Not Until You Part I: Not Until You Dare Roni Loren

From the author of the Loving on the Edge novels comes a story of a good girl who discovers that once you dare to cross some lines, it's hard to turn back...

On the night of her graduation, innocent veterinary student Cela decides to play a game of Never Have I Ever with the two hot neighbors she's been quietly crushing on for the last year. Always the prim and proper student, Cela thinks she's earned a wild night before she has to move back home under the watchful gaze of her family. But what starts out as a simple game is about to take a very sensual turn...

Ian Foster is tired of playing games. With his membership to The Ranch, an exclusive BDSM resort, and a musician roommate named Pike who brings home groupies with a taste for ménage, Foster has a life most guys would kill for. But lately, his need for dominance is no longer satisfied via one-night stands. He craves the full surrender of one woman—a submissive of his own.

But when his quiet, sweet-as-sugar neighbor shows up at their door with a bottle of tequila and an invitation, Foster decides he and Pike may have time for one more fling...

*This will be an e-serial, releasing in 8 parts.

What can I say? Roni has done it again! Between Cela's first time angst, Foster's sexy as hell underlying dominance, and Pike's bad boy fun loving attitude I think I may have just found my favorite read of all times. It's no surprise to me that Roni has yet again rocked my world with her amazing writing abilities. I love the little (and I do mean little at this point) insights that she gives to each character's personal life history. Truly intriguing. Waiting to get more of their back stories and how it will make for a HEA (which I'm hoping for) has me as excited as their first night together. I totally do not mind that this threesome doesn't start out at The Ranch. It gives us so much more to look forward to. My big question is what will Andre think about his sis joining rank with him at The Ranch. Does she even know about his relationship with Jace & Evan. Being a faithful Roni Loren reader I love how she incorporates characters from past books into this serial. I have to say the cliffhanger is making me crazy but I know that part II will be well worth the wait. Thank you Roni you rock!

Not Until You Dare by Roni Loren is the first part in an eight part e-serial. It's a very quick read and although we don't necessarily get into the "action" that happens in the story, Loren does give us a great set up to this highly anticipated e-serial. In the beginning, we are introduced to Cela, a hard working veterinarian graduate, who's just spent a large portion of her life studying and not really enjoying her life. Armed with a little bit of liquid courage Cela decides that she's finally ready to let loose and have a little fun. And who better to have fun with than the two hotties next door? Ian and Pike create the perfect balance. Ian Foster is really the "Christian Grey" of the story. He's cool, calm and in control except when it comes to Cela. She tends to make him lose his control. Then there's Pike who's fun, laid back and charming, for lack of a better word. Pike is a sexy drummer who's down to just have some fun.

What I liked: I loved that Cela showed some culture in her character. We get to see glimpses of her background, her heritage and her strict family. Cela was easy to like and fun to get to know. I really liked Ian and Pike and just how they're really like a balance beam for one another. Right off the bat you can definitely tell what type of characters they are. I love the build up in this story and I couldn't help but like Foster the most. That said, the story is told in two POVs. In Cela's point-of-view and in Foster's. Part of me wondered why Pike's POV wasn't included, but I'm getting the feeling that this story is really going to end up being about Cela and Ian (Foster).

What I didn't like: I think my one complaint is I do wish Loren would've made part 1 a little longer, but that's just because I became a little greedy with the story. I didn't want it to end. I also hope to see more character development with Pike in the following parts. I love Foster, but I don't want Pike to get neglected.

Jillyn says

Cela's life has always been planned. She'll graduate from grad school, move back home, start working at her dad's vet clinic, and end up dating her ex boyfriend from high school- the only boy to pass her dad's "test".

But on her graduation day, Cela realizes that she has a loooong list of things that she's never gotten to do. When her two hot neighbors, who may or may not have been in a few of her fantasies, invite her to play a game of Never Have I Ever, she cannot resist. Who better to scratch her innocent, untouched itch than the two dominant men she'd listened to for all these months through the wall?

I did not know this was a part of a series. I really wish I had. I am far more sexually frustrated by the end of this book than Cela ever was. This was a novella, so I'll keep the review short.

+Holy steam balls batman. Roni Loren does a great job of taking her damn time, teasing the reader with thoughts of naughty, naughty, delicious things. Well done.

+This is rare for me in erotic/adult stories- I LIKED THE FEMALE. I thought she was funny and genuine, and I liked that she wasn't so awkward that it was offputting, but not perfect and cool as a cucumber either.

+Dom men. Dom men who belong to a BDSM club. Do I need to add more to this plus?

I had never even heard of this author, or series, or anything, but I'll be damned if I don't read the rest of these. This is a short, tempting, erotic read that is a great little quickie for the impurer reader. I definitely recommend it. (If sex or BDSM or menages offend you- this is NOT for you!)

This review can also be found on my humble blog, Bitches n Prose.

I need the next installment now. Love Pike, he's funny and says what he's thinking. He's the tattooed bad boy who's all charms. I love Foster's dominance. He can't hide his dominant side and Cela brings it out of him with her inexperience.

I've never read an e-series before but this one got off to a great start and has me wanting more. I love all of Roni Loren's books. I highly recommend any of her books and this e-series.

I love Roni Loren and this smexy serial has TONS of potential. Gonna be super HAAAWT and you know it just in the first installment. Is it wrong that I'm already chanting in my head as I read...go to THE RANCH (the BDSM club from Roni's other books)? LOL.

It's part cute-meet, part bad boys next door and YOLO. Pike is a dirty blond, hot, laid-back drummer in a rock band and Foster, a buttoned up, suit wearing, dark haired, blue eyed BDSM lovin alpha/dom.

-Guess which one I love?

Turns out one of the roomies has had his eye on the quiet vet doctoral student next door and unbeknownst to

both men Cela's been fantasizing about what she's heard through the walls for the last two years: moans, slaps, and all and she's tired of being the perfect daughter and scholar. Not to mention -alone- recreating those scenes thinking of the men on the other side of her bedroom wall.

What she doesn't know...is one of the men has heard her and wants to know who she's thinking of when she's doing things all alone...

She's a Dr. now and before she's forced to go home and join the family and her father's vet practice good girl Cela wants more.

It's obviously menage, it's going to be hot as you know what, and as usual, I'm digging one of the men more than the other (does that always happen for anyone else besides me???) and I'm really looking forward to parts 2 and 3. Received ARC for review and can't wait for more!

HATE waiting for all 8 parts!! GAH. But I'm totally hooked and see this going into 5 STAR smexy territory.

4.5 sexy stars. A great short read that's left me excited for more!

Marq(ReadingRomanceinColor) says

I'm normally hesitant to read serials but I am a huge fan of Loren's Loving on the Edge series so I knew I had to read the first installment of Not Until You.

Cela has just graduated from veterinary school. She's spent all her life being the obedient daughter and in a few weeks, she'll be moving back to her hometown to work in her father's practice and date the guy that her family approves of. Cela has been crushing on her neighbors for a year but hasn't done anything but mumble a hello as she scurries to her apartment. Cela is ready to be a little wild before she heads off to her boring life in Palo Verde. Cela shares a wall with her sexy neighbor Ian Foster and has heard some of the sexual

exploits of her apartment neighbors. He has starred in many of her fantasies and wonders if he's as good as he sounds.

Ian Foster has the hots for his shy neighbor. Foster and his roommate, Pike, often share women and they both think that Cela is sexy. Foster would like nothing more to have Cela for himself but he thinks she's too innocent for his dark tastes.

Not Until You Dare is super sexy and hot! The serial starts off with a bang and I can't wait to read the next installment. The sexual tension between Foster and Cela is explosive. Foster is a member of The Ranch and he is a Dom. He wants to mold Cela into the woman he knows she can be but doesn't want to scare her. He sees her innocence and isn't sure she can handle what he wants. Foster is very sexy and intense where Pike is boyishly charming and fun.

I love that Cela is Latina. There aren't many ethnic main characters in erotic romances. We get a peek into Cela's conservative, hispanic background. You understand why she's never defied her parents and feels the pressure to be a good girl and not disappoint her father. I will say that my only complaint is Cela's age. I wish she was a little older. From what I can tell, Cela is 24/25 years old. I've been reading a lot of adult romances where the heroine is in her 20s and the hero is in his 30s. It's been bothering me. It's as if older established women aren't sexy anymore. Anyway....

I really enjoyed Not Until You Dare and all I want is for them to go to The Ranch. Hopefully it happens soon. This serial will be released in 8 installments and I am looking forward to each and every one.

I've been a fan of Roni Loren for awhile from her Fiction Groupie blog. I couldn't wait to read her latest novella, Not Until You: Part 1 Not Until You Dare.

It's Cela's graduation night from Vet school. It seems life is all mapped out for her. Move home, work alongside Dad, end up with the guy her family approves of (whom by the way he's waiting for her to return home.)

The only problem with her life is she's not living it.

Cela carries a secret crush on her neighbor Foster. He also has a friend named Pike.

Oh, my goodness! :-)

Roni Loren is a great writer. Not Until You Dare is a strong start towards her new series.

Around 49 pages, Not Until You Dare is a quick and fast paced read. I read it in one sitting.

I would recommend this book for:

Adult Fiction
Erotica
Contemporary Romance

Roni Loren is sooooooooooooo mean :P I had promised myself that I wasn't going to read any of the Loving on the Edge series until I could get ALL of it but of course I caved in and just as I had expected she left it on a knife edge and now I've got to wait a whole week for the next part :(On the upside it so was so well worth it!

<3 Pike <3<3<3 Foster and with the possibility of Andre and (fingers crossed) hopefully Jace thrown in at a later point it's the promise of everything I've come to love about her books.

THEN to be really, really mean she throws in the preview of Caught up in You - which I had deliberately NOT read before boy oh boy she really knows how to build the anticipation! And all before 7am on a wet and grey Tuesday morning!

Only downside was that I already had the book on pre-order from Amazon so missed out on the freebie from Goodreads lol

Holy Hell! Why did I leave this sitting on my Kindle for so long?

Not since C.D. Reiss have I loved a serial, but damn this is good!
I wish I lived across the hall from these two!

Pike

Foster

Julie Cross says

This opening is super strong! What I love about this one is that it's like New Adult erotic. Or at least I'm anticipating that's where it's headed. If you like sexy NA, books like On Dublin Street, if you like erotic romance then I think you'll love this one for sure.

Robyn Rosenberg says

Not Until You Dare- Part 1 Ebook by Roni Loren. (She writes more BDSM) So if you only want "Vanilla" romance this is going to be to HOT for you. Cela has just graduated Veterinary school. She is just going to have a quiet night celebrating alone at home. Her next door neighbors Pike and Foster whom she has been

secretly lusting after for over a year would love to help her celebrate. Their idea and her idea are different. Cela's life has been planned out for as long as she can remember. She is a good girl. Can she let down her defenses and have her sexy next door neighbors Pike and Foster help her open up her bad girl before she has to move back to her family? Read this amazingly hot part 1 and find out. I give this 5 stars! I could NOT put this ebook down. I finished it so fast, wanting and needing more! I will be counting down until NEXT Tuesday, for part 2!! 5 stars!!! OMG this is a hot sexy read!!! I LOVE Roni Loren's writing!!! I am a HUGE fan!! I say the HOTTER the BETTER!!!

Christina Montminy says

It's a short quick read, but a good one. I have to laugh at the comical reactions of Pike when he realized that Cela could hear his make out sessions with the girls he & Foster brought home. It was also comical when he found out that Foster knew she could hear because he had heard her in her own bedroom at night. They're trying to take it slow but man they're having a hard time. Think the rest of this is going to be really interesting & one that I won't be able to put down until I finish it all. I love Roni Loren's writing having read the others in this series.

Jenn Cunha says

Damn. I was trying really hard not to do the serial thing (mainly because I think they're more expensive and also because I hate cliffhangers!) but Part 1 was offered for free on GoodReads and I can't turn down free.

I was NOT disappointed. I could have used a little more description of what the guys looked like, but can you say hello hotness!?!? Cela is in for a treat and I think readers will be too. This is the first of Loren's books that I've picked up (downloaded, whatever) and I'm going to have to look at her other stuff ASAP. But making us wait 8 weeks to get them all?!?! So sad, especially because I like my books in one delicious helping. Guess I'll have to order all of them and just mark my calendar for when the last one comes out so I can read them all in a row.

Rating: B+ ... Heat: Hot

Marcela 'Cela' Medina is a newly graduated veterinary doctor. For seven years, all she has focused on is her education. And all work and no play has made Cela a boring, boring girl. That and growing up in a strict household. Letting loose and having fun doesn't come easy to her. Her one naughty vice? She listens to her two hot neighbors going at it—solo, with a random woman, or in a threesome.

One of her neighbors, Ian Foster, is always in suits and ties. He looks like all business—in and out of the bedroom. And, just like Cela has always had her eye (and ear) on Ian, he's always had a thing for his innocent and vanilla neighbor. Though he knows his proclivities aren't what the innocent graduate wants or needs (as he's a member of the bdsm club, The Ranch, from Roni Loren's *Loving on the Edge* series).

In *Part One: Until You Dare*, Cela decides that she wants to live it up before leaving the big city to return to her hometown. Where she'll work at her family's vet practice, date the guy her parents want, and generally have the rest of her life planned out. To celebrate her graduation, Ian and his roommate, Pike (a sexy

drummer!), take Cela out for a night of fun. The three get to know each other while dancing and playing Never Have I Ever. It's a night full of teasing touches, hot kisses, and raging libidos. But only so much can take place in a club...

In *Part Two: Until You Risk*, (view spoiler)

Can I be honest? Me and serial romances have a love/hate relationship. They're one long, drawn out tease! And nobody likes a tease, right? *wink* But, well, when the writing is fantastic and the characters are lovable and the romance is scorching... I'll make an exception. Roni Loren's *Not Until You* is worth the week long wait in between installments. Plus, who better to make a tease worth it in the end than an author who doubles as a Mistress with a pen? If anyone can make delayed satisfaction worth it, it's Roni! Plus, there is my weakness for sexy, dominant older men... so, if that's your thing too, you'll love Foster!
