Four Reasons to Come: A Reverse Harem Romance Sarah J. Brooks

Why pick one guy if there are four reasons to come?

All my life I thought there is no perfect match for me.
That's until I meet Marcus.
I've never been with such a dominant man before.
One look and I want to fall to my knees in front of him.

But his frequent trips and mood swings are driving me crazy.
A woman has needs and if he can't be there to meet them, I'll have to look for someone who can.
Like my hot neighbor Stanley.
Or Rob, the delicious guy from my last blind date.
Or maybe both.

When another handsome man joins our little party, Marcus returns.
And he reveals a long kept secret.
A secret that not only puts all of us in great danger, but that will also change all our lives forever...

This is a standalone romance with bonus content, a satisfying Happy Ever After and no cliffhangers!

The Mysterious Reader says

I haven't read a lot of ménage stories but this one definitely stands out from the rest. Not because the sex is super hot (though it is) or even because there's a well fine element of danger, even though it's there and well done (turns out two if the guys are involved in something dangerous - I won't spoil things by saying what, but don't worry they're good guys). Nope, to me it's the thinking behind this book which gives a perfect explanation for why there's a ménage (not your common occurrence) in the first place and as to how and why more partners are added in. In this case the starting point is that the heroine here, Isabella Peterson, lost her fiancé when she was younger and has a need for the constancy of companionship that requires multiple partners. She had that in college, and in fact guy #1 (Stanley) came with her post graduation when the gang broke up. It just makes sense that she's stay open to it, and Sarah J. Brooke then adds in extra partners, neighbor Marcus, Marcus' Co-worker Zed and Rob (Isabella's friend's co-worker) in a natural progression. There's nothing underhanded or behind the scenes going on here and the guys do all meet each other at a later point, at the opening of Isabella's art gallery. No suspension of belief needed, except maybe that one gal could be lucky enough to get four guys so absolutely yummy. That's ok though, and the background believability of this all oy makes the yummy parts well, more yummy.

If you like ménage tales or want to see what one is like this is one I'd definitely recommend.

Wow! Well, this was my first reverse harem book and I wasn't sure what to expect. I love this concept, living together, always able to have someone to lean on or do things with. The companionship, the connection. So as a premise, as a story, I loved that. I enjoyed the journey Isabella takes with these different guys. The internal struggles she has with Marcus kept me on my toes. My only issues with the book are how drawn out it is. A bit repetitive. Isabella is almost wishy washy, that back and forth, I trust him, I don't trust him thing with Marcus. I would have liked a bit more with the other guys, that deeper bond to show through as well. Overall, I did enjoy the book and will be looking forward to future reads from this author.

I received a copy of this book and am voluntarily leaving an honest review.

Suspenseful, intense and sexy - Loved the intrigue & novelty

This is a reverse harem novel that contains fade out intimate scenes, strong characters, and a mystery ... Who is the supposed next door neighbor that suddenly appears and disappears for multiple stretches of time? What are in the heavy duffle bags? Is that a light on in his house when it still appears that he is away? Where does he go? Why won't he tell her anything? And the biggest question of all - will he be okay with her preferred lifestyle of having multiple partners?

Wonderful story that I highly recommend. Sarah Brooks does a wonderful job building the story, dialogue and interaction among that various heroes and their heroine, especially with the alpha male Marcus, who moved in next door.

This book does contain some intimate scenes that fade out for the most part with multiple partners while in a committed arrangement, adult language throughout, violence (death, kidnapping, abuse, etc.), so if you are offended by any of these situations, then this is not the book for you.

There are also some really good bonus stories that I have never had a chance to read until now - Highly recommend

I volunteered to read and leave a honest review of an ARC from the author.

After receiving and reading the ARC version of this book in exchange for an honest review, I found myself presently surprised. To be honest, I haven't really gotten the chance to read books like this in the romance genre of books, but I found it refreshing. Meet Isabella, an up-and-coming artist who meets 4 very attractive men; steamy scenario's ensues and steamy situations between them erupts like fire!

I found no spelling errors and the entire story line was fluid all throughout, the characters themselves was refreshing and their background story I found to be very creative. All in all, I'm very impressed with Sarah's creative writing skills and so I'm very proud to say I'm giving her latest storytelling a 5 star review rating and highly recommending it to anyone who loves reading good romance novels.

Different Indeed

This story is quite different than any other one than any I have ever read before, even for a reverse harem. At times I found Isabella too immature and was unable to really connect with her character. But the men in her life truly brought depth to her. Out of the four, I found Marcus to be the most approachable. While each held a different role in this unorthodox relationship, Zed and Rob didn't quite get enough depth to really get to know. Stanley seemed wishy washy at times but overall a lovable person.

Exciting RH story with steamy bonuses

I really enjoyed the title book - it was crazy exciting and full of drama...and hot guys...and best friends...and steamy sex...and love. The story itself was great and well written. I just couldn't put it down. Isabella has a very open mindset towards relationships. No one guy is ever enough...there just isn't a perfect guy. But several different guys can make up the perfect relationship with little pressure on anything of them. Why choose?

She and Stanley had been together for years. Marcus was her smokin' hot new mysterious neighbor - they hit

it off immediately. Rob was a blind date set up by her BFF, Willow. And Zed was a friend of Marcus' who took care of Isabella more than once when she needed someone. They clicked right away too, as Marcus knew they would.

Marcus and Zed brought a whole new dynamic, and danger, to Isabella's life. And things certainly did get exciting. Loved this story!

The bonus books were fun, but if I'm buying a RH book, it would just be nicer if the bonus stories were RH too. I did like "His Huge Rock" though.

Raecharmed says

Isabella loves men and she doesn't want to settle with just one. She was living with three men but she moved to her grandparents home to do some renovations and to live permanently. The only one of the three she asked to go with her was Stanley but he didn't want to move in so he would come over whenever he wanted. Isabella met her new neighbor her first night there when she was looking for the hidden key rock to get into the house. Marcus is intrigued by Isabella by is trying to keep his distance but he never expected her to track him down. Things progressed between Isabella and Marcus just not as quickly as she would've liked. Her friend Willow thinks she needs to settle down with one man and sets her up with Rob. On her first date with Rob things clicked and they ended up having sex and she knows she wants to add him to the mix of men she's with. Marcus has a secret but Isabella can't get it out of him but it doesn't keep her from being with him. Then one day Marcus introduces Isabella to Zed and asks if he can join their group. Zed and Marcus also so Isabella what its like being with two men at the same time something she had never experienced before. However will Marcus's secret disrupt what they have started together? Will everyone be satisfied with this lifestyle?

This was a great story it grabs your attention from page one. Its a hot steamy love story that you definitely won't regret buying. If you haven't read anything by this author then this book would be a great start.

I voluntarily read and reviewed this book.

Unusual encounters

This is an entirely different type of romance for Sarah J Brooks. It was my pleasure to read this book as part of her ARC team and I couldn't put it down. A lonely woman who can't commit after a tragic loss gets into multiple relationships to avoid pain. What happens from there is a bumpy ride that keeps you guessing til the very end!?

The Gang Of Four + Isabella!

Oh we meet Isabella who lost her fiancé when she was younger and now craves constant loving and sexual companionship. AT college she had her roomies but now she has graduated and moved back home to live in her grandparents house that she now owns. Stanley is the only one of her friends that comes with her but he moves in down the street rather than sharing the same house as her. She spies her hunky next door

neighbour, Marcus, on the very first night there and one thing leads to another and they have a very hot sexual encounter that she wants more of but the next morning he is gone without a word and is missing. Her best friend introduces her to Rob who is a real looker and at the end of the date they end up in bed having very hot and steamy erotic session together. After weeks away Marcus returns and has brought his colleague, Zed, and asks Isabella if he can join their play group? She agrees with passion and they have a threesome that blows her mind. All four men satisfy a need in her that no man can satisfy on his own so she is ecstatic and having the time of her life being so well pleased. However, Marcus has a secret that she cannot get out of him but then there is a murder! Is he one of the good guys? What is his work and why is she now in danger?? All will be revealed when you purchase and read this book. Sarah J. Brooks has a lovely flowing writing style that makes it a pleasure to read any of her stories. She writes with passion and her choice of words is so creative to make the characters become almost 'alive' to the reader and thus making it so much more enjoyable. The storyline is great and it was terrific when we found out what was Marcus's job with Zed! I really enjoyed this fast paced story and hope that you will too. DEFINITELY RECOMMENDED

Emma says

I voluntarily received an Advanced Readers Copy of this book. What an unusual college experience. Isabella was living with three men Stanley, Kirk and Sam. I liked that she was unconventional and daring to try new things. She was sexually free. She liked that she was worshiped and loved for who she was. She was not into monogamy. After college she moved into her grandparent's old house alone in Bain, MO. Her BFF Willow, was a constant friend, always trying to be there for Isabella because she had lost her parents to illness and had no other relatives. Once living in Bain, she met Marcus, her next-door neighbor and then Rob and then Zed and still with Stanley. Unfortunately for Isabella she had a hard time coping with high anxiety under stressful situations and she would panic. Marcus and Zed led very dangerous lives and their situations got the whole group involved. An exciting read.

Jasmine says

Isabella went through a tough time when her boyfriend died, she vowed never to get into a relationship again. But what is a woman to do when you have a healthy active appetite for sex, you find a group of guys that will take care of your needs without getting jealous. She had that with Kirk, Sam and Stanley throughout college, but upon graduating, everyone went their own ways. Stanley moved down the street from her, but wanted to try and find a wife, if possible. Isabella was giving him his space. But when Marcus comes into the picture, this may be a game changer. Can she survive with one guy? Or will a blind date with Rob prove to be fruitful in her lifestyle? And how does Zed fit into the picture? Is 4 too many?

This is a great story about a woman coming into her own and knowing what she wants and doesn't want. This includes mystery, drama, murder, hot steamy sex scenes, love, lust, romance and a HEA (for now). I received an ARC of this book from the author.

Lady Elizabeth says

I have to give it to Sarah J. Brooks, the suspense, mystery and steaminess (yes, is a word. I checked) in this new book was really high. It's not easily done, so I applaud her mastery.

That being said. I'll try not getting into details about each character in the story because as you may have already figure out, there are too many *smile*

Isabella is our main girl and most of what's happening in this book revolves around her. Including the guys, which is sexy and I'm down with that.

I enjoy reading the book. I was very intrigue about what was going to happen next, specially with Marcus having a complicated job. Add to that Zed working another complicated job. You only got Stanley and Rob to take care of Isabella when things go way out of hands.

At around the 70% mark the book got a lot better for me. The suspense got way up and so did the stakes. I can't explain how enthrall I was reading about Isabella trapped by the bad guy. With the good guys coming. Would they be on time to save the day?

Life lesson: Don't you EVER accept a ride from strangers. No matter how nice and normal they look.

What I really didn't like and put me off the story at points, was the lack of a sturdy background for the male characters. It was well written, don't get me wrong, but personally I felt a lack there. The only one I thought had a strong background mentioned in the story line was Marcus, followed closely by Zed. The other main guys felt a little like filler and I didn't like that.

I would recommend this book to you if you are looking for a steamy erotic romance with ex-SEAL's, hot guys and a strong woman who knows what she wants. Sprinkle that with suspense and mystery and you got yourself the book you're looking for in: Four Reasons to come by Sarah J. Brooks.

4.5 Stars!! There is Isabella Peterson who lost her fiancé and decided she could never give her heart away again. She is a photographer as a profession. She moved back to her home town to live in her grandparent's home and asked one guy, Stanley, to come with her. He did but moved in down the street. Then there was the guy that her best friend introduced her to, Rob, and he was great fun. When she met her next door neighbor, Marcus, she thought he was absolutely gorgeous but his frequent trips out of town and his mood swings made her crazy. After one of his trips, she didn't want to speak to him but he was not taking no for an answer. Things go a bit crazy after Isabella has a photo exhibit where three of the men she is dating show up and then things get good and interesting. Will she pick just one guy or continue the way things are going? Will she need protection because of what Marcus does? Its a fast paced book with lots of hot steamy scenes. Enjoy!!

A woman that knows what she wants this is the world we are in now. Isabella doesn't want one man, she wants whatever she wants. She had one man and when he passed away it broke something inside her. So she figures why put all her eggs in one basket. So she decides whatever gets her itch-scratch that is what she will have. Well in this book it happens to be 4 men.

Stanley, who happens to be her one man that is always there. He seems to flow with whatever Isabella likes. He is her one strong rock.

Rob is introduced as a friends co-worker. And is new to having a woman with multiple lovers. But it doesn't seem to bother him. As long as he gets his time with her.

Marcus is Mr. alpha. He has some hidden parts but he is going to protect Isabella. He has no problem with Isabella's love life and actually seems to enjoy it. And wants to add to it.

Zed- is a co-worker of Marcus. Again Zed is added as a second of Marcus. Another alpha in the mix but it doesn't seem to mess with the mixture.

These people are wonderful together and apart. There is no man on man everyone is for her pleasure. There is some mystery involved in this story. Good book, highly enjoyable. I voluntarily read an advance reader copy for my honest review.

Isabella is a photographer who knows what she wants and goes for it. She loses her fiancé and decides to harden her heart and not fall for another man, at least not in the traditional sense. She moves back home to live in her grandparent's house and the fun ensues. She is not one who lacks male attention. Enter Stanley, the remaining college roommate with benefits who lives down the street. Then there is Marcus, the hotter than heck neighbor, who frequently travels for work and is prone to having mood swings. Next there is Rob, the friend of a friend, and finally Zed, Marcus' co-worker. Things get really interesting when Isabelle is planning her art exhibit and the three just show up. Who will she choose or will she keep them all? This book has a bit of everything including: hot scenes, drama, and suspense. It is one enjoyable read from start to finish and should be added to any tbr shelf.
