Seduction for Beginners

Jae

Seduction for Beginners Jae

Themes: Romance, lesbian. Length: approx. 14,050 words

Seduction for Beginners is a mini sequel to Jae's novel Something in the Wine, in which Annie and Drew met and fell in love, turning especially Annie's life upside down. The short story will now give readers a glimpse of the next step in their relationship.

For Annie, work always took precedence over romance. But now, recently come-out and involved in a relationship with a woman for the first time, Annie is determined to seduce her girlfriend, Drew, on Valentine's Day. Unfortunately, she has no clue as to the arts of seduction.

From Reader Review Seduction for Beginners for online ebook

lov2laf says

I've got to hand it to Jae...she definitely varies her intimate connections depending on the characters. This short story is the love scene between Annie and Drew that just didn't fit into the context of Something In the Wine. I wouldn't say this is necessarily erotic but it has intimacy and charm. I'd say only read this if you read the novel first so you can fully appreciate it.

Nice bonus chapter.

Serena says

This short story was exactly what I was missing after I read Something in the Wine
Very satisfying to get the development I was hoping for between Annie and Drew.

kory. says

This is sweeter than I expected, given the plot. Although, the insistence that they weren't having sex, but making love made me roll my eyes. Calling it that doesn't actually change anything.

Cloak88 says

Mini sequelae to Something in the Wine.

Short, sweet and romantic valentines' day story.

Jessica Nguyen says

Very short epilogue after the main story end. Talking erotically is not one of Jae's strong points :D or it was just me who wasn't really impressed by the act.

Gaelle Cathy says

So, so very nice to read about those characters again. It was like we never left them. Jae's writing is so subtle. I'm a fan.

Lucky Luc says

This was the ending I was longing for at the end of Something In The Wine. It essentially serves as SITW's epilogue. Very nice, quick read to tie up the loose end.

Anne says

A great fun to read book. Read it in two days.

Good to know there is a primer book for lesbians who come out of the closet and this is it.

Ndy says

Something in the Wine ended a bit abruptly for my taste, and it is nice to know, that there is this mini-sequel short story about those characters, and you can have a little insight in their relationship after a few months. I think it would be better, if the book ended with this short story included in the storyline, but anyhow it's a fine story, if you've read the novel and the sequel short story as well.

Jessie Entwistle says

Great Sequel

This is a great continuation of the story of Drew and Annie from Jae's previous novel Something in the Wine. If you wanted to know what happened after they got together, this will give a glimpse into the more intimate side of their relationship.

Debby Ladiges says

A charming love tale for Valentine's Day

A sensitive respectful and humorous tale of a newly coupled "first time." As a follow up story to Something in the Wine this charming account is dessert for a satisfying meal and as you a stand alone story you will read with a smile on your face.

Arien says

A wonderful conclusion to the Annie's and Drew's story.

Tracie Mills says

Words that come to mind. Cute. Short. TOO short.

I'm glad to finally see Annie and Drew make love. It was well written but while I felt just a little more satisfied, I wish there was just MORE. More about this night.

I would have also liked to have read things from Drew's point of view. If you've read "Something in the Wine" the actual story that precedes this, you'll know how irritating it can be in Annie's head and the story is told with both POVs. The sequel could have been written the same. After reading the 1st paragraph I had hoped Annie had progressed some but she's still unnecessarily angsty. Take a chill pill. What more does this woman have to do to prove that she loves you? Drew is pretty damn amazing.

But it was still cute and I am thankful that the Jae wrote this for us, but it would have been cool if I had gotten just a little more. The morning after? One more scene? Drew's perspective? Come on!

Kara says

"Something in the Wine" (SITW) ended with

Annie didn't care about what her colleagues would think anymore. She grabbed Drew by the lapel of her blazer, pulled her closer, and kissed her."

Yum...but...that was it, sigh.

"Seduction for Beginners" is a short story sequel to SITW. In most books it would have been an epilogue, and since it's included with the Kindle version of SITW, it feels like an epilogue.

Whatever you call it, it's wonderful! Three months after SITW ended, the gentle humor continues, with Annie craving sex while knowing that Drew won't pressure her. Annie contemplates the situation:

Drew had let Annie initiate their first real kiss, and now it would have to be Annie who introduced lovemaking into their relationship. She sighed. Sometimes, having a considerate girlfriend was a pain in the ass.

Annie plans for an intimate weekend getaway, and to surprise Drew with a declaration of intent by wearing a thong. Humor continues, but gives way at last to a very satisfyingly steamy erotic scene between Annie and Drew. Nice closure to SITW! 5*!

Margaret says

A short adjunct to Something in the Wine. I think it'd hold up on its own but there's not much point really if

you haven't read Something in the Wine.

Same characters here. Unfortunately the passing of time hasn't made Annie any less angsty.

Nevertheless a satisfying encore to Something in the Wine
