Anne G. Kasaba says

Daisy McDare never has a shortage of suspects when she investigates a case and this time is no exception. The one thing she also has on this case is the Detective on the case asking for help!

Daisy is hired by the owner of a French restaurant to redecorate. Before she knows it he is murdered and she has to sort through suspects to find the killer.

I received an arc of this book and voluntarily provided a review.

Bonnie Dale Keck says

I received free a 3 book set evidently no longer offered. which included The Deadly Art Affair. The Deadly Legal Affair, and The Deadly Directorial Affair -- those are in order book 1 then 2 then 3 of the series. The background information is repetitious unless you are reading stand alone books, so in a set is very, very repetitious. For example, I do not need to be told, each and every story, just who her grandmother is. The stories seem to be trying to be a cross between murder she wrote and Agatha Christie, but with clues which ended up solving the case not really mentioned or buried in unnecessary story side trips. I must have read at least one if not more of these stories before because the endings held little surprise nonetheless, although that could just be the 'formula'. This 'formula' is present in all the books and is, to say the least, aggravating.

The Deadly Art Affair --The Deadly Legal Affair --The Deadly Directorial Affair--The Deadly Real Estate Affair--The Deadly Rock Star Affair--The Deadly Restaurant Affair--The Deadly Secret Affair--The Deadly Rival Affair

BUT Daisy McDare Three Book Set The Deadly Rock Star Affair--The Deadly Restaurant Affair--The Deadly Secret Affair is 4 5 6 Not 1 2 3 which seems to no longer be available as a set

Then being so horrible at names, got the above 3 set then the 3 set directly above then the 8 book set, and thought my head was going to implode; the only reason don't give her or any writer a 1 is because save that rating for shape shift or other like books that say in title something such as shapeshift for first word, then romance in second word, then turn out to be a badly written excuse for soft porn.

Kindle Unlimited, save some \$, once you've read one you've pretty much read them all. Typos, murder she didn't write {well} redundant/unnecessary, and if someone really ate like that no they would not be rail think unless they were a purger, but all this did remind me to make sure had rated and reviewed the Witches of Wisteria she does, wouldn't want people to get the wrong idea about those, either. Different set/books in sets depending on which one/ones you get.

Date off on all these, some of the ones forgot to review for goodreads.

LOVE DAISY

KM Morgan does it again!!! I absolutely love this series!!! I can't seem to put it down when I get to a new book! Daisy is such a relatable & likable character, you can't help but love her. I have even gotten my 11yr old daughter into the series as she, like me, just can't put them down. I can't wait to read the next book in this series!!!

Laura Reading says

Failing restaurant owner Adam Dunning is a much hated man. Perhaps if he spent more time focusing on running a decent restaurant rather than his own appetites, things would not be so bad. It is no surprise that there are seven suspects - family, employees, competitors, even a married mistress - each with strong motive to do him harm.

When Dunning is discovered dead behind his restaurant, the morning after Daisy McDare is hired to redecorate it, there are few tears shed, and it seems none are for the dead man.

This time, with Det. Crumple's blessings, and offers of doughnuts, Daisy attacks the investigating with a vengeance.

An excellent cozy mystery with plenty of clues for the reader to chew on.

I did receive a copy in exchange for my honest review.

This was one of my most enjoyed mysteries in this series.

Somehow Daisy seems to find herself in the middle of a murder investigation once again. With a little help from her boyfriend and a different attitude of the police officer she once again sets out to solve the crime. She always goes about it in her own way, with her favorite cupcakes to keep her company. K.M. Morgan has written another thoroughly enjoyable book. Looking forward to the next one.

Nina says

I've given Daisy a couple tries now, but she has to be the least likable, most obnoxious, and certainly the most obtuse amateur detective in the genre. The mystery is maintained by concealing information from the reader, and no attempt at even basic law enforcement protocol is made. Silly beyond words; I am not the target audience.

And who keeps cupcakes in their purse?!?

Daisy McDare and the Deadly Restaurant Affair (Daisy McDare #6) by K.M. Morgan was another great read by the author. This is the sixth book in The Daisy McDare series. Daisy is on a decorating job that turns into a crime scene. I enjoyed reading Daisy investigating this death.

I am such a fan of this series. Quick reads with a lot of twists. Daisy's new boss is Adam Dunning, the owner of a French Restaurant in town that is in desperate need of a makeover. The place hasn't been updated in a long time. Even before she's hired, she's a witness to the arrogance of the owner. He's fighting with his former head chef, who left him and went to work for the new French Bistro that opened directly across the street. The owner of the new restaurant is also an enemy. Then he fires his bartender for stealing; all before he hires Daisy. Then there's the wife who found proof of his philandering, his sous chef that's been passed over for promotion to head chef, and his daughter who can't get her father to agree to anything new. The day after she's hired, Daisy shows up, only to find out that Adam's been murdered. Detective Crumple is no longer refusing her help. As a matter of fact, he asks for her assistance on this one. Daisy does it again. She solves the crime, and this time, I don't figure out who the killer is beforehand. I had my suspicions, but I was so wrong. It's nice to see Daisy and Gavin's romance is still moving along nicely. My only thing is, you no longer hear about Daisy's dog Shamus and my favorite character (Granny Annie) is barely mentioned. Great job keeping me interested K.M. Morgan, now on to the next one!!

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more, But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It has earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

Daisy McDare and the Deadly Restaurant Affair is book six in the Daisy McDare series by K.M. Morgan. This is a quick read and a great one. It is a great addition to the series. I highly recommend this book and the series.

Daisy McDare is back to doing her interior designing. She has spent the last three months doing her jobs and no one has died. Maybe her luck has changed for the better. Her romance with Gavin is going well and she is happy. Since Daisy is not a morning person, she stopped at Sweet Tooth to get coffee and pastry. Granny Annie Johnson is a morning person and is spry and feisty for her 82 years. She works at the bakery for her granddaughter Samantha and for something to do. This morning she is so happy to tell Daisy that she had solved a murder herself. Of course, it was at a dinner theater; but she did solve it. Samantha steps in to ask her Grandmother who this Jake Gordon was. She was worried; but Granny said she kept several on the hook for good measure. Wisely Samantha changed the conversation over to Trevor, her boyfriend. Trevor was working as a chef at Tres Chic; but having a rough time. The atmosphere was very volatile at the moment. There was nothing Trevor could do but wait it out. However, it was putting a strain on his relationship with Samantha. However, he did recommend Daisy to do the renovation of the dining room. She was on her way to meet with the owner, Adam Dunning.

Before she walked in, she ran into an argument between Adam and Benjamin Kotter. Benjamin used to work for Adam; but when Cameron opened his restaurant, Ooh La Lunch and offered Benjamin a head job with a great increase in pay, he took it. He was mad at Adam for promoting him to head chef and then keeping on sticking his nose in the menus. It was as if he didn't trust Benjamin. Now Adam was suing Benjamin for his recipes. Adam believed that the recipes that Benjamin created at Tres Chic belonged to the restaurant and not to Benjamin. He was suing to keep Benjamin from using them. As Benjamin storms away, Cameron O'Doul comes out of the restaurant. He, too, had worked for Adam at one time. He left when Adam promoted his daughter Emily to general manager instead of Cameron. So Cameron opened his own restaurant and lured Benjamin away from Adam. He tried to get others too. Now Cameron was angry over an advertisement that Adam had put in the paper telling folks not to eat at Ooh La Lunch but at Tres Chic instead. Both men stormed back to their restaurants.

As Trevor and Daisy got to the office, they heard Adam firing Carl Blanton, the bartender. Carl tells him he was loyal and had turned down a job from Cameron. As if nothing happened, Adam begins talking to Daisy about what he wanted done and offered her \$2000 to do it. Daisy told him she would do the job but for \$5000. Finally, Adam writes her a check and approves her plan. She overheard Eric Manning was hired over Logan Walsh as head chef. Logan was angry and said even Emily agreed he was the best for the job. Then real estate realtor, Jessica comes in and tells Adam she has left her husband. Adam quickly breaks up with her as he has no intention of divorcing his wife. An angry woman leaves. As if today was the day to attack Adam, his wife walks in and suggests Daisy is the woman he is having an affair with. Quickly that was straightened out. Sasha goes on to tell Adam she is filing for divorce and getting half of what he had. She is adamant about it. Daisy calls it a day and retreats to her home and a night out with Gavin.

The next morning, when she got to the restaurant, the police were there. Adam Dunning had been killed. Another mystery fell in her lap. She views the suspects as she waits to be questioned: Cameron O'Doul, Benjamin Kotter, Sasha Dunning, Logan Walsh, Jessica Mitchell, Emily Dunning, Carl Blanton and Trevor Thompson. Daisy has to get involved because she doesn't want Trevor to be railroaded into something he didn't do. Will Daisy solve who did it?

Rosemary K says

Daisy McDare is an interior decorator who has another talent. She knows murder. Whenever she gets a job she's involved in a murder. It's becoming an all too familiar occurrence. She just started working to update

Tres Chic and the next day the owner is found murdered. This man made enemies with everyone he met. How is she going to find who killed Adam Dunning? Daisy is determined to solve the case. I always enjoy Daisy and her investigative techniques. She is smart and stubborn. The town of Cozy Creek is such a friendly place and I enjoy the people who live there especially Gavin and Granny Annie. Her romance with Gavin is so special. Poor Detective Chris Crumple. He has his hands full. Thank goodness he has Daisy to help. K.M. Morgan writes a wonderful cozy mystery series. The characters are interesting and the story has so many surprises that it keeps me on your toes. I love this series.

Jo-Anne says

Daisy McDare is an interior decorator who is constantly involved in murders and attempting to find the killer. This time the owner of Tres Chic, the restaurant she is hired to decorate, is murdered the day after she is hired. Adam Dunning is not well liked at all. Actually he is pretty much hated by everyone who knows him.

As always, Daisy decides to investigate the murder. Usually Detective Chris Crumple tries to get Daisy to stay away from the investigation but this time he welcomes Daisy's help. With a little help from her P.I. boyfriend, Gavin, Daisy starts interviewing the numerous suspects.

I love the Daisy McDare series and Daisy's antics as she "investigates". This one, like all of the books, had me chuckling throughout. K.M. Morgan's writing is very descriptive in this cozy mystery so you feel like you are with Daisy in her adventure.

I have liked all the Daisy McDare books but I didn't find this one as captivating as the others. Now other reviewers have not felt the same way so you should read it for yourself to see what you think of Daisy McDare And The Deadly Restaurant Affair.

Please note I received a complementary copy of this book in exchange for my honest review.

It's been three months since Daisy last solved a case. She has managed to complete six jobs as an interior designer without any dead bodies popping up. Things were going well with her boyfriend Gavin and she even managed to get three lottery numbers perhaps her luck was changing.

Daisy next job takes her to a French restaurant whose arrogant owner is founded stabbed in the back. Even before she starts, she quickly finds he has numerous enemies before she even steps inside the restaurant.

Once again Daisy steps in with the blessing of the local law enforcement. With numerous suspects, she must weed out who the real killer and their true motive before she finds herself the next victim when she gets too close to the truth.

Another winner as Daisy gets herself involved in more than her interior designing. A quick easy read that moves along.

I was gifted this book with the understanding that I would leave an honest review. This was an collection of the Daisy McDare cozy mysteries. Books 5-11 this being book 6. I am rating them as I go because there is no collection with all these books in it. Donna Soto is the narrator for this collection and she does a fair job. Her voice doesn't really hold my attention but she does read the book well.

This story had Daisy remodeling a restaurant. It was a cute story. I enjoyed the idea of Daisy an interior decorator bringing this restaurant more up to date.
