Sylvia Browne

Angels, Guides, and Ghosts Sylvia Browne

In this unique CD program, world-renowned psychic **Sylvia Browne** dispels the popular myths about angels, spirit guides, and ghosts. With her trademark candor, she explains that you *can* communicate with your angels and guides, and that they're here to help you along your journey. In addition, she covers topics from forgiveness to reincarnation, shares some of her personal experiences with these celestial beings, and provides helpful tips on effective prayer.

Sylvia also imparts methods to protect yourself from a psychic attack and determine whether your loved ones are sending you messages from the Other Side. Then, using a healing meditation, she shows you how you can unite with your angels and spirit guides whenever you choose to do so. In closing, Sylvia uses her abilities to answer audience questions and shed light on what *really* happens when we leave this plane of existence

listened to this book and it is basically people askign her thigns and she replies...got me interested in reading some of her other work.

Connie Carroll says

Great book, adds a little humor to her spiritual talk!

Beth E says

While this book had some interesting information and ways to understand and notice the spirits that walk this life with us, the audio delivery of the material seemed almost flippant. I was quite surprised. And yet maybe that is somehow trying to hold the author to a more peaceful standard than the rest of us, and maybe therein lies the disappointment. Nonetheless, it was an interesting presentation and I enjoyed the material.

Joyce says

I loved this short book. Sylvia is so down to earth in her advice it is hard to not like her. The meditation at the end is really great too. This book was an audio so I will be re-listening to the mediation again.

Tif says

Was a quick read but not my favorite

She has a comedic style and a certainty many find magnetic. During q&a part of Audiotape, I found myself concerned with the certainty she answered people's question on their life's purpose. This is just skeptic in my nature. I understand people's need for assurance, but this sit well. In any event, it's their choice to believe and will not say more. I did like that she wasn't wishy washy in her presentation. Overall, my rating speaks got itself.
