Double Dare Karin Tabke

She found passion on a dare but is she willing to risk her heart?

Since *The Dare* that changed her life, Dr. Katrina Winslow has hooked up, broken up, hooked up again, and run like hell, but her drama's just getting started. Not only does she lose her job, but unpredictable and sexy-as-hell cop Simon insists they have fantasies left to explore.

Simon's a man who gets what he wants and he's got Katy in his green-eyed crosshairs. Though Katy runs from him, she's never further away than his fingertips, something he proves when he sexts her a provocative double dare.

Will the prim and proper scientist resist the sexy cop's thrilling texts? Or will she allow Simon to strip her bare and guide her closer and closer to what she truly desires?

Simon *Double Dares* you to find out...

Janey says

3.5 Simon Says stars

Katy returns from the conference with her tail between her legs. But nothing prepares her for the next turn of events.

She's been let down repeatedly, with no sign of stopping. This chapter sees her revealing her inner vixen, and making that attempt to trust...

Will she see Simon again? Will she ever feel the way he made her feel again? Will she ever trust a man again?

Nicole Smith says

This is continuing Katrina's journey. I usually don't care for it when authors have a series of novellas continuing one pair of characters' story, but Karin Tabke makes it work really well. Karin Tabke can take erotic romance and make it work because she has the hot sex, but has the emotion to go along with it. I felt for Katrina in this one. Her life is spiraling out of control, but the ever hot Simon is still there hotter than ever. I can't wait for the next installment to see how Katrina deals with this new bump in the road.

NiteReader says

Good enough to read the next one!

Sandi ♥'s way too many M/M books says

I hate cliffies . Soo good this one was better than the 1st. I have so many different ideas going through my head about the next one.

Melissa Vasquez says

Yep. Karin was right. I fell in love with Simon. Then I just wanted to hit him over the head. He is a big bad wolf. And what a smooth talking big bad wolf. Katy is Cinderella. She needs to be rescued. What an odd mixing of fairy tales going on. But this all comes down to a spellbinding story that makes you

keep turning the pages to the very end. And talk about an ending. Man.

The humor in this story had me laughing out loud repeatedly. Simon knows how to say the right things at just the right times that make you fall in love with him. How could Katy not fall for him.

Now the wait for the next one to come out..... I need more Simon. :-P

Tigris Eden says

Double Dare is the follow up to The Dare, where we meet Katrina and Simon. I just want to say that I lurve me some Simon! There were some questions answered in this book, but then we have new questions along with that douche bag Evan and his hag of a wife... Why do I dislike them so much? Well maybe because Tabke does a wonderful job on her characters. If she meant for them to be villains then they are.

My only hiccup with the entire story is that it was too short! I devoured this read in less than two hours.

You definitely want to pick this book up, and hang on tight for the ride that is Double Dare. Everyone needs some Simon in their life...

Simon says... READ DOUBLE DARE!

***J* Too Many Books Too Little Time says**

4 Stars!!

Double Dare picks up where The Dare left off. Katy and Simon have gone their separate ways.

I was really hoping this would be dual POV, but we only get Katy's POV.

Katy can't seem to get Simon off her mind after their explosive one-night/one-morning stand.

I thought Katy was really in her head a lot in this book. She has some definite hang-ups when it comes to men. She doesn't trust, she's insecure. This got a little old at times.

She and Simon share some texts and have some pretty hot phone sex.

There are some pretty major developments at Katy's work, involving Evan. Who I am really starting to hate.

Overall, this was more a transitional read I thought.

Simon and Katy finally reunite towards the end, just in time for a shocking reveal on the Simon front!

Thanks goodness all of the books are out in this series!

Jayna says

I love this book!!! I loved the last one!! I love the flow of the story I love the way things unravel I love the characters and the way they are described.

I HATE how I finished the first book in a few fast hours. I Hate that I had to wait for book two when I wanted it as soon as I finished the first one. And I HATE that book two was devoured by yours truly in less than an hour. And I hate I'm sitting here frothing at the mouth and chopping at the bit for book three and Waiting yet again!!!

Paula Robinson says

Oh boy...Doc Winslow and Simon at it again. I loved this installment in the Katrina Chronicles. Double Dare really ramps things up. Tabke, well Simon, kept me up late for many nights. I had to pace myself. I learned a few things, and you can't beat that. I also did a lot of self reflection when reading about Doc Winslow's insecurities. She is a brilliant scientist with so many hangups. She hid herself, and I loved watching her discover herself, get comfortable with it, and wield her new found power. It was great watching the transformation. This story is hard to put down, but I suggest you pace yourself. It's hotter than the first installment, so be ready with a fan, hot water, your own Ben Wa balls...you have to read it to find out why. Everyone is going to want their very own Sugar Plum "Fairy" :) I must admit, that the way Tabke ended this...cliffhanger...hate those. It really made me mad, especially the way it ended. Aaaahhhh!! I said "Really? No way!" I'm feeling some HATE for Simon right now, but I'm trying to rationalise things. It could all be a part of an undercover thing. My fingers are crossed. I can't wait for the third installment of the Katrina Chronicles to get here. I want to find out what happened NOW not when November 5th gets here. That is the sign of a true master of their craft. Karintabke sucked me in, and now I have to bide my time. I swear, I feel like Doc Winslow and her Pavlovian ways when she hears the ping of her phone telling her Simon sent a text. Read it for yourself, and you'll see what I'm talking about.

★Winter★ says

There are several ideas running around in my mind about what is going on with Simon and Evan characters. And that ending, poor Katy has some bad luck. I can't wait to see what happens next.

Crazy for Books (Stephanie) says

5 DANG THAT WAS HOT STARS

I really enjoyed the first book and have been waiting with baited breath for all the series to come out before reading it because I was left with such anticipation after reading the first book. Basically I was pissed to discover it was a series with a major cliffhanger that I would have to wait to finish. Now that I finally have all the books and I finally have the time, all I can say is it was worth the wait.

I loved it. Do I think Kat jumps to conclusions? Yes! (view spoiler) So I get her rush to judgement and subsequent emotional breakdown.

I loved how they were at the bar and with Evan watching. I loved how they were later before the evening ended so abruptly.

I'm diving right into the next installment and I can't wait to read what happens next. I hope she kicks Evan and Genomtec's ass!

Clista says

Simon and Katy...Kat. Double Dare picks up right where The Dare left us. WANTING MORE!
Texting/sexting fun.
Creepy former lover/co-worker.
Great lines that stand out. There are many.
"Because you're my kryptonite. Please, leave me alone." From Katy to Simon. uh-huh...

Franjessca says

Full Review posted on Book Lovin' Mamas

Karin Tabke has Double Dare pick up where The Dare left off at, and this book makes me want even more of the sexy, green-eyed Captain named Simon. I cannot even get him out of my head right now while typing up this review. He won me over even more after reading the Double Dare even with that shocking cliff-hanger. I should be confused and angry, just like Katrina is...but I just cannot.

In Double Dare, we have Katrina going through hell due to what happened in The Dare, and it is about to get worst for her.

I highly recommend this short novella and give it 5 full moons. I need the next book already...because I need me some more of Simon. I miss him already. I need to find out the truth about him because darn it, Karin, you left us hanging.

Baba says

4 stars.**Review completed September 19, 2013**

Darn! Another hot little number in the *Dare* series!

"I'm going to do bad things to you, Dr. Winslow," he rasped.

Double Dare picks right up where The Dare left off. *Did you think I'd let you get away?* Nope, I didn't think so, Mr. Green Eyes.

Green Eyes is a cop, a **sexcathalon gold medalist** and a bad dangerous guy personified, and he knows how to find the woman who crawled under his skin. A missing Louboutin heel is the perfect pretense to look her up.

There is plenty of spicy sexting...just saying...

Let me in, Cinderella...I dare you.

(...)

I double dare you.

I can't.

What are you afraid of?

You.

You should be.

Usually Katy is not lucky when it comes to men and relationships and she is not all that keen on throwing herself in the arms of another (irritating) guy. However, she can't get a very specific hot cop out of her mind. And when the sexy hunk with the stunning eyes is standing on her threshold, she is very tempted to let him in. What can it hurt to have a hot romp between the sheets? Yet she is afraid that Simon could cost her her heart. Well, that remains to be seen.

I really enjoyed Double Dare a lot! Whew. Karin sure knows how to write arousing smexy times! The dialogue and sexy banter is very well written and made me devour this hot little number in a heartbeat. I am so, so ready to read the next installment *The Truth* which is due out on November 7, 2013. *grabby hands*

Green Eyes is very experienced and he is determined to seduce ~~the innocent~~ Kat. No worries, with his 'tricks', charm and smart mouth he is going to convince her to cave in eventually. Prince Charming can do me anytime, I wouldn't mind at all. Besides, I would love to check out his arms, just saying. Pun intended. Oh, and Green Eyes can also do very bad things to me. *melts*

There was a specific scene that made me wonder if we'll get some suspense and action in the upcoming two novellas. When Katy (view spoiler) I can't help and think that Green Eyes is pretty mysterious. Hence, I would love to get to know him better. In fact, I want to know more about his job since he claimed that he can't tell Katy more because it's too dangerous. BTW, trust goes both ways, right? What the hell? Is he (view spoiler) Plus, I want more information regarding his background, his family, (view spoiler) Don't hang me out to dry now. I need more!

Double Dare is a great novella that provided one or two nice twists that really packed a punch. It made me also crave for more. Besides, I hope that Karin is going to write another full length novel that features a hot tattooed cop. It would be right up my alley, that's absolutely certain.

Minor quibble

I already mentioned in my review of The Dare that I'd've preferred one full length novel. Double Dare is book two of a four part series. Still, there is no getting around it to admit that I'm enjoying this series tremendously.

The novella ends on a rather interesting cliffhanger. No, scratch that. The cliffhanger is irritating because it makes me want to read the next installment as in right now! Oh, all the delicious anticipation...I hope it's not going to kill me. *pouty face*

Gimme more please!

"Let me be your hero, Cinderella," he said, with gentle warmth that would have made her swoon if she had not been sitting. "I'm good at it."

Recommended read.

Warning

Double Dare contains some hot sexting, phone sex *fans self*, a super sexy make out session (view spoiler) AND (view spoiler) Holy moly, these must be pretty stimulating!

Iza says

I had grabbed the first instalment as a freebie and soon as I saw the next book was published (the series will be complete with two more novellas), I paid for it this time. I don't usually like novellas that are published one by one and form a whole book only at the end, but there will only be two more and the story hooked me. And the hot green-eyed cop hooked me too !

So the story continues with the ups and downs in Katy and Simon's relationship (Is it a relationship ? Is it not ? Is he single ? Why does he hide things ? And so on). There is some hot text/phone sex and we learn more about evil Evan Scott's intentions, the man you'll love (?) not to hate, but to despise, to loathe. Yes, he's that bad but not a strong enough man to hate. You loathe him some more, but he gets some payback too, yeah ! Simon is hypnotizing, he's sex on legs, a good dirty talker, but not only, he's also willing to help Kate sort her problems not only with Evan and her work, but also with herself, at the same time forcing her to do it and letting her decide if she wants it or not. And Kate is endearing, resisting, fighting her demons and finally deciding to open up to her cop and maybe to herself too. Of course, there's a cliffhanger at the end and the story isn't finished but I'm dying to know what happens next, not only with their love story (we all pretty much know how this kind of books end !) but also with the accusations at her working place.

Quotes :

"What's wrong with intimacy ?"

"Nothing, when you don't care about getting hurt."

"We all care about getting hurt, but sometimes you just have to soldier through it."

"I don't know how to do this."

"I'll teach you." His husky promise riveted her to the bed."

"Being in public with Simon, the sexiest man on the planet, and knowing she had an audience in Evan, was the ultimate turn-on for Kat. Evan could kiss her ass, and everyone in the place who was wishing she was sitting in Kat's seat could, too. Simon, for now, was hers."

"Oh, you are so sweet," she purred, now feeling back in perfect control. "I do love you for wanting tonight to be polite. But Simon" - she tilted her hips and dug her nails into his thick hair, pulling his head back to look up at her - "I've discovered that when it comes to you, I'm a very dirty girl. And dirty girls like to fuck where and when they want to fuck." She impaled herself on the thick wide length of him. "And," she purred as he capitulated with a low moan of surrender, "I want to fuck now."
