WOW...review to come..

Theresa Hewitt says

You will not be disappointed! This book, it pulled at my heart a little more than the others. If you've followed the series then you'll know how Brie has grown and this one, well, it just about tops as the ice cream on the pie. Italy, it holds lots of love for our favorite D/s couple. A round of applause for my friend and fellow author, Red, for creating another masterpiece.

The Reviewer says

One more book to go and that's it?!! That's not fair!!!

Review will be posted soon

So I chose to read this because well it's written by just one of the best authors in the whole entire world. Honest. If you haven't read any of Red Phoenix's stuff before, do so. Now. But start with Brie Learns the Art of Submission.

Unfortunately my friends, this next installment is sad but happy because we only have one part left. Yes, just one part. I know, I'm sad too BUT I know Red won't leave us hanging and she'll be writing more fabulous pieces of work and I can't freaking wait.

This next installment, Sir takes Brie to Italy but first, they head to the haven and Brie has an encounter with Ms. Clark. Poor Brie. No matter what she does, that Domme still has a grudge against her and wow. Ms. Clark...wow. I gasped with what she said to Brie and what she called her. Really? Rude. But I thought it was awesome that Sir made her apologize to Brie. I was like, "Take that, Ms. Clark!!" Of course, I would never actually say that to her. She's scary.

Since reading Amy and Troy's story, I now have a thing for Master Anderson but me being the dumb one, never knew that Brad and Master Anderson were one in the same. What can I say? I'm special.

One of my favorite scene's in this story which is right at the very beginning was when Master Anderson is training Sir how to use the bullwhip. It was highly erotic but sensual and spiritual in a way. I loved it.

My heart broke when Brie and Sir told her parents about their lifestyle. I hope they can mend that relationship.

I absolutely love Rystar! He's so intriguing and just...well...Rystar. ;)

"Tonight you will learn the power and allure of your Master's belts." <--- One of the sexiest things Sir says in this installment. That's all that I'm going to give you about the belt chapter. Read it if you want to find out more and trust me, you will not be disappointed.

I enjoyed seeing Sir take Brie home to Italy and her meeting his family. His grandmother's reaction to seeing him again brought tears to my eyes. And his ex? Grr. I wanted to fight her for Brie.

I loved this installment and I can't wait for the next one. Even though it's going to be the last and final one, I know this story will end beautifully!

My heart is just at peace right now! I really loved this novelette of Brie #7! Red Phoenix NEVER disappoints her fans! So emotional on so many different levels...you just have to read it to understand! This book left me feeling like I'd just had a good time with good friends and can't wait TIL We get togetger again! Thanks for the party Red! Absolutely wonderful!!!

In this installment of Brie (after graduation)she gets to visit her Master's hometown in Italy. When Thane and Brie are visiting, he is faced with a part of his past that he will not be able to ignore. Brie is faced with a decision that could potentially break her heart; but it is amazing what she is willing to do for love. Is their love for one another strong enough to overcome this hurdle?

One thing I have loved about the Brie series is how even though they are short stories, there is never a dull moment to be had. Each story involves catching up with old friends, adventure, and hot sex! You would almost think the sex would get boring between the same couple; but it doesn't. Red Phoenix does a wonderful job with introducing new and exciting sexual "games" and positions between the couple. Brie and her Master have blazing hot chemistry together, and this book is packed with some firsts for them. It is nice to see that Thane has a creative side, and he seems to enjoy making up some pretty erotic scenes for his sub! He even learns how to use a whip, and if Brie's response is any indication to how good he is-then he should be extremely proud of himself! I also loved seeing a bit of a playful side to Thane, it has been a pleasant

surprise to get to know him more in the After Graduation series, as in the first series I found him more of a mystery man than anything else.

I can't say enough good about the Brie series. I also adore Red Phoenix's work, and I will always look forward to reading anything she writes. I noticed at the end of this story, there is a note stating that the next book will be the last in the "After Graduation" series...This makes me so sad, although I guess all good things come to an end at some point. I have loved taking Brie's journey first through her "Submission School" days, and then her "After Grad" days. This is a series that I will take pleasure in reading every so often, and it will always have a special spot in my library.

There are a number of author's that I just cannot wait to read and Red Phoenix is one of them. Especially, her Brie Series. I hate that we are almost finished with Brie After Graduation. There is just one more novella to go, but Red Phoenix is promising that it will be longer than the others. If it is anything like #7 then WOW !!! Fans are in for a treat. So many things happened and in this reader's opinion, all were fantastic.

We learn a little more about Ms. Clarke and her past but still I want to know what exactly she did to Rytsar. Also loved how Master made Ms. Clarke apologize to Brie. He is so in tune to her emotions.

There is an intense Bullwhip scene with Master and Brie ... wowza.

Master and Brie travel to see Brie's Parents ... hehehe ... saw that one coming. "Secretly I am hoping to find out her parents are in a BDSM relationship, now that would be hysterical."

Master and Brie travel to Italy ... O.M.G. I cannot even describe what happens there. A woman from Master's pass has waited for him for 18 years ... SAY WHAT !!! Parts were uncomfortable for poor Brie. But I think in the long run it was the best thing that could have happened for Brie and Master; I think it brought them closer together and showed Master where Brie's heart is. This reader will tell you she was crying like a baby when Master and Brie had their talk.

We also celebrate Brie's Birthday. There are some humorous moments, and again another shocker with Ms. Clarke and Rytsar.

Please Red, I am asking as a fan ... before ending After Graduation answer a few of this readers questions, in the last book. Please ... please ... PLEASE !

- 1) What the heck did Ms. Clarke really do to Rytsar?
- 2) Are Brie's Parents accepting after all, and are they into BDSM now?
- 3) Does Master propose to Brie? And make little Brie's?

I do not want to give too much away but I must put a number of my favorite lines in this review. They are just too meaningful not to mention.

***** Spoiler Alert *****

“ He was the master of incidental touches-simple contact that could drive a girl wild.”
“ God, I can’t believe he’s making me do this!”
“ I am honored by the depth of your love, babygirl.”
“ But I will never let you go.”
“I love you, Thane.”

5/5 stars

One more shiny masterpiece by Red Phoenix!!! Hot and erotic with an amazing storyline!! I LOVE that we are introduced to new hot, bdsm scenes on every book of Red Phoenix!! And the emotions just flow... It was a rollercoaster of emotions and happenings that covered a big range of feelings!! Not to forget the vivid visit to Italy!! It made me hungry to visit Italy like Brie and Master. Sigh....

After another disastrous run-in with Brie's parents (where this time she tells them about her D/s lifestyle... *groan*) Sir and Brie are off to Italy!

We get a little mile-high club

Then we get to see the scenery of Sir's youth.

On an island visit, Sir discovers hidden treasure.

In the midst of it all, Brie gets a glimpse of what Sir's life might be like without her. Brie is forced with a decision... Keep her love or let him go...

We conclude with a tantalizing birthday party with wicked games...
And of course, Birthday Spankings!

*****I read this book as part of The Brie Embraces the Heart of Submission: After Graduation Boxed set, which was provided to me free of cost in exchange for an honest review.*****

It has taken me quite awhile to get myself to read the final two parts of the After Graduation serial. To be perfectly blunt, I've not been enjoying it as the the previous one. Brie's adventures in the Submissive training centre, though not exactly believable, were quite unforgettable and made for a fun read. I haven't had that much luck with what happened afterwards. I'm aware I gave positive reviews for AG, too, but now I think it was probably me trying to keep my enthusiasm for Brie & Sir's love affair. However, I have had some problems with from the get-go.

Firstly, the suspense was lost for me. Part of the fun while Brie was in training was guessing which Dom she would pick to offer her collar to. Now that that is known, I'm not really wondering about anything. Sure, there are some parts added to create some mystery, but they aren't working for me. I actually preferred Sir in the previous serial when he was all closed off, surrounded by an air of mystery. I particularly liked that he was a man of few words. I'm not really a fan of all the things he said in AG. All this combined was the tipping point for me to take a break from Brie. To be exact, it was Sir calling his mother a beast that completely cooled me off.

Secondly, there was much less kink. In first Brie serial, there was so much going on with so many people, and now it's very sparse and honestly not as nearly as entertaining as before. Even when something good gets on the way, Sir or Brie manage to ruin it for me by saying something so, so, so cheesy. So cheesy. Ugh. I'll say again, I preferred the quiet Sir.

Thirdly, the formal talk. I find it weird the way Brie and Sir talk to each other now that they are in a committed relationship. I suppose it was somewhat understandable before when they were a headmaster and a student, but now it's plain weird. That is also the problem I had with almost all of the characters. They were all so formal.

Fourthly and fifthly Brie was often too childish, and I did not care for where Ms. Clark's character was taken: the only Domme in the sea of Doms, and she got that. I wish their community was more... colourful.

Case in point would be this part of AG. I know this is more of a review for the series -- one that I've used mostly to vent -- but it applies perfectly here. Also, I do know that I usually give two stars to books I didn't like but feel bad giving one star, but here I really do mean what Goodreads says about the two-star rating: it was okay.

Loved it, Loved it, Loved it. As always Red Phoenix comes through with another one of her books. She continues to bring us through Brie and Sir's life after her graduation from where it all began, "Brie Learns the Art of Submission" I found Red on Goodreads and fell in love immediately. With each book, she leaves you wanting more.

Brie first shares her lifestyle with her family. She wanted them to know of her excitement of her documentary. Sir then brings her to Italy to meet his family. It was a very touching reunion.

I give this book 5 stars and even though its a short story it certainly is a great one.

My favorite in this series so far, I thoroughly enjoyed it! It had me feeling lots of different emotions, but most of all it is the love between Master and Brie that has left me feeling their devotion and true commitment to one another.

Feeling a little sad that there is only one more to go in the series, but I bet it will be another fantastic book by Red Phoenix!
