Ghoulfriends 'til the End Gitty Daneshvari

Alerte goule à Monster High !

Wydowna Spider a révélé à Rochelle Goyle, Rebecca Steam et Venus McFlytrap des informations top secrètes : quelques créatures fantastiques ont formé une société mystérieuse dont l'objectif est de monter les goules les unes contre les autres.

Les goules décident alors de poursuivre leur enquête pour en apprendre davantage.

Et il semblerait que l'héritage stylé d'une de nos goules préférées est peut-être la clé de tous ces mystères...

Zeydi says

i think the book is tite

Meg McGregor says

This series definitely grew on me and this book is my favorite!

I really liked how the ghouls helped each other through everything - no matter how trivial or important! They are there for each other as true friends should be!

And I also thought they were very kind to help Wydowna and help her to become part of their school. And even Cleo and Toralei were able to shed their loathesome outer personas and show their inner beauty.

Well done and I hope to read more by this author!

Kelly Carey says

I thought that this was the final book in the Ghoulfriends series; however, the epilogue at the end leaves the plot open for more adventures. I guess you have to buy and read the Ghoul-It Yourself book to find out if Rebecca ever finds her dad.

Overall, I felt that the ending and solution to the main problem was rushed and rather simplified at the end. I thought there would be a big battle between the two secret societies; however, it seemed pretty easy to tie everything up.

Holly Letson says

I did like this read, and I'd rate it 3.5*. Overall, I felt like it dragged on and on, which is sad for a book less than 250-pages-long. In general, I feel like the Lisi Harrison MH books are much better than these. But, I did find myself wishing--regardless of the fact that I was glad this series is over--that there was one more book. I got attached to the characters, but not the writing.

Cleo's father kidnapping her was a dumb idea. Miss Flapper running her mouth off at the very end, so that the MH trio could go save the headmistress, along with Wydowna and Cleo, was awesome. I felt saddened that Rebecca's father was not there with them, but loved the surprise ending. I wish the surprise ending could be elaborated more in another book, since I really wanted Rebecca to be reunited with her father.

Glenda Woodson says

I know a lot of people may not be fans of this series, but I find it quite entertaining. It is for the younger side of the fandom, but it gives more insight into the world of Monster High and I can't wait for the next installment.

Shanna says

I read this novel to my daughter and she loved it!

Jennette says

I loved it so much seems like they might make another book

the only thing I don't like is some questions were not answered and they ran around a lot like the last book

Monica says

Hope they come out with another series.

Noël Page says

Awesome Book and you might be surprised at the end???????????

Zac says

Another chapter book read with my 7 year old. This was pretty much torture. She enjoys the dolls and the movies and we've read other Monster High and Ever After High books that she enjoyed, but this was really painful. One run on sentence after another. A pretty pointless plot. Neither of us particularly enjoyed this.

Aulanie Olivares says

Ghoulfriends 'til the End is a good ending to the series! I have read the first three books of it and gave my opinion several times on how I don't enjoy the books as much as I used to when I was in about 2nd grade. But it's okay because I was able to reflect on why I don't like them anymore. The books are still fantasy with the idea of high school monster friends going on adventures and I would still recommend them to kids that are in elementary school. My reviews weren't as descriptive as they are usually since I don't find these books as appealing but it's okay because I have refreshed my brain by reading them once again and I can read books that I am more interested in now.

Queenie says

I just like to read it?

Samiksha says

sorta awesome since they find a student of monster high named wydowna spider living in the attic the whole time without them even knowing!!!! i love how venus, rochelle and rebecca muster the courage to befriend wydowna!!!!!!!!!!!!!!!!!!!! that's so sweet!!!!

Mehsi says

Meh, I was actually hoping for this series to be over by now. It was a good book, but sorry, I am just tired of it a bit.

The story about ASOME and the normies has been going on and on for 4 books now, each book has a new something happening so that our trio can save the day once again. This time people get kidnapped and ASOME makes their moves. Of course, we also find out more about ASOME, about the people in it, and those who stand against it. But it really frustrated me, a lot of stuff was so obvious, yet it took everyone in the book ages to finally see the light and understand what was going on. I had a few close moments where I wanted to shout at the book. For them to hurry up, and why can't anyone see what is going on!!!!

With each passing page I was hoping the story would be wrapped up, but then came the last part of the book and I knew we would have at least 1 or 2 more books to go about this whole thing. Next time it seems we will get closer to a certain someone's dad. Not that I am highly interested in it, or anything on the moment. I will probably still read the book, as I want to know how it ends, but I might just wait until I know for sure the series is actually over.

The characters were fun once again. It was really nice seeing them again. I loved their little personality traits and how close they are as friends.

Cleo and that other girl, dear Lord, those two are horrendous. Throughout the book they annoy not only me, but also everyone else in the whole school. Teachers, students and others.

I really liked the illustrations that were added to the book, it gave the book some extra liveliness.

Would I recommend this book? I am not entirely sure. With all that happened in here, I would say yes and no. If you don't mind a book that just keeps going on and on, dragging its dead story with it through now 4 books, then I would say read it. If you don't like that, I would say wait until the series is finished.

Alexa Lepe says

Monster High Ghoulfriends Til the End by Gitty Daneshvari is a good book. This book is about three friends that end up meeting a new girl named Wydowna Spider who clears the threat behind Monster High. The three friends try to figure out which generation of monsters to trust once they meet a new group of monsters from different generation. I like this book because it is a mystery book and I like mysteries. I recommend this book to anyone who likes mysterious books.
