The ABCs of CBM: A Practical Guide to Curriculum-Based Measurement Michelle K. Hosp , John L. Hosp , Kenneth W. Howell

Curriculum-based measurement (CBM) has been adopted by growing numbers of school districts and states since the publication of this definitive practitioner guide and course text. The second edition presents step-by-step guidelines for using CBM in screening, progress monitoring, and data-based instructional decision making in PreK-12. It describes the materials needed and all aspects of implementation in reading, spelling, writing, math, and secondary content areas. Twenty sets of reproducible CBM administration and scoring guides and other tools are provided; the large-size format and lay-flat binding facilitate photocopying. Purchasers get access to a Web page where they can download and print the reproducible materials.

New to This Edition:

- *Broader grade range--now has a chapter on secondary content areas.
- *Chapter on early numeracy; expanded content on early reading.
- *Nearly twice as many reproducible tools, including new or revised administration and scoring guides.
- *Key updates on graphing and on using online CBM databases.

See also *The ABCs of Curriculum-Based Evaluation*, by John L. Hosp, Michelle K. Hosp, Kenneth W. Howell, and Randy Allison, which presents an overarching problem-solving model that utilizes CBM.

Kelli says

Great book. Highlighting CBM as "the peoples' measure."
With its popularity, I hope that a new edition is in the works and will be available soon.

Kimberly says

Most important pages are Appendix B with teacher CBM cheat sheets. But I think the tests that you purchase have the directions outlined in the beginning of each exam. Unsure. Anywho, well done.

Jason says

Our district uses AIMSweb as a CBM system. This book does a good job explaining why they set up their program the way they do. It also includes a good set of resources for creating or managing a program.
