Xavi Marturet says

Peter David is telling a good and complicated story here, but it seems to me he's writing a novel instead a comic-book story.

Dialogues and more dialogues, existencialism digressions and a big lack of action.

I really hope the whole story will improve in next issues.

About the artist: I don't like his style. The story just demands people talking in static situations.

This is a supposed easy job for a penciller. Even that, he doesn't reach the goal.

I don't like the way he portraits the characters.

I can't recognize all original actors —one of the biggest motivations of this crossover— due an artwork based on... dirty lines?

Thanks to Peter David, I'll keep reading upcoming issues.
