Whoa. That was an action packed 35 pages. Can't wait for the novel.

Robin Perryman says

Getting Better

It's getting good now. I've already read Cartel part one so I already know Matee and he's crazy. Taryn or Tonya? Carter is busy. I like them both. One thing I like is nothing gets in the way of his money. I'm still getting unanswered questions told here. I see it's about to blow up soon. Looking forward to reading the next part.

Shirley says

Good reading. A continuation of the cartel series.

Me'Tova Hollingsworth says

WOW! It was just about to go down. Does anybody know when the full novel will be coming out? I hated what happen to Tonya, and I can't help to wonder how Carter will handle her running off with all his money, or will he just let it slide? After all she is carrying his seed. I know that Tyran was a minor and that Carter was risking a lot by messing with her, but you could just tell that they were meant to be. Poor Breeze! I was happy to see what happen to Laso, but I hate that Carter didnt get the opportunity to avenge Sam's death. I'm glad Polo was there to hold him down, because Ma'ta is working with some loose screws. Overall, the story was great, and I'm feeling the Carter Diamond story. There were still a few editing issues, which caused the 5 star story to receive 4 stars. At times, I felt like I was reading a rough draft, but the story still flowed well.

Great Read even with the typos

Felicia Franklin says

Loved the book...Hate how Carter treated Tonya...I don't blame her for taking the money. She was holding him down when he had nothing and then when he started to make dough, he got with the next chick...So wrong...I'm way too involved in this book...LOL

Wilki J says

Book 2 picks up where part 1 left off. Estes is grieving and he wants the world to pay so he sends a brutal and gruesome reminder to the streets to not mess with his family. However there's a snake lurking and Carter aims to settle a score by cutting grass to reveal them. But when a plan to avenge a death goes wrong, it puts a menacing figure into his sights that will cause problems for generations to come. Add into that equation a love triangle of past and future and we got an interesting read.

I gave it a 4.25. I liked the direction in which the plot is moving; in true A&J fashion. The characters make the book interesting and I like the way the past is meeting up to the future. I also like how it gives insight into the Cartel books as to why things may have happened the way it happened. But the errors, please who is the editor? Is there an editor? Please, get a new one..For a short and based on who the authors are, there shouldn't be all these mistakes. It takes away from the reading experience when there are a lot. Other than that good short read.

Carter Diamond 2 by Ashley & JaQuavis was a good and interest book to read. I enjoyed reading this book because it's always on the point, well- written and well characters. Both of authors did a good job.

Like: I could related to Carter Diamond. Carter Diamond is a business and focus man because he knew who he could trust with or not in this business. He could tell who is phony or not. It's nice to get know who is Carter Diamond before The Cartel Series.

Dislike: Carter Diamond is not honest person in this book.

So far, this book is really good and I enjoyed reading this book. This book and authors deserve a five stars. I'm looking forward to read more about Carter Diamond before The Cartel Series.

Great story ..I wish I would have read carter Diamond story first then the cartels series but reading this story now puts a lot of pieces to the puzzle ... I definitely understand Ma'tee effectuation with hurting Carter's kids in the cartel series now him and carter had beef which just so happened to last for many years smh big carter was a gangsta I see where his sons got it from their dad was a gangsta and a hustler and so was their mothers dad (not lil Carter's mom)over all a great short story and a page turner

Another great love story

So happy to finally read this prequel. Looked the cartel series. Although there is still some heart ache and unanswered questions. Super excited to read part 3.

Tishonna says

Its nice to know where Carter started out, but I just wish it was all one full length book.

Denise Gilliam says

I enjoyed this book. This book did not disappoint at all. This book held my attention. I loved Carter and Tyran relationship. I'm glad things didn't work out with Carter and Tonya she seem very messy to me.

Diane Rembert says

After Sammie's death, Carter had developed a relationship with Estes and his Taryn. He forgot about one thing...his girlfriend back home, Tonya. It all comes crashing down when she suddenly appears at his door.

This short story was very drama-filled and I enjoyed every minute of it. More of my questions from the Cartel series were answered here, so I give it ????? and highly recommend it.
