Numbers, the Key to the Universe Kjartan Poskitt , Philip Reeve (Illustrator)

Is maths making you miserable? Are you scared of squares and perplexed by primes? Do numbers leave you...non-plussed? Then it's time to be utterly amazed, as you're whisked off to infinity and back with "Numbers: The Key to the Universe". Find out how you could win a million dollars and become famous for ever (twice), discover the key to the evil Professor's Fiendish Number Chain, and travel to a distant planet for the biggest gig in all eternity. Meanwhile, things get ugly when the gangsterseet the unlucky number 13. Guarantee: This book contains no nasty exercises and no boring sums.

Jay says

This was the second murderous math series book that I have read. This was my favorite book that I have ever read!

Chester says

I really like this book
i r8 it 10/10 ign

David says

This book taught me a lot of interesting facts, like how forty is the only numbers in the english alphabet that is spelled in alphabetical order. Or how to have a guaranteed win in a certain bet. I loved this book because of the it taught me hard math things in a very fun way. The way Kjartan Poskitt
