### Mira says

It's a bit boring at the start but it gets exciting as Rudie named the guys on her life! Way to go for Mike! ;)

And the conyo thing, I'm not sanay to read like that. Lol

### Bomdom says

In the end, it was all about right time though that it may seems so long to have a boyfriend, it will just come and it is just maybe around the corner and don't be impulsive! I can easily relate to with the places because her office was just in Makati and she also takes MRT like I do and she lives in Ortigas while I study around Ortigas:D It was nice read book and could be finish easily that comes with a witty humor from a woman's perspective who was hard working by the way. Anyway, I recommend this book!:)

### Maan says

Book #150 for 2011

The book was not perfectly edited. Used too much Taglish (may mga ganun ba talaga magsalita? Hmmm...). Still, I think it was not found wanting when it came to wit and humor.

Read this chick lit when you want to take your mind off things.

### Pamela Gayrama says

I didn't like how the story ended with an open plot. --

### Jelaine Villafuerte says

great read for those who keeps on insisting to find love. sometimes things are just not meant to be chasen but meant to be taken with patience. i myself never had a boyfriend since birth. and i think, it gave me strength to wait with a smile rather than with a dying feeling of losing confidence how i'm not good enough. so cheer up ladies! we rock this world! ;]

### Veronica says

I knew it should be Mike! Lol.

Overall, it's OK. Fast-paced. It's just that it seemed that most (if not all--yes, including the guys) of the characters are so maarte because of their coño-ness. I wish the dialogues were more natural (but if that's natural for the people in their circle, then forgive me. XD)

A good read! ;)

### Donnary says

I remember reading this when i was in High School together with Summit Media's other novels (i just cant remember the titles) and out of all of Summit's filipino novels this one was my favorite because I can totally relate with the heroine :P.

It was very easy to read and cliched, my type of book when i was younger and wasnt exposed to other good books so forgive me for liking it haha.

### Coohkiss says

This is like the story of my life. Sometimes you don't know that the one you're looking for is right in front of you.

### Karen Domingo says

I found this book very interesting, for starters NBSB din ako. I felt like I was the character "Rudie" for the most part and to top it off I am the same age as her.

I've learned that I shouldn't rush things for the sake of having a boyfriend, it isn't that bad to not be in a relationship. What's important is that you value the relationships you have, your family, friends and most specially your self.

I resolved that instead of stressing about having a boyfriend ASAP, its better to focus my energy in improving myself.

I love me! :)

### **Kristine says**

I dislike the heroine; not outright but some of her traits, aspirations and actions are very off-putting. Especially the part where she tunnel-visions while finding a boyfriend.

Also, why are the men who are romantically linked to her so one-dimensional and cliched? And really immature and/or self-absorbed and/or selfish? Poor girl can't catch a break.

### **Nana Lee says**

I can really relate to this. tee-hee

### **Queen B. says**

I read this! hehe

### **Sarah says**

Easy read, cute plot. I just hated the conyo-ness. Ha!
