One night of shadows. One night of bliss. One night when it all falls apart.

Katherine Regina Vandercamp has everything. Wealth. Beauty. Social standing. She's the heiress to the Vandercamp fortune and engaged to the man of her dreams. One night it all shatters...

Finding her fiancé with another woman, she is distraught and makes a reckless decision to go with a friend to a sex club. Needing total anonymity, she has sex with a stranger in a room of total darkness, a sensuous cocoon of silky shadows. She has no idea who this man is or what he looks like. But it is in the shadows she finds solace. In the shadows she finds bliss.

She can't forget this stranger's touch, his taste, his scent. He infiltrates her dreams and holds her thoughts and body captive. But has she made a false assumption about her fiancé? Was he truly unfaithful? She regrets her hasty actions and is tormented by guilt. She is determined to marry the man she loves and forget her stranger.

Sinister events unfolded at the sex club. There was a gruesome murder and her stranger has been charged with the crime. Katie knows he's innocent because she was with him at the time of the murder. She is more shocked to find that he's not a stranger after all. What will she do? Will she reveal her horrible secret? Will she besmirch the Vandercamp name? Will she risk losing the man who has her heart to save the man who's touched her soul?

Her life is in turmoil. All because of that one night.

A night that was wrapped in shadows...

4 Wrap Me Up Stars

Katherine Vandercamp is New York socialite. She is responsible, charitable and always trying to help others. After catching her fiancé with his ex-girlfriend she decides to do something out of character.

Does she go on a shopping spree? Binge eat? No of course not...she goes to *Sensations* a sex club.

While there *wrapped in shadows* she has the best sex of her life with a complete stranger.

Luke Davenport is a successful single dad. Luke, no stranger to heartache, has been just getting by since his wife's death until he meets Katherine.

This story takes you everywhere. It starts with heartbreak. Then on to a sex club where we meet a sexy single father, and have some hot as fuck sex. Oh yeah, then throw in a little murder mystery.

This story has it all!

Overall, if you are looking for a fun sexy read, with a little mystery this is the story for you! This is my first story by Lisa Eugene but I will definitely be reading more of her work!

Monika Adams says

This book was an excellent example of Lisa Eugene's style of writing, Hot Romance with a mystery that keeps you hanging all the way to the end. The Characters are very relatable and you fall in love with them right from the start.

When Katherine Regina Vandercamp walked into her Fiancé's apartment it pushed he to wake up and it set her steps on a path that would change her whole way of thinking.

'Damn, all my girly parts were already tingling! And I knew it could only portend disaster' She knew with the subtle hint of sandalwood that Luke Davenport, his sandy blonde hair and bottle green eyes, that her life has become more 'Complicated'.

Luke had history that he could still remember 'numbing anguish that had poured over me like liquid nitrogen' His pain just about jumped off the page.

If I would give any criticism it would be that the story was too short. I wanted to witness the interaction between Luke & Katie's Parents. I would love to be able to enjoy this story a bit more.

Thank you Lisa!!

3.5 WHO DUN IT stars!!

I found the heroine slightly annoying, hence the rating!! If you're looking for a light, suspenseful read with some spice, I would recommend this book!! :)

DNF

h irritated me too much, she couldn't stand up to her controlling parents or cheating BF w/anger issues. Plus she cared too much about appearances:(

Others might like it though - it has rom. suspense with a hot single Dad H and adorable kid

I didn't hate this book, but I didn't love it either ... I couldn't connect with Kay, often I was thinking that she is too weak and is acting childish and her dialogues with vagina was ridiculous and, well, this trick is getting old(at least for me). Story was saved by Luke and his sweet daughter Livy;)

****FULL REVIEW****

“The darkness folded around us, cocooning us in silky silence. As I listened to his soft breaths shuttling in and out and felt his fingers trace slow intricate circles on my abdomen, I let my mind languish in this temporary heaven, feeling strangely...found.”

After finding her fiancé with another woman, Katherine runs to her best friend for some advice...and on a whim decides a little anonymous sex at a club Michelle frequents with her boyfriend is the perfect way to get over Josh. She never in million years thought things would go down the way they did...

“There was no way in hell that night could have been as spectacular as I remembered it. And it wasn’t as though I had images to sore through. Everything had occurred in a black void. All I had were layers and layers of emotion I was afraid to peel away and analyze. No. I couldn’t allow myself the luxury of recalling those exquisite feelings, of thinking they were genuine. My mind must have fabricated the peace and total gratification.”

And all she had to go on was his scent...everything else was wrapped in shadows.

Not sure how to handle the emotions that follow an explosive evening with handsome stranger, Kay deals with the fallout of her engagement, the disappointment of her family, people dying...

You know a story is good when you can sit down and read it all at once. That is what I did today, so you can only imagine how awesome this book is. I was completely engrossed from page one and every time I turned the page, there was a new surprise for me to try and figure out.

Told from dual POV, you learn who *HE* is, and who *HE* isn't, as well as the main plot of the entire story...murder.

“With the recent chaos in my life, I had trouble looking into our future, but couldn't deny my strong feelings for her. I was definitely not an optimist when it came to relationships, and with my past, I definitely had a hard time trusting women, but I was willing to believe again, to give love a shot.”

Wrapped in Shadows is one of those almost twisted love stories; the elements I look for in any work of fiction this book has in spades. There is action, chemistry, suspense, some serious steam, and best of all, originality. Of course, the added bonus is that it is well written. I look forward to reading more of Lisa Eugene's work.

****4.5 Love & Money Don't Mix Stars****

Saunders says

not a lot to say about this one - I loved it. It had a great story, great characters, hot sex and it had a beginning, a middle and an end. Quite unique nowadays.

Just finished reading Grayson and really enjoyed it so went off to look into Lisa Eugene only to find this gem of a story - and there are more.

So thanks to my book buddy (Donna) for recommending Grayson and for introducing me to Lisa Eugene.

1 what-the-heck-was-that star. Review posted June 13, 2014

Reminds me of tunnel vision.

Warning

My review contains a huge amount of gifs and I'm not sorry at all. Also, I won't apologize for being very straightforward.

What in the ever lovin' fuck? Well, another one bites the dust. To be very honest, one star is simply too generous. If I could I would have rated it with 0 stars. When I was 15 % done I thought I had seen the worst of it but I couldn't have been more wrong. It got way, way worse and with great difficulty I made it up to 45 % and called it quits. I think the author tried very hard to be 'original' but failed miserably all along the line. It came off as cheesy, embarrassing, and downright ridiculous. *Wrapped in Shadows* was beyond awful and one of the worst books I've ever read. I love beautiful writing but this pathetic excuse of stilted and clumsy cardboard writing didn't cut it for me at all. The sex...OMG, the second sex scene was a friggin' nightmare. Also, I wouldn't for the life of me identify myself with the silly heroine. Jesus Christ on a crutch, Katie should make herself scarce. I guess I'm seriously missing out since I don't have any idiotic conversations with my happy vagina. Yeah, when it's not the friggin' *inner goddess* it's the vagina. Although she should really stop her entire irritating inner monologue. It got on. My. Very. Last. Nerve.

I won't write a long review because, honestly, what's there to say? The gifs and quotes are self-explanatory.

As a side note

The vagina conversations are actually penned in italic and small letters but I had to write the words in capitals to emphasize them in my gifs.

Before I could formulate a thought, my heart started pounding hard, as if already knowing the evolution of thoughts in my brain. It was the sight of the pink smudge on the cuff that fueled the motor in my chest.

I let myself digest the new information and cautiously allowed hope to crawl from the cave it was buried in. It opened its eyes, looked around, and liked what it saw.

An idea sprouted and I tapped a finger against my lips as it ripened to full bloom. (FYI, that's the hero pondering).

The tension between our bodies grew thick and curdled with need, and I knew he was feeling it too. Breathly puffs slid through my lips, marking the desire that was a constant undercurrent between them. A choked sound gurgled from my throat, a sound of anguish infused with desire.

The heroine mentioned numerous times how gorgeous the hero is.

Oh, God... I stared back, realizing my desire for him hadn't diminished at all in the week since he'd come to my office. If anything, my acknowledgment and ownership of it only fueled my need until it burned like a blistering fever. He was so deliciously tempting. Tall. Gorgeous. Solidly male. And I wanted him. A pulse already beat steadily in my groin, throbbing in response to his presence.

Just one more time...

No one had to know...

Just get him out of your system...

Mine! Mine! Mine! You stay out of this! I scolded my vagina.

Then he smiled and his dimpled (dimples?) winked at me, again inciting a slew of internal havoc. My heart rate soared. I tried hard not to think, not to listen to the voice screaming like a mad woman in my head. *Damn his mumbo jumbo!* My inner self was in serious need of a straight jacket and a padded room.

Yeah, I think I'm in need of a straight jacket too because I feel a strange urge to strangle the heroine.

And oh, God, I remembered that talented tongue! I was instantly leaking, feeling my underwear growing damp from the naughty thoughts swirling in my head.

My eyes widened just as his lips teetered with a crooked smile. *Shit! Could he read minds too?*

Teetering on the edge of insanity...maybe? Or teetering towards disillusionment.

Who wants to call the analogy police?

What the heck does that even mean? Muscles can't picket. Maybe the muscles protested? Use your imagination...muscles protesting holding picket signs! Hilarious.

Hmm...I feel a sudden urge to dust my furniture.

Someone should explain me what **bicep curls** are. I didn't know that biceps could curl.

And last but not least a shout out to my friend Lenore. She helped me to stay sane and healthy while reading this book. Thanks again for making this a very special reading experience! xoxox

As you can see I don't recommend Wrapped in Shadows. Read at your own risk.

Wrapped in Shadows begins with heat!!! Yeah, everything starts at Sensations --- that one wild night becomes everything!

Katie break with her cheating boyfriend and wants to forget everything, takes that one night a chance. Luke has been working hard and spending time with his daughter without any fun, hence his mates wanted him to have fun. Both their world collide in shadows.

After that night, either of couldn't each other out of their mind. They meet again in day light this time and everything comes into alive.....AND THEN

A MURDER!

How will these murder affect their lives? Will they be brave enough to come over this?

I love writing, it is simple, sexy, sweet and filled with suspense.

Happy reading

I love **Lisa Eugene** 's work and every book gets better and better!!

"Would it be totally psycho if I wrapped myself around his body and climbed him like he was a flagpole?"

Katherine Regina Vandercamp walks in on her sleazy fiancé going to town on somebody that is NOT Katie. So, like any situation like this, her best friend takes her to a *sex club* to let go and have a good time. At the club, Katie finds herself having the best night of her life sans the drama of her life! And all she remembers about her beautiful lover is that he tasted like *sandalwood*, so when she meets with her best friends' three bosses, it's difficult for her to figure out who her mystery man is without giving too much away.

**"Now he was flesh and bone, and very...male. I mean attractive...like
www.meltnypanties@hotmail.com"**

I am only giving so much away because I was surprised to find out who it was and so should you when you read it! Katie is caught between being with her mystery guy and people finding out she was at a sex club. As one of New York's socialites, this could ruin the charity company she runs and holds very close to her heart. But when her mystery man is accused of murder, it's time she figures out who she is and stops running from who she wants to be.

"My broken heart was ready to heal, to move on, and to possibly love again."

Overall, I was BLOWN AWAY by this beautiful **5 STARS out of 5 STARS** read! Katie and her mystery man are the perfect happily ever after couple. He deserved his HEA almost more than she did. The suspense was amazing! I was guessing the whole time about what was happening and who was doing it (I was like half correct, so I think my investigative skills are improving!). I cannot wait to see the feedback from others about this amazing book!!

While *Wrapped in Shadows* did start off slow for me and I disliked such long chapters, it turned out to be an amazing book. There was so much suspense my heart is still racing.

Who would have thought you could fall for someone you had sex with in the dark at a sex club? Never seeing their face but remembering their scent, voice, and body... After Katie finds out who he is, will she choose to be with the man in the darkness or her fiancé, Josh, whom she accused of cheating?

*Wrapped in Shadows* was a big mystery trying to figure out who killed the women. I was on the edge of my seat and found myself trying to figure it out even when I wasn't reading the story. Little did I know though, it wasn't the one person I wanted it to be. Total shocker!! I loved the mystery, suspense, and romance this book brought on. Great work Lisa, I can't wait to read more work from you.

5 +++ STARS

This book is AMAZING!! Lisa Eugene at her best! This is a love triangle that will keep you on the edge of your seat (or in my case up all night) with tons of relationship angst! Katie Vandercamp is an intelligent likeable heroine with a great big heart of gold. I can't say much about her except I F\*\*KING LOVED him. I don't want to give away any spoilers because we don't find out who he is until the second chapter or so. But I was biting my freaking nails trying to figure out who he was!!! This book was well written, had a plot that kept me enthralled throughout the entire story, and when it was done, I was sad it was over. What a ride!! Thank you Ms. Eugene for this exquisite adventure. Highly recommend.

## Lana ❄️Dirty Girl Romance❄️ says

4 Stars

*He was drawing me in and I was powerless to stop it.*

It seems like Lisa Eugene has herself a winning formula with her books. She takes a super quirky heroine, some verra sexy steam, throws in some intriguing suspense and mystery and VOILA! You have yourself a book that you'll enjoy from beginning to end.

***One night of shadows. One night of bliss. One night it all fell apart.***

Katherine is a woman that seemingly has it all. The heiress to the Vandercamp fortune, she has the social standing, the wealth, the doting fiance, and loving parents. Well...2 out of 4 ain't bad. Since she just found her fiance half naked in their apartment with his ex and her mother is pretty much a cold bitch.

After running out after finding her fiance with his ex that was wearing his shirt...and only his shirt, she's heartbroken. She needs to take her mind off of it. Off her her pain. Off of her mostly unfulfilled desires. So what's the best way of doing this? Convincing her best friend into getting her into one of the most exclusive sex clubs in town, of course.

In the safety of dark shadows and extremely talented but mysterious male hands, Katherine finds the kind of passion she's never even dreamed about.

**Relax, beautiful," he whispered. Soft lips pressed against my thigh, planting tender kisses.  
"I'll give you what you need."  
You heard the man! My vagina sighed.**

Did I happen to mention Katherine's adorably quirky habit of talking to her vagina?

I don't think anyone but Lisa Eugene could pull something like this off. In Steal My Heart she gave us an adorable germaphobe nurse. In Wrapped in Shadows we get Katherine's vagina conversations. I have to admit that I found myself giggling like an idiot whenever I'd read her internal monologue. It was cute and funny.

**His body was gorgeous and my vagina instantly responded. Don't even think about it!' I scolded. He looked intense. I had a feeling this man was someone I'd have to work my way up to, like spicy food, or nipple clamps. He was not for newbies.**

Well...

That should help right?

I will not tell you the name of the hero, and I don't recommend reading many reviews before diving into this book. Half the fun is the mystery of who it is and finding out. But here I go, digressing again.

The rules of the evening were simple; anonymity. Total and complete. After all, if anyone were to find that the socialite running one of the most successful charities went to a sex club, her reputation would be ruined. It was only supposed to be dark, shadows, and intense orgasms...until murder was thrown into the mix.

The one thing that I really liked about this book was the unpredictability of it. You're lead to believe one thing, be so sure of it, only to be thrown for a loop. Lisa Eugene leads you up to the most obvious conclusion thinking you know what's going on and who's behind it, only to rip the rug out right from under you. I loved that added element of the suspense and mystery.

Did I also mention the absolutely delicious mystery hero?

But I'm still not giving you his name.

But I will tell you that he has some moves.

**He flexed his hips and his stiff cock slid against my abdomen, hot and pulsing.  
Mine! Mine! My greedy vagina chanted. Ours, I corrected again. And if you start referring  
to his dick as 'precious', we are no longer related.**

But I digress yet again. This was an entertaining read, though at times Katherine did some things that seriously had me shaking my head and then wanting to shake some sense into her.

As far as steam goes? You'll get that and then some.

So why not 5 stars? I felt that there was something at the end with the revelation of the bad guy that was a little glossed over. I really thought that the motivation behind the actions of someone involved was pretty detrimental to explain, yet it was brushed aside. Considering WHO that person was, I really needed the explanation or their motivation behind their action. It almost seemed to rush through the ending after that big revelation climax.

But that aside and a few times where I wanted to slap Katherine, this was a solid 4 star read that I'd gladly recommend for any readers that like their suspense with a whole lot of steam.
