Sweet Alibi: The Complete Series Adriane Leigh

From USA Today Bestselling author Adriane Leigh comes a passionate contemporary romance about giving in to desire so sharp and sweet it threatens to consume...

Georgia Montgomery is desperate for an escape from the life she's been leading. The perfect job, the perfect apartment, the perfect boyfriend—all are on the cusp of driving her over the edge. On a whim, she buys a beach house on the North Carolina coast, eager to spend a summer with her college friends. She thinks she's found the perfect balance, until one pleasure-seeking playboy turns her world on its axis. Georgia tries to ignore the tornado of emotion that sweeps through her system whenever Tristan Howell is near, but just like an addiction, one look, one taste, one touch is never enough.

The chemistry is scorching and it isn't long before the slow burn ignites into a full-blown wildfire that threatens to consume anything in its path. But Georgia and Tristan can't shelter their love from the outside world, and the moments of exquisite passion they share aren't enough to sustain the relationship. When scars from the past resurface--will their hearts meld together as one? Or will outside forces tear them apart, leaving an empty shell where love and passion once thrived?

Note: Sweet Alibi was originally published under the titles The Morning After and Light in Morning. New POV scenes and bonus content has been added. If you're not new to this story, buckle up and enjoy all the angst and sweetness of Tristan and Georgia one more time.

Wow. This book puts a good ol' soap opera to shame.

It certainly has all the right ingredients: cheating, a love triangle, angst, melodrama, deception and lies, a perfect setting, unexpected twists, a tragic past, a long lost child out there you never knew about, diverse cast of characters, and an addicting story line.

Oh, and I forgot an annoying heroine. And her naïve friends. The heroine is a difficult and spoiled diva and her friends are stupid for putting up with her behavior and pampering her all the time. The only character I truly like is the hero who (for some reason unbeknown to me) loves the heroine with all his heart.

Perhaps the best description of the heroine's character gives us the heroine herself:

I was no good at operating my life; I needed someone to do it for me.

Despite everything, I did enjoy this book because the chemistry between the characters was off the charts. And because just like any other mortal, I wasn't immune to slipping getting hooked on a soap.

Originally two separate books, the Morning duet went through a bit of a face lift and became Sweet Alibi. I've gotta say, it was a long book.

Tristan was totally dreamy. In my opinion he was too good for Georgia. She jerked him around quite a bit. He had a checkered past but he became unfailingly loyal to her. I understood Georgia's misgivings but she lacked backbone! She didn't have the conviction to make a decision and stick with it; to tell herself it was a good, sound decision. I felt bad for Tristan most of the book.

This book was too long in my opinion. There were quite a few times I found myself skimming the pages because I felt like the book was never going to end. I especially skimmed through the sex, and it wasn't poorly written sex but there was just too much book and then the sex scenes just aggravated me because they were contributing to the excessive length of the book. Another contributor to the length of the book, and my second problem with the read was that everything that could go wrong did go wrong. And not in a 'Comedy of Errors' sort of way. It got to the point where it was just painful for me, Tristan and Georgia. Obstacle after obstacle was thrown their way and these just compounded their relationship problems and insecurities. It's like when a TV show has been on for 30 seasons and they keep ruining your favorite couple because they need SOMETHING to fill in all those season. Then there was this one ginormous non-problem that you get faced with and it's awful and you feel bad and just when you're coming to terms with it you find out it's really someone else's problem. Wth?! I could've gone without that additional unnecessary angst. I understand why confronting that fear was important for their relationship but Georgia's loyalty could've been tested out some other less drawn out way.

So, all in all, it was just too much book for me, and too many problems for the couple, in my opinion. If you don't mind a lengthy book where the couple faces a lot of obstacles then this might work for you. It was well written, just didn't fit for me.

Yay! I won an ARC from **Shh Summer Buzz Book Event 2016!!** Check out the event details here, maybe you could win something too! <https://goo.gl/uqgC3u>

Georgia and Kyle
Georgia and Tristan
Georgia and Kyle/Tristan

Are you confused? So is Georgia...well and Tristan too.

Georgia has been with Kyle for years...ten plus. They are in an established relationship. They live together. But Georgia bought a house on the beach out of state and has decided to fix it up and turn it into a rental, without talking to Kyle. Now don't get all feminist on me, I'm just saying that regardless of whose money it is, a major purchase would be talked about, right?

Nope, not in this case. Georgia decides to spend the summer fixing her new place and hanging with her besties. But her friends make this summer unforgettable in more ways than one. All of a sudden she has two strangers living with her for the summer- no way that's awkward. Nope, the loud sex isn't uncomfortable either. Not exactly the summer Georgia planned.

She really has no idea how off the rails her summer plans will get. Enter Tristan. Gorgeously sexy, sinfully cocky Tristan. Did I mention irresistible? Melts all women with a slight smirk, yup. Trouble is spelled with a capital T.

Nothing like an irresistible guy to make you see the flaws in your current situation. Flaws, cracks, and genuine dismay... Your boyfriend who has no time, energy, or enthusiasm for you. Or the sinfully sexy guy begging for scraps of your time, who happens to like spending it doing anything with you. Tough decision right?

But Georgia has a unique situation and she feels that her past has to dictate her future. She has trouble with the idea of being alone or on her own. It's hard to be open to your future when you cling to your past. When they collide which direction will she turn?

I have to say I enjoyed reading Sweet Alibi but I was very frustrated with Georgia. Not in a good way either. I really wanted to knock some sense into her. Her indecisive behavior was killing me. I understand it to a point but I had a hard time connecting with her because she was so wishy washy.

It was well written and you get a great sense of the characters. I loved the extended Epilogue and the fun of the interviews with the characters.

I am an absolute sucker for an angsty romance and I adore characters that are flawed and make stupid , sometimes selfish, decisions. I love when two people are trying so hard to fight against their attraction to each other that it becomes frustrating. I love the feeling I get when it is absolute torture for two characters to be in the same room together because they aren't able to touch each other or even say what they really feel.

I love when hearts are ripped to pieces because a stupid decision was made. I love when a man is made desperate because he can't have the woman he wants. I love when a woman is sent into a jealous rage because of the same reason. I love the intensity of a secret affair. I love the eroticism it lends to their hook-ups I love when control snaps and characters can't go a minute longer without touching the other. I love when even after that their hearts get broken. I love that you can never ever be sure of what will happen until

the very last page . I love when woman kick ass. I love crazy friends. I love the colour grey. I love the colour salmon even more.

I love the awkwardness, insecurity, and tension a love triangle romance delivers. I love when a book doesn't follow a straight line. I love when curveballs are thrown into the mix. I love kisses in the dark. I love filthy words whispered against necks. I love fights that turn into hungry kisses. I love sweaty bodies clinging to each other. I love jealousy. I love lingering looks and stolen touches. I love desperate, whispered please to succumb

I love all of these things because, to me, that is passion at its finest. When everything inside you screams that what you are doing is wrong and yet your heart is unwilling is to listen THAT is what makes it sweet. And all these things, all these intense, torturous, frustrating emotions is what makes the ending so, SO worthwhile. And this book gave me all of that. I love this book. Read it.

Sweet Alibi by Adriane Leigh is the first book that I have read from this author and definitely won't be my last. I will be completely honest with you, I am one of those readers who stays away from love triangles but for some reason I had the urge to go take a chance with this book.

A roller coaster. Ms. Leigh took me on one emotional angsty ride as she throws her readers on a whirlwind romance and journey. While this book highlights a love story, I was more drawn to the story of self-discovery of these flawed characters that Ms. Leigh depicted. None of them were perfect and that is what truly had me enjoying this book. While there were times, I was frustrated I loved that Ms. Leigh didn't hold back in showcasing these imperfections. She allowed readers to see and feel for her characters. Ms. Leigh slowly stripped her characters bare allowing us to see their vulnerabilities and their true heart's desire. While this book might not be everyone since there is a love triangle, I applaud Ms. Leigh for writing an unconventional romance that beautifully depicts flawed characters discovering new beginnings and love.

So if you are looking for a story where all facets of emotions are sweetly and seductively interwoven into a story, then I would recommend you give this book a try. Ms. Leigh's emotional story line brings forth and highlights the different shades of love.

**Sweet Addictive Alibi,
4.5 stars**

This is one of those book where you get engrossed in the characters and god help anyone who disturbs you in those omg moments.

**Told in two parts,
Part one, one girl, tough choices, three hearts
NO Regrets!**

**Georgia was a woman with a sad backstory who had clung to her boyfriend Kyle like an anchor since she was 12. Setting up home in a beach house away from her boyfriend was something she needed to do and destiny sneaked on in and played it's part.
Tristan was a playboy, a manwhore, trust issues were at the forefront of Georgia's fears and decisions but pot calling kettle and all that.**

**Cheating alert!
Yes there's cheating and yes there's reasons, you have to read it out for the understanding behind it all.**

Part two, Two people, one love told in dual pov's

So much detail, sometimes the story jumped, I had the feeling the author could of written on and on about these characters that are so wrapped in each other. Part two was so hot once the dramas of part one had subsided, it was all systems go in the hotness department.

**Swoon Worthy Alert!
Tristan what can I say, his words, his actions, his heartfelt thoughts.**

Tristan: She's taken my breath away. Every minute, she took my breath away. Every smile, every movement, every word and endless array of stolen breaths.

My Girl Forever.

I was taken on a reader's journey that gives you the feels of anger,hurt,awe and love for the characters.

A story of emotions,hurt, angst and tough life changing choices all brilliantly wrapped up by Adriane leigh in Sweet Alibi.

Donna ~ The Romance Cover says

Sweet Alibi by Adriane Leigh
3.5 stars!!

“I wondered if this would be our battle. He would always fear that I would leave, and I was afraid his past would forever haunt us.”

So, if you have read *The Morning After* and *The Light in Morning* duet then please be aware that *Sweet Alibi* is both books as one but edited and with 10,000 more words of bonus content. I read both those books nearly three years ago and it wasn't until I was a fair way through *Sweet Alibi* did something jog my memory and made me look back and realise. So either my brain has turned to mush or the changes made were good enough to make it read as something new.

Sweet Alibi was one book that was jam packed with drama and angst, at about 40% I could have easily thrown in the towel but I didn't, I was intrigued. I will say that I found our heroine, Georgia, extremely irritating at times, she had no backbone, was a doormat, was fickle, flaky, wishy washy and whiney and just so damn annoying, but there was something about her that made me want to know what had made her that way. Why did her friends treat her like a piece of fragile glass? Why was she so dependent on the boy next door who is now her long-time partner? What were her ties? Just what made her that way? I soon found out. She does grow a pair though, so don't despair.

“Kyle had given me breath to resuscitate me when I needed it all those years ago, but Tristan was the rehabilitation necessary to make my life worth living again.”

Tristan was adorable with a capital A, he oozed charm, charisma and testosterone and he was most definitely a lady's man. Having sworn off women he was a manwhore, one or two girls often frequented his revolving door of a bedroom but he was getting older and wiser and was unwittingly awaiting “the one.” The one came when he least expected it and it didn't help that the one was also in a long term relationship, the one was Georgia.

“...I can't stay. I want to stay for you, but I can't. I can't stay for me. This is crushing me. You're not mine to want.”

Yes, this does contain cheating and the flip flop of emotions and the toing and froing was enough to give anyone whiplash. Tristan was always sure footed but Georgia was a whole different ball game. Any other guy would have walked away from the drama, the constant limbo and the mixed signals but this was when I came to believe in Tristan's intentions. He stayed, he should have run, ran far away as possible.

These two have a lot of hurdles to overcome, a lot of emotions and secrets but this will be testament to their staying power...have they got it? The chemistry was seriously off the charts and it is this that really keeps the reader invested in Tristan and Georgia's story. Their connection in all ways was palpable and could

combust many a pantie. The side characters all had their part to play and made way for some great dialogue which had me laughing in quite a few places too.

“...this beats for you. I can’t live without my heart, and you have it.”

Overall, I loved it, I kept reading but I just felt Georgia in the beginning was a bit overdone and could put many a reader off, however, the woman she turns out to be by the end is a clear reflection on her growth and the emotional journey that she has been on. Tristan was a fantastic influence on her and really gave her the confidence to find her feet and more importantly find herself. Even the coldest of hearts will be rooting for them by the end.

“...I was born to love you.”

All I knew was in this moment, I felt whole again. This girl filled something up in me I didn’t understand; something I never thought possible and something I didn’t realize was necessary for me to thrive, but there it was.

This book completely took me by surprise and I mean that in the most fabulous way possible! I had heard great things about some of Adriane Leigh’s works but I never had the pleasure of reading anything by her and I am so happy that I got the chance to review this amazing book. It turns out this isn’t a new story by the author. She combined her books **The Mourning After** and **Light In The Morning**, which were published back in 2013, threw in a few extra scenes and re-titled this standalone as **Sweet Alibi**. I will be honest, the first 20% dragged for me and let me tell you this book is seriously long because remember she combined two books into one. I didn’t like the Heroine and I wasn’t sure what was all so special about the Hero either, except for the fact that he was devastatingly gorgeous. But my total outlook and interest in the story changed at that first kiss right around the 20% mark. From then on, all bets were off and I was reeled in, hook, line, and sinker!!

I am a reader who loves angst. The more gut-wrenching, the better!! I felt torn up so many times during this story, I must say that if I didn't buddy read this, I would have needed a stiff drink or two!! So the author had this reader eating out of the palm of her hand!! There is a love triangle and of course that means there is cheating as well. For me, as in most stories with this trope, I always have my guy picked out, so there was never any question in my mind as to which guy should end up with the girl, and I didn't feel the least bit bad for the guy who loses her. I am not one to shy away from love triangles, but if this is not your cuppa, I don't think you will enjoy the book although I do have to say I think you're missing out by not picking this one up.

Georgia Montgomery has just bought a beautiful summer beach home in North Carolina. She and her two best friends will be spending the entire summer there fixing it up so that she can turn it into a rental property. She leaves her boyfriend behind back in D.C. because he's a lawyer with a ridiculous work schedule that doesn't allow him to take a vacation. It's obvious that something is haunting Georgia and that part of the reason that she chose to spend the summer in North Carolina has to do with her relationship with her boyfriend.

Her bestie ends up bringing along her new boyfriend and his friend, Tristan, who is beyond gorgeous. This guy is known as a player and basically has women falling all over him wherever he goes. When Georgia and Tristan meet, there is something sparking between them and things may start off platonic but will spiral out of control when the two give in to their desires. That first kiss just about knocked me out and I was rooting for these two from that moment on. So much of what transpires between Tristan and Georgia reminded me of **THOUGHTLESS**, which happens to still be one of my all-time favorite books. I found myself comparing a lot of the scenes, but still this story had many elements that made it unique as well.

Georgia was a heroine that was hard for me to warm up to. It took quite a while actually. I hated her every time she messed with Tristan's head and heart. She definitely needed a serious ass kicking! I just couldn't understand why she was so dense. I get that she knew about Tristan's past with women and was afraid he'd end up hurting her, but it was so obvious who the right guy was for her!!

I have to warn you that Tristan is going to steal your hearts ladies!! He has that charisma that will sweep you off your feet and my god, how he loved Georgia!! It seriously made my heart ache for him. And he is **INSATIABLE**!! This guy will melt your panties with very little effort. Fanning myself just thinking about him!!

This story will keep you on your toes. Never assume all is well because the author throws in twists that make your stomach drop and question how Tristan and Georgia will ever have an HEA by the time you get to the end.

SWEET ALIBI is available now! I thoroughly enjoyed it and give it my highest recommendation!! To those of you who have a strong heart and love for painful angst, this book is definitely one to put on your soon to read list!!

5+++ "We're Everything" Stars!!!

(BR with Patty)

Georgia Montgomery is a 27 yr. old woman living in D.C. with her lawyer boyfriend. Georgia has a horrific painful past & her boyfriend Kyle has always been her protector & her lifeline during her darkest moments. He's been in her life since she was twelve, & always been her rock. On the outside she has the picture perfect life, but the truth is they've been drifting apart the last few years.

Needing a break & desperate for an escape from her life, on a whim Georgia decides to buy a house on the North Carolina coast. She has some money saved up, so she heads to the beach house for the summer with plans to later rent it out. The house needs some work, so she convinced her two best friends to join her for the summer & help fix up the house. One friend shows up with her new boyfriend & his best friend Tristan Howell. Tristan is single & gorgeous. He's fun, flirty & Georgia feels alive around him.

-There was something about her. Something that said she was...more.

-More everything.

-I couldn't tear my eyes away.

-The one girl I couldn't stop thinking about.

-Fuck she was just as affected as I was. I could see it in her eyes.

-In every move her body made.

-"I want you, all of you, Georgia."

-"I'm going to spend the entire summer helping you come to the realization that you want me too."

The more time she spends with Tristan, the more she's rethinking everything she thought she knew. They share this easy connection & she feels at peace with him. She's never felt this way about Kyle. She thought being away from him would be unbearable. Instead she's totally infatuated with Tristan. As much as she tries to fight it she can't stop this pull between them and the electricity that explodes every time they touch. There is something unique and special between them, but she's afraid of these feelings & scared to throw away what she has & take a gamble on Tristan. Tristan just wants her to give them a real chance. He's fallen hard for her & never felt this way before.

This book is full of angst. Like as much angst as Thoughtless by S.C. Stephens, but omg I couldn't put it down. This book completely consumed me. It's one of the best I've read this year! It's a love triangle, & Georgia faces many obstacles & tough choices. She has to choose between her old love & her new love & decide which one will be her future. This book is AMAZING!!! I highly recommend it!

-It felt like he'd unlocked a new and previously undiscovered piece of my heart.

-I craved her love, I craved her mind, I craved everything about her.

-"I feel you everywhere. When you're not around I feel you. I need you. I fucking need you so much."

-Fuck, she'd taken my breath away. Every minute, she took my breath away. Every smile, every movement, every word- an endless array of stolen breaths.

-I felt everything with this girl.

-I was her everything. And she was mine.
