Discover Your God-Given Gifts Don Fortune

A fascinating guide to realizing and practicing your personality gifts.

What makes you tick? Do you love to plan ahead, or take things as they come? Do you prefer teaching believers, or evangelizing the unsaved? We all love to discover new things about ourselves. Therefore, *Discover Your God-Given Gifts* is fun as well as revealing. Don and Katie Fortune explain how the seven motivational gifts listed in Romans 12:6-8 are actually the key to understanding the very motivating forces of our lives, the forces God created within us to help us serve Him more fully. The authors provide extensive and insightful "self-help" forms that help you recognize your gifts. You'll see why you act and think the way you do. Using your motivational gifts will bring you the greatest joy you have ever known. Take some time now to *Discover Your God-Given Gifts*.

From Reader Review Discover Your God-Given Gifts for online ebook

Michael Green says

This book is a helpful survey of spiritual gifts, covering biblical foundations, tools for discovering your own and advantages/disadvantages of each. It is helpful in learning more about your own spiritual gifts and also helpful to create awareness of the gifts of other people around you so you can be more perceptive in how others approach different situations.

Aaron Cummings says

This is a Christian personality test. Nothing wrong with that in itself. But Adopting a label for oneself is dangerous, the label can be used for both empowerment and excuse. The book is inflated with anecdote after anecdote, mostly self-congratulatory. This book is an example of a scheme in search of theology. Disappointing.

Allen Jr. says

A helpful paradigm for self-awareness and considering spiritual gifts. Although some of the initial description justifying the three categories of gifts--of which one, the motivation gifts, are the emphasis of this book--seems a bit stretched, the overall notion is a helpful one, and there are lots of practical questionnaires and charts at the back of the book to help bring this spiritual material into the world of work, ministry, and relationship.

Approachable and useful.

Ted Rohe says

This book was very helpful to me in understanding my Motivational Gifting, but it doesn't go much into manifestational gifting. Which is understandable to a certain degree. It does a great job in helping me see why my gifting is dysfunctional to a certain degree. It will help me better utilize and see it. I recommend the book. It is a bit dated, but still very practical.

Brian Taylor says

I've actually participated in several opportunities to discover my spiritual gifts. However, this book goes very in depth to explain what each gift is and what it looks like in the life of the believer. What I love about this book is that it doesn't just focus on what makes each gift so special and how you can apply it to your life, it also reveals the pitfalls that can exist for the person who possesses the gift so that they can eliminate or minimize the things that could become a problem as you cultivate those gifts. It also helps to show examples

of people throughout the bible who possessed specific gifts and how they applied those gifts in their lives.

I believe that this book is very appropriate as a resource for small groups, pastors, leaders, and even everyday Christians who want to know what spiritual gifts they possess and how it can work in their lives.

faithful says

This is the best reference on this topic. It helped me to figure out my own gifts as well as my husband's, which helped me understand him better.

Rosalie says

This is the best analysis of Biblical spiritual gifts I've ever read.

Sue says

A very helpful book examining the 'motivational' gifts, as mentioned in the book of Romans. The authors take personality traits and assign different types of people to each of the gifts mentioned.

The theories are a bit complicated, but become clearer after the second or third reading, and some reflection. It ties in a little with other personality systems such as Myers-Briggs or the Enneagram (though not entirely). There are helpful questionnaires and some Scripture references to back up the authors' theories.

John Rossitto says

This is a very readable book and system for understanding and identifying what the authors call Motivational Gifts. The gifts discussed are those listed in Romans 12. Not a heavy theological thesis but rather a presentation of the 7 gifts listed and how to personally determine which of these gifts are primary in your life. Offers Characteristics then Weaknesses and finally Biblical examples (as interpreted by the authors) of each of the 7. The characteristics and weaknesses are full of examples of individuals who exhibit the particular characteristic. The authors bring their personal experience and observation over the years into an enjoyable presentation. Again, not a heavy study in theology. Does offer valuable insight into how we are unique and different in our personal giftedness. Well worth your time.
