Absolute Power

Addison Cain

Absolute Power Addison Cain

Brenya was torn from her service in Beta Sector and reassigned to serve the Commodore of Bernard Dome's aggressive physical needs. Out of her depth and confused, she flounders under his untried care. The leader of their Dome is as demanding as he is sweet. He is beautiful, and he is treacherous.

And he has sworn never to let her go.

From the internationally bestselling author of the *Alpha's Claim* series, Addison Cain brings you *Alpha's Control*. Alongside the Commodore and Brenya, Shepherd and Claire's story continues under new Domes rife with intrigue and danger. *Absolute Power* is a 13,000 word prelude to *Stolen: Alpha's Control, Book One*.

Publisher's Note: The Alpha's Control series is a dark Omegaverse tale with explicit sexual themes and complete power exchange. If such material offends you, please do not purchase.

Janee says

Can you say addicted

It ended to quickly. There is something about Addison's books that can't resist. This one author that have to have when something new comes out.

Cécile Smits says

The perfect start of Alpha's Control,it gives you the background of what happens to Brenya before she falls into the evil clutches of the Commodore of Bernard Dome,Jacques. And once you finish this,you need Stolen....i know you will!

Natalie Bennett says

I'm simple, I see a new book by Addison Cain and I 1-click.

I can't wait to continue this story.
As always she had me hooked from chapter one.

A??ela W. says

This was a short quick read that I liked. This was my first time reading this author and I have had this book for awhile. Brenya, is a beta worker he works on keeping the dome over the Settlement in one piece. When she is sent to repair a crack, she falls and is entangled in her safety line and dislocating her shoulder and smashing her face and her bio suit face plate. The outside air comes in and she inhales the forbidden air. Brenya loses her job and is ostracized she is lost and out of control because she has no job, no purpose. This is a dark, dystopian novella that I liked and will be reading the next book in this new series to me. This book was well written with no errors in grammar or spelling I am looking forward to reading the next book.

Deborah says

Having just finished Alpha's Claim which I wrongly assumed was a trilogy (well I suppose it is but it isn't, the ending was totally unsatisfactory) I went looking for more Shepherd and Claire.

3.5 to 4*

I only started this prelude because I wanted to catch up with them but now I'm hooked. Again.
Brenya is a grunt known as unit 17c she's always lived in the Beta Sector and works on the exterior wall of

Bernard Dome. An accident followed by a long stay in decontamination and then a total lack of appetite has forced her body off the chemical restraints. Unbelievably she's an Omega and she's just been found by her Alpha.

I say unbelievably because Omegas were thought to be extinct.

This story mirrors Shepherd and Claire's in so many ways but Bernard Dome is different from Thólos in that it seems far more regimented and controlled.

It's straight onto Stolen for me.

Ana Oh says

What Happened?

I am so happy to see Claire and Shepard again, but what happened to the characters in the first story? Now I am dying because two stories are hanging in the wind! Agh !

Melanie A. says

This is a brief intro into a new place - Bernard Dome - and a new couple - Jacques and Brenya.

While the dome environment and the nature of the citizens are directly parallel to Claire and Shephard's world, in its isolation, this dystopian society has developed a bit differently. It seems to be even more regimented and its people have even less freedom. Omegas were thought to be extinct.

Brenya faces much the same situation as Claire did, being claimed against her wishes by a raging Alpha in the face of an unexpected estrous cycle, but she is not Claire and her reactions are her own.

Jacques is the leader of Bernard Dome and very much a part of the uber-spoiled, elite class - and **I cannot wait for him to come face-to-face with Shephard.** In fact, **I can't wait period! So excited to read the next book!**

Tracy *To the point Reviews* says

Weird little mini novella if you like Alpha rapish kinda stuff.

Tricia Len says

OMG! Addison Cain is brilliant...and scary!

E.M. Summers says

Title: Absolute Power

Author: Addison Cain

Series: Alpha's Control #0.5

Genre: science-fiction, dystopia

Themes: bonded/fated

Heat: 3/5

Rating: 3/5

I struggled with my rating and review for this one, and it's the only book (so far) I've felt the need to go back to to change my rating. Here's why.

The book itself was spectacular. It introduced new characters in Cain's Omegaverse seamlessly, and made me entirely desperate to read on and indulge in the next book.

However, it gets a 3* rating from me because it's a little misleading. It isn't a prequel. It's the first few chapters of the full first book of the series, *Stolen*. So, to me (an avid Addison Cain fan), I ended up feeling disappointed and like this was a bit of a waste of time. However, for someone who isn't sure if this series is for them, it'll be great. Just start from book one of the first series.

Clara says

Ugh, I can't WAIT for this book to come out!!!

Kathy Heare Watts says

I AM COMMODORE-- BY SERVING ME, YOU SERVE THE DOME--YOU OWN ME

From the time I learned that Addison Cain was bringing out a new spinoff from her Alpha Claim series, I have heavily anticipated it. I have described it as a series you love to hate and personally considered the ending brilliant, allowing the reader to come to their own conclusions as to what truly happens with Shepherd and Claire. Well, readers, buckle up and get ready for a new ride and I look forward to the journey. While this is a spinoff, I do think the reader could start this series and not be lost if they missed reading Alpha's Claim series (but why would you want to miss it?)

The plot will have Unit 17C of Palo Corps, Brenya Perin will be working outside Bernard's Dome, when everything goes wrong, she is injured and on her own. Surviving the fall, dislocating her shoulder, and a large cut on her face is minor compared to being treated like a pariah by all the other Betas. Attacked, dragged to a ventilation duct and claimed by not just an Alpha, but the Commodore will spin this tale into motion. "She had zero control. She had no way of stopping it."

Brenya it turns out is not Beta but is an Omega. The chemicals in her diet have suppressed her, but now that she is fasting in defiance of her treatment, her genetic makeup is scented by an Alpha. "Her metamorphosis has been uncomfortable." Her life as she knew it as a Beta is gone. "She was never going to be returned to her cot at the barracks—there was no place for her there, her skills were no longer needed—this he had told

her every time she 'd questioned." "Mon chou, this discomfort, and confusion will pass. Once we are fully bonded, you will wonder why you were ever afraid."

I am already enthralled with the story, and this is just a prequel. I am ready to read Stolen, book 1 in this series.

Candace says

This ended up being a teaser for the full-length book. If you read the book, you can skip this entirely. There's no new content here. It is a freebie though if you're undecided about the full-length book and want to get a feel for it.

Gab says

17Cs and Jacques story begins.

This was dubbed a prequel. But do not be fooled. It is a cruel teaser, that will have you counting the days until the full story is released end of September .

With her usual word-magic Ms Cain paints a picture that is frightening in its intensity. Over a few paragraphs you are immersed in a world that makes you want to slip between the pages to not only read, but smell and touch.

The intense dichotomy between the two main characters will have you screaming bloody murder when this short tidbit ends.

I will have to, but I cant wait for the continuation of this story.

Mariela Rmfl says

It isn't Shepherd and Claire but the author warns the reader at the begining and it's as good a story as my hang over book demanded I read after finishing Alpha's Claim so here is why I took a star over this great prelude. It started as a 1st person POV then it switched to 3rd and on it this way that after a while I had to reread some things to get if it was Brenya talking to me or the narrator... it got on my nerve and that's why but I sure as hell that I'm delving as of right now to the next installment, to get o=more on this story and more on Shepherd and Claire. I just can't get enough of this
