Hideaway Fern Michaels

Part One of the New Three-Part Godmothers Serial!

The best of friends, Toots, Ida, Mavis, and Sophie have been there for each other through thick and thin. Now Sophie needs the rest of the Godmothers to help her through something they've never faced before . . .

As Sophie De Luca has learned, many things really are better the second time around. She's celebrating a wonderful year of marriage to her sweet second husband, Goebel. Meanwhile, the rekindled bond between Sophie and her childhood friends Toots, Ida, and Mavis is stronger and more supportive than it's ever been. All four are happily settled outside of Charleston, and Toots, who'd sworn to never marry again after eight trips down the aisle, is so blissfully content with her beau that she might be ready for lucky number nine . . . with a little coaxing.

Yet ever since she and Goebel moved into their new home, Sophie has sensed something a little . . . *unusual*. Old houses often contain items left behind from previous owners, but what remains in this case is the legacy of a painful secret that only Sophie's unique gift can uncover. It's a special kind of challenge . . . and who better than three extraordinary friends to help her do it?

Sherri says

very disappointed to find out it was only a few chapters then left you hanging

Jeanne says

The saga of The Godmothers continues! I was a bit surprised to learn that this was part 1 of a 3-part serial, but enjoyed catching up with Toots, Sophie, Mavis and Ida -- though Sophie and Toots are the main focus of the mini-series. My curiosity is piqued, so am ready to read on! 6 out of 10.

Dawn says

This book is the beginning of what may turn out to be the most challenging of what the Godmothers have gone through. There is something in Sophie's new home and it feels frightening. Can the other ladies help or will she keep them far away?

This book has a cliffhanger.

I received this ARC in exchange for an honest review.

Bernadette Long says

The godmothers: Sophie, Toots, Mavis, and Ida are on an adventure that starts on Sophie and Goebel's first anniversary and in their home, the Dabney House. Sophie has a dream or vision of a woman and feels that she is trying to tell her something. Sophie has had some chilling experiences and unusual happenings already and they begin to escalate after her vision.

I really became involved in the story and had to scramble to get the next installment right away. This is the first of a three part series and I wanted to keep reading!

Thanks to the publisher and to Netgalley for an ARC; all opinions are my own.

Title: Hideaway - The Godmothers Book 7

Author: Fern Michaels

Publisher: Kensington Books

Published: 4-25-2017

Pages: 95

Genre: Women's Fiction

Sub-Genre: Sagas; Short Reads; Contemporary Fiction; Paranormal

ISBN: 9781496712066

ASIN: B01JEJCABE

Reviewed For NetGalley and Kensington Books

Reviewer: DelAnne

Rating: 3.75 Stars

I was lucky enough to read all three books at one sitting. As for "Hideaway" at only 95 pages it is the shortest story of Fern Michaels I have read before. My other complaint was that we were not warned it was only first third of a complete book. The cost accumulation equals one full book in the Godmother Series.

Now lets go to the other side of the coin and say that as always Fern Michaels delivers a story that grabs your interest and draws you in. The Hideaway, brings Sophie De Luca to her friends about problem with her new home at the unusual thing left behind by the previous owners.

Well worth the time and effort to read. Part 2 is "Spirited Away" and the final part is "Getaway"

Hideaway

As usual, Fern Michaels has you in her spellbinding clutches, as soon as you start reading this latest edition of the godmothers series! I can't wait to read the next copy of this three part series!

Nancy Morse says

This book is in the middle of the series and as far as I am concerned, I never quite figured out what was going on. And, it ends right in the middle of the story. I have ordered the next book in the series, but not happy with this one.

Jeanne Dembenski says

Another fabulous tale

I really enjoyed this book. I have read most of the Godmother books and this story has this amazing group of friends off on another adventure. Can't wait to start the next installment

Kathy says

Since all three books in the new godmother series by Fern Michaels relate directly to each other and since all the books are totally intertwined within each other, I am reviewing Hideaway, Spirited Away and Getaway together. None of the three books is particularly long, and each reads rather quickly, making them seem more like one “big” book. In this trilogy, the four friends, Toots, Sophie, Mavis and Ida, join forces to figure out what exactly is happening in Sophia’s new, apparently haunted house. Sophia’s psychic/paranormal abilities help the foursome as they move through a series of strange events, all related to the history of Sophia’s house. This is also a story of the four seniors who have “been there, done that” and are ready to settle down in happily married life once again. One thing I did not understand, however, is why after all the other books in the series, the author chose to provide short snippets of how the four came together as adolescents at a religious school none particularly even wanted to attend. It would seem that this sort of recap/back story would have been better suited for an earlier book in the series, if not the first book, where the four are introduced.

The story, as I said, move along at a nice, steady clip. I am not sure, however, if the way they choose to put the final piece of the puzzle together is the realistic way these sorts of things are done. I am not going to go into this more because I want to avoid spoilers. Naturally, throughout the three books we are introduced (or perhaps re-introduced in some cases) to the men, who now become an integral part of their lives and how the entire crew interacts and works together. In addition, Abby, the once-upon-a-time journalist daughter of Toots and mother of one-year old twins (the apples of their grandmother’s and godmother’s eyes) as well as her husband and twin children also play a solid, though not dominant, role in the book, giving the story a bit of hominess and levity. Nevertheless, I wondered sometimes, as I read, if these were the same characters from the other books and why things between and among Toots and the three godmothers seemed off, not really like the way they were in other books. Possibly, the introduction of men into the lives of these four women is what made things unlike the characters in the other books in the series. They just did not seem, as I said, like they were in the other books. The story reads well and quickly, as I said. The three books are well-written and interesting. I just found the way things were handled a bit off. If you enjoy other books by the author or if you enjoy this series, you will enjoy this one. I am also not sure about stretching the story over three books, as there was a story line and plot, though not much of one. I am not sure having the reader procure three books was a great idea, though it is a bit unique. This is a fast easy read for someone who enjoys curling up with a book, or books in this case, and reading something or things that is/are quick and light. I received this from NetGalley to read and review.

Lois R says

Read 7/12/18

I thought this was a full length novel, but no it is a novella - and not even a full story! It is the first of 3 books and all it does it set the scene! Why don't you just put all three novellas together and give us one book!?

Anita Johnson says

Good reading!

If you have not started the Godmothers books, start from the beginning. All the books are fantastic. Keep you wanting to just keep reading and reading. I have enjoyed every book.

Angela Brocato-Skaggs says

I have been reading Fern Michaels since I was a teenager. There is something comforting about her books.

I've read the first Godmothers book and reading Hideaway makes me want to go back and read the rest of them. We join the Godmothers as they have each moved to their respective homes in the outskirts of Charleston, SC. Sophie and her husband are occupying a 100 year old house with a terrible secret. The ghost is trying to make contact with Sophie but is having trouble doing so.

I don't usually read books involving clairvoyants and ghosts but Fern Michaels has a way to make you believe. You get so wrapped up in the story that you don't remember you aren't a fan of ghosts.

I cannot wait to continue the story as I am on the edge of my seat wanting to know what happened in the house many years ago.

Thank you to Kensington and NetGalley for an ARC to read and review with my own honest opinion.

Debra McEathron says

The freaky ghost..

I love this series with the godmother . This story leaves you worried about Sophie and the twins. And wondering if this ghost is just weird or is there violence there too connected with her death. All the characters are back and the house sounds awesome.

Gale Hernandez says

Great read. She is such a great author interweaving her characters.

This author continues to have the ability to entertain the reader. Her series are wonderful and I can always count on a good read with her books.

Gaele says

If you know the Godmothers, you already know that they are a particularly close-knit and well-meshed group of women. They've seen each other through a series of adventures and challenges, both in their own personal growth and with the people they seek to help and keep safe. Now things have settled, somewhat, and with everyone finding life proceeding nicely, Sophie is finding new challenges. Not in her marriage, a happy event for all, or even in her daily life, but a presence in her new house feels "off" and more than slightly threatening.

Sophie is the Godmother most closely tied to the "other", her own gifts tend toward psychic and empathetic, and her ability to communicate with those who are no longer present in this world gives her an unusual perspective among the women. And her perspective is being tested now, with a confused and occasionally angry ghost that is desperate to gain Sophie's help in finding answers for her.

Understand that this is only the first part of a story, as a serial, so there are plenty of unanswered questions, a cliffhanger and the story does not wrap up cleanly. But, if you are one who enjoys the series, and are drawn to stories that bring a touch of mystery to the table, while highlighting the friendships, support and solid relationships between the women, this is a wonderful start to a new adventure for the ladies. Michaels writes characters that you want to befriend and know – you celebrate their successes, worry during their difficult moments and grieve for their losses: and even in the short form, those moments are palpable and present. Stay tuned for the next in this serial, *Get Away*, coming in May.

I received an eArc copy of the title from the publisher via NetGalley for purpose of honest review. I was not compensated for this review: all conclusions are my own responsibility.
