Bloody Monday Vol. 7 Ryou Ryumon

Guided by their instincts and expertise, both Fujimaru and Kano are getting very close to their targets. Life, however, isn't about to throw them an easy victory. Their fortitudes are about to take a blow... a very explosive one!

Meanwhile, Ryunosuke Takagi has unwittingly stepped into the terrorists' trap, and Otoya and Aoi fight desperately to protect him. They dial for help from a friend, but Otoya's sharp intuition is telling him they may have just leapt from the pan right into the fire. As if a virus outbreak and enemy infiltration aren't enough, THIRD-i is facing a new internal crisis. An ignorant, yet obnoxious bureaucrat has been assigned to take over their leadership, and he threatens to undo valuable research that could put them all in grave peril!

I really don't wanna give up on this series since I am already in the middle of the entirety of it. But how I wish the plot could just speed up its phase. I was having a hard time going on through this and I should be honest, I even skipped reading those soooooo loooooong lines among the third-I's and even that of J's group. The word bubbles were already half of the drawing since they have suuuuuper long lines. This was one of the most boring "thriller" that I have ever read.

Besides some really graphic and not graphic deaths, I felt this entire volume was insanely lacking. Some of the translations are off too.

All is good except the wonderboy's sister is annoying the hell out of me. *roll eyes*

I guess she loves being a burden and screw things up.
