Managerial Economics in a Global Economy Dominick Salvatore

Reflecting the highly globalized nature of tastes, production, labor markets, and financial markets in today's world, *Managerial Economics in a Global Economy*, Eighth Edition, presents the theory of the firm as a unifying theme to examine the managerial decision-making process. Adopting a global perspective, it synthesizes economic theory, decision science, and business administration studies, examining how they interact as a firm strives to reach optimal profitability and efficiency in the face of modern constraints.

Features

- * Integrates examples, data, and theories on the **international ramifications of managerial decisions into the entire text, rather than segregating the material in a separate chapter**
- * Incorporates 127 case studies, showing how firms actually reach managerial decisions today
- * Offers instructors **maximum flexibility with a modular structure** that is suitable for both full-term and briefer courses, and can be used with or without calculus
- * Includes a **robust instructor ancillary package** for adopters

Required book for my business class, Global Economic Environment. I thought this book was interesting enough to read. I like to read anything that deals with science or such economic and the environment.
