Diary of a Psychic Sonia Choquette

Sonia Choquette discovered her psychic abilities as a young child. Gifted from birth, she was able to see beyond the veil of the inner workings of her family members', friends', and neighbors' lives. While still a teenager, she began to give readings, amazing her clients with her psychic insights. Seeking to deepen her skills, she studied with two master psychic/spiritual teachers and began to see beyond predictions of the future . . . into the causes of the future. With the help of a group of spiritual guides who have been working with her since childhood, and combining this support with metaphysical law, Sonia developed the ability to see the soul plan that each of us is born with. It became her mission to put her clients' lives back on track, steering them through the tricky waters of romance, divorce, illness, high finance, sickness, and death. She became a soul guide for "happy endings." By pulling back the curtain and sharing her personal story, this revolutionary new teacher and world-renowned psychic shatters the myth that psychic implies psycho, and reveals the beauty and power the sixth sense holds for us all! A teacher, an author, and a storyteller, as well as a gifted psychic, Sonia Choquette is in international demand for her guidance, wisdom, and capacity to heal the soul. This is a story of the Evolution of the "6th Sense" fresh from a child's perspective. Also, this is "Just A Great Read!"

Awesome Read

I love this book.

Starting from when she was young and learning here psychic gifts. Loving the fact that her mom was supporting her the whole way. Many like myself were told to hide it not to share.

Her experience's and her teachers along the way and at the same time teaching us who read.

All around fun read

I truly enjoyed this so much

Thank you Sonia!!!

I'm almost done with this book and I absolutely enjoyed every reading minute. Sonia's writing style is so warm and down to earth and her writing has been super helpful to me. I only paid \$1.99 for this book on Kindle. What a great deal!!! I urge anyone who is interested in psychic mediums and being able to contact your own higher self, guides and angels, read her books and start with this one. The only reason I'm not finished with this book is I'm savoring it and I hate to see it end. Soon I will finish it though, because I've going to read "Soul Lessons and Soul Purpose" and "Psychic Pathways" next. I also have her "Trust Your Vibes" oracle deck and I love it. I feel like if I met Sonia I would really like her. She seems to be a very warm hearted, wise person and an authentic psychic. I know that everything I've learned from her has been right on and of benefit to me.

Enjoyed this book, very interesting read about a woman with psychic abilities and the different readings that help some people. The book moves well for the first half but seems to get redundant the last half.

Gosh, I wish I could borrow Sonia Choquette's brain for a few hours... What a fascinating woman and remarkable gift! While I'm more openminded than most, *Diary of a Psychic* challenged any skepticism I may harbor about psychic abilities, reincarnation, the grounding of chakras, the power of meditation, etc. So much of what she spoke about in her book is just *unreal* and admittedly hard to believe, but her narrative was so genuine and heartfelt that I just couldn't help but believe it. Her words made me wonder about my own soul's purpose and whether or not I'm on the right path, as well as what she would say about my past lives and their effect on my current life.

This book left me full of wonder about the universe and life itself!

Found Sonia's book "Diary of a Psychic" so deeply meaningful and touching for its richness and for my own somewhat similar life experiences. Sonia's storytelling is the cozy-up-by-the-fireplace kind of soul soothing storytelling; she has done her mentors Charlie and Tully proud certainly. Recommend this book to anyone who is similarly sensitive and finds that they doubt or disregard their innate gift. Reading this book will help you connect the dots to your spirit friends and you. And as importantly to step out of doubt and at least consider that maybe you too actually truly are intuitive.

Sonia has been doing readings for people since she was a child and was raised by a mother who taught all her children to "trust your vibes." An enlightening look at growing up psychic and sticking to your higher purpose.

Pippin Posten says

I really enjoyed this book and read it more than once. Having always felt kind of "outside" and not in the "in crowd" as a kid, and always relating better to adults than to other kids, it was interesting seeing someone who was a psychic revealing how that impacted her life from young childhood.

Laura Groves says

One of my favorite books. I was buzzing the entire time I read it.

About a chapter in I realised I've read this book years before but that didn't stop me reading it again. Just as good as the first time! Would highly recommend

Lauraley Dilgard says

Wow. This book offered so much insight into the life of a psychic! Most everything in the book felt spot on. This ones a keeper. I'll definitely re-read it! And now I feel compelled to go to Chicago to get a reading from Sonia!

Eye opener

Easy to read. Hunger for more. Spread the word, the world needs love and we are all love. Thank you Sonia and all the angels and guides in the universe for this gift

Jenny Orelle says

If I could give Sonia's memoir more than five stars I would. This book (and my own experience with telepathy) were enough to convince me that Sonia Choquette is genuine. It's well written and inspiring. Her story made me laugh and cry. I look forward to reading more of her books and learning about the window the universe has opened up to me—a window available to anyone. It's easy to be skeptical of any psychic who works professionally, but my intuition and common sense tell me two things: one, she is the real deal and two, that she has found her true calling.

Claudia Loureiro says

This book is fascinating because it's the most sensitive, funny, heartwarming perspective on being a psychic and belonging to the psychic world I have ever read. The way Sonia writes left me feeling as if I've known her forever because it really illustrates how she learned to develop and trust her gift despite what logic might tell her.

I also loved the fact that she was rather specific about her life and her readings, good or bad. I have read other peoples life stories and they are not as honest and engaging.

This book is divided into three parts:

Natural Gifts 1956-1969

My Psychic Training 1970-1974

My Own Future 1977-2003

I believe I'm soon going to purchase another one of her books.
