.****
