From Reader Review McSweeney's #11 for online ebook

Asheroo says

Fantastic

Weird

A bit too sexual for me in parts

But then got good again!

I just bought 6 more!

Mike says

What. I've come to expect from Mcsweeney's, an over-average collection of short stories. Some good, some great, some terrible because they reached too far into the experimental, and some terrible because they just weren't very good. But always a thumbs up.

Christina says

All well-written, original stories. Sometimes I found myself too dumb (or McSweeney's too pretentious) to tell the difference between irony and seriousness, fiction and nonfiction. But I still really enjoyed this collection and plus it's a super pretty book. I definitely want to read more issues, and I'll have opportunity to since I have one or two others that Brooke has picked up for me at used bookstores around the country! More thorough Blue bookcase review coming someday, I hope.
