Cowboys Make Better Lovers

Kelly Wallace

Cowboys Make Better Lovers Kelly Wallace

When Sarah Collins loses her only sister in a car accident, she's surprised to learn that guardianship of her two nephews and infant niece has fallen equally to her and her brother-in-law. Sarah's not ready to be a parent, but can she trust playboy Raif Manning to do the job? Raif, an illustrious photographer, is ready, willing, and eager to give up his wild bachelor lifestyle. He's just purchased an old, rundown farmhouse in Kansas and his number one priority is to restore it as the perfect place to raise his new family. Raif knows that he has to have a proper home for the kids if he's going to convince Sarah to give him sole custody. But when Sarah shows up on Raif's doorstep he's completely unprepared. The house is in shambles, the kids are running amuck, and what's worse? As soon as Raif gets an eyeful of the sexy Sarah with her sassy attitude and completely transparent suit of armor, he falls hard and fast. Little does Raif realize that while he's trying to find a way to lure Sarah into bed, she's finding her way into Raif's heart and helping him realize his dreams.

Pamela says

Rated 3.5 Blue Ribbons

Brittney says

Cute country story. Loved the setting and characters fit nicely in it. Was worth the read. :)

Wendy says

I actually ended up skimming this book more than reading it.

I found that the female lead, Sarah, was rather irritating to me. I didn't find her to be all that likeable, and she seemed a bit over the top.

In general, the characters didn't seem to be all that well developed. There was a lot of background information that was missing that would have made the story so much better.

There were two sex scenes, both of which made me feel like it was just a thinly veiled porn - like it would have been found in some men's magazine. The language was graphic, which isn't a problem, when handled correctly. But there was no build up of emotion, of tension, no real sense that this was the culmination of them acting on real feelings. It was more like they were both just horny and needed to get laid, so they did.

This was the first book I've ever read by this author, and I will give another of her books a chance, in case this was just a fluke. But this one did not impress me.

Dorel says

I liked how Raif showed Sarah no matter what she thought of his home, he could be just as good of a parent to the kids as she can. Some of the dialogue in the story is funny too. This was an okay book to read just once.

Linda says

Sarah Collins was determined to do the right thing for her nephew's and niece since their parent's death and she barely knew them but wanted to make sure that were well cared for before she signed off total custody to Raif, she had to get back to California and plan for her wedding to Paul not stay in Kansas roasting her butt despite her air condition car!

Raif put aside his illustrious photography career to settle down and rear his nephew's and niece and he did not miss the New York in the least as he preferred vast amounts of the Kansas country side to the pomp and flash of his previous life. If only he could convince that with Sarah Collins to give him full custody of the kids, but when she entered the home he had recently purchased with a disgusted face and fire in her eye's he knew he was in for it.

Kelly Wallace definitely knows her stuff in writing her novel: Cowboys Make Better Lovers that made me want to run to the nearest rodeo and lasso one! Sparks fly from the beginning when Sarah takes a look at Raif's run down house and they quickly head south into a denied attraction to heated kisses, and raunchy hot sex in a barn loft! Sarah is the pampered daughter who can barely cook and Raif got the idea of her helping him to fix up the house thinking that she would sign his papers and head for the hills, but Sarah accepts his challenge even though she knows that she should have kept her big mouth shut!

Renee says

Eh could have been better

Danielle says

i am in love with this book i seriously wanted to talk to my sister about it but she is stubborn and wontt take an interest in what i am saying

Brandy says

I have to admit I put this down after reading the first couple of paragraphs. I'm apparently really put off by brand name dropping. I know it was to express how much of a spoiled rich girl the heroine was but it made me want to DNF this book.

I did pick it back up with the intention of skimming but I ended up reading the whole thing. I was pretty good once I got over those first couple of name drops.

Raif and Sarah were in a way the same type of person but then totally different. They were both rich with him being a playboy photographer and her being a Daddy's rich girl. That's where their paths diverge though. He's ready for more in life while she's still clutching to the dream of her father actually noticing and loving her.

I'd say if you haven't tried Ms. Wallace then you should. This was an enjoyable, quick read.

Melissa says

Rereleased through Liquid Silver as Lovin' The Cowboy Way

Amy says

aww I enjoyed this story very much. I'm a sucker for a good sob story and in this one Sarah (h) is a rich, but very lonely woman despite having a a rich father and fiance back in California. I think the saddest thing ever was when she thought this:

"Tears stood in her eyes as she walked outside and met the early morning sun. Birds chirped nearby, cheerfully bidding her good-bye. Even they were glad to see her go."

Wallace, Kelly (2011-10-04). Cowboys Make Better Lovers (Western Romance - Romantic Comedy) Best Seller! (Kindle Locations 1924-1925). Sinful Romance. Kindle Edition.

She goes to Kentucky to make sure her dead sister's brother-in-law is able to take care of the kids to her satisfaction. And they eventually fall in love, although I have to admit, I was afraid the author was going to make them have sex too early in the game - for instance, at 50% of the book, only two days and one night had passed. I liked it; the story was sweet and a nice way to pass a couple hours.

Christie says

This was a very sweet story and sometimes reminded me of Overboard. I'm glad I picked up this freebie when I had the chance.

Cheryl Whitty says

A charming romantic comedy I really enjoyed

Michelle [Helen Geek] says

no nook 02/17/2012

Yvonna says

A good romance with sentimental substance that had me really liking the characters and their stories.
