The Curse of the House on Cypress Lane: Bacalou's Revenge- Book 2 James Hunt

Nearly two centuries have passed since the curse was born in the small, swampy town of Ocoee, Louisiana. Ever since, death has hovered like a storm cloud, and the remnants of two families are locked into a battle of survival. The final days have come, and the creature is out for blood. Who will win?

The Curse of the House on Cypress And : Bacalou's Revenge -Book 2

This book is a GREAT ENDING to a Great Supernatural Thriller. Telling of a curse put on an evil family by a Voodoo Queen who seeks to extract vengeance for the death of a loved one and herself. The Curse has gone on for hundreds of years. Vengeance IS a dish best served cold. I RECOMMEND..ENJOY!

Shanna Reese says

Good

Story was good and kept you going. Writing was simple and easy to get through. Overall, I enjoyed the book.

Jewell Moreno says

the last in the series. Pretty good horror story. Learned some things about Voodoo..my only experience prior was Disney's Princess and the Frog movie...This author is very good at describing locations. He is incredible at providing an atmosphere. There are places in Louisiana I never want to visit now. Incredible ability to put you in the environment. I also loved how he brought closure to the characters. I hate when you never find out how they fare after their trauma.

Candice says

Absolutely loved this series. Book 2 only received 4 stars instead of 5 due to the author's descriptions of Louisiana. If you're going to write a book set in Louisiana, then one should know that:

A. Not one single home in South Louisiana will have a basement. Since we sit below sea level, it would be an indoor pool.

B. Not one road in Louisiana is called a route.

Overall, I enjoyed the series. The last book brought everything to a closure and was well written.

Jamey Mast says

Chilling

A curse and revenge. The Cooley family must do what it takes to survive. This book is a fast pace and we'll written book.

Hope says

I listened to all 3 books in audio version, but don't see an option for all 3 in one, so I am leaving a short review here. They are more like 3 novellas that come together as one novel anyway. I liked the idea of this book more than I did the book itself. I lived in Louisiana for a while, and have a deep love for the swamps and the culture. I'm fascinated by the stories of voodoo queens and crumbling mansions. This book has those elements, but lacks in the details that would give you a real sense of the setting and feeling. The monster was lackluster and not at all scary. I also had a difficult time connecting with the characters. Overall, it was a disappointment.

Josette Thomas says

What. A. Great. Ending. This culmination of events was great. So many questions were answered. Voodoo is nothing to mess with since it involves curses and sacrifice. I would not mess with voodoo anymore than I would with a ouija board. Some things are better left alone.

Jojo Nicholas says

interesting read about supernatural witches and stuff great read.

Sandra Knapp says

OK, this time I gave it 4 stars, because finally I know what it was all about. How it started, why it started, when it started, as well as some of the story that followed, and especially the end.

This last "chapter" was very good. It answered most of the questions and it ended well in more ways than I had even hoped. So I was quite satisfied with that.

All in all it was pretty good, but I wish it had not been presented in the way that it was. I really think this would have worked much better as a single but bigger novel, but that's just my opinion, and I'm not an author of anything. So what do I know?

Amber Ziegler says

Confusing

Not a great sequel. The beginning was promising at first but then it turned confusing to Owen being in jail and summary flash backs to what got him there.

Debbie says

still good enjoyed the series

Paul Clark says

Nice finish to trilogy

I started reading glasses this series and found it highly entertaining. A series well worth reading. I highly recommened it

Jeni says

This was a good, quick read that I really enjoyed. My only problem was not being able to get the 1st book - so I read the 2nd one. It's okay on it's own, but would really benefit from reading the first one first.

Excellent writing, interesting and fast paced. I really liked it.

Jen Girod says

Really Great Book

I totally enjoyed The Curse of the House on Cypress Lane: Bacalou's Revenge Book 2. The author did not disappoint - the series would make a an awesome movie.

Elaine Plourde says

It's been awhile since I read a book about a haunting. It turned out to be pretty good. I'm reading another book about Cypress Lane but I think it was the first book. I hope its as interesting as the second one was.
