Nightborne: Twilight of Suramar Matt Burns , David Kegg (Illustrator)

Deep within the night elven city of Suramar, home of the nightborne, the orc warlock Gul'dan issues a terrifying ultimatum: surrender the Nightwell, the source of their power, or see their homeland crushed beneath the heel of the Burning Legion. As evil descends, the grand magistrix must decide whether to trust her enemy or risk all to stand strong.

Ari ? says

I love the Nightborne! So this little peak into a little extra lore of the Nightborne was awesome!

Michael Prier says

An interesting, short comic with World of Warcraft lore.

Adam Morva says

A very short, but fairly decent flavoring to the Warcraft universe. I wish these stories were longer, and I wish its characters were fleshed out, but oh well...

Derek Fors says

Short story

Short World of Warcraft story but much better than issue one, felt like it was more of a complete story considering its length.

Kellie says

Obviously I didn't read this in German, but there is no entry for the English version and I'm too lazy to make one.

I play WoW, but don't normally read books about it. This I grabbed on my Kindle because it was cheap and I thought a graphic novel would be interesting to read. It was shorter than I expected, but I enjoy having the lore come to life in this way.

Chris says

Not bad. I'm not sure how this ties into the game, but it was an enjoyable short read.

Asriel Deeeae says

Awesome

I have been playing this game for 13 years and I love reading the books that go with the expansion

Sreenath Prasadh says

Not so good!

This book was not as good as the first book in the series ?. But still it was good ?

Christopher Morton says

It is pretty good book

Pretty good to read

This is a good rating

If anybody says this is good say Amen

Sean says

Jonathan Proaño says

Great!

I really enjoy it! It has a lot of twist in the story. I look forward to read the next issue.

Danielle says

Read this review and more on my blog, uncovered-books.

I thought that after the first issue, this second issue of World Of Warcraft would make sense, but it didn't even follow on from the first. That being said, this second issue made a lot more sense and I was able to follow it a lot easier than the first.

The storyline was a very simple one, where the leader of the elven city is forced to decide between two

impossible choices. Both come with their risks and rewards, but which is decided someone will not agree with.

The artwork was a tad more inconsistent compared to the first issue. I found most things to be distracting, and I was struggling to find out what the focal point of each panel.

This second issue made more sense than the first, even though it does not apparently follow on from it.

The Glassed And The Furious says

I'd wish the character would get a bit more complex instead of simply having the stereotypical good guy-bad guy- traitor theme and immediately jumping into the action. Granted, these comics are so short there isn't really much time to develop a character but still... It would be nice. I thoroughly enjoy World of Warcraft.

Lör K. says

I've never come into contact with *World of Warcraft* before; I thought it was massively overhyped and I avoided it so when I downloaded this I asked myself *uh why*. Turns out my reading instincts are better than my "just a hype" instincts because I **loved** this. The artwork is extremely pretty, the story line is gripping and dripping with betrayal, rebellion and trust. Bargaining with the enemy, questioning their lives... oh I'm a sucker for this. Definitely about to go read the next one in the series and will definitely be reading the whole series. An absolutely wonderful free find on Kindle.
