Counterspy: A Spycatcher Novella Matthew Dunn

An escaped terrorist is after intelligence officer Will Cochrane on U.S. soil—saying Will is the one who killed his leader—but Will knows there has to be more to this story. Will gets close enough to shut the man down, but when he does, that act opens the door to yet another, much more dangerous surprise ...

Shannon Hulett says

Double spies...miam!

Randy says

MI6 agent Will Cochrane has a nan after him known only as Trapper. He'd escaped from a base in the Middle East after announcing he was going to kill Will. Will's handlers wanted out of the way and safe.

But Trapper had somehow got hold of his cell number and was taunting him with phone calls.

Will has to get away from the CIA safe house and fins this man first.

Recommended for lovers of spy fiction.

Terry Samuel says

This novella was interesting but is it some sort of "filler" between books? Even though it was interesting, it was predictable and overall I didn't feel it was worthy of Matthew Dunn.

Counterspy: A Spycatcher Novella
By Matthew Dunn
William Morrow
September 2014

For two days, four CIA heavyweights have been waterboarding a small, wiry Indian agent that is physically inferior to any one of the men, but mentally superior a thousand fold to all of them. Sahir has been practicing withstanding torture for most of his life, and has decided that after the fourth waterboarding, he will cry uncle, because no one has ever lasted that long before. When he does start talking he informs the agents that his name is Trapper and he allowed himself to be caught so that he could send a message to the head of the CIA. One of their top agents will be killed in retaliation for killing a high ranking Taliban member. Please pass this on to Agent Will Cochrane, as he is the target.

Then when Sahir is put in a cell, he disappears like a puff of smoke; Sahir means magician. The real Trapper

sets his course for Washington, D.C.

Will is already in D.C. and being stalked by a Pakistani Intelligence Officer that has turned on him. Will wins the day, which is also his 35th birthday, but is put into a safe house that is shared by a female colleague he would like to know better. Will and Chrissie had joined forces once before; now she is his baby sitter. Will is thinking of getting out of the business and finding a wife and thinks Chrissie is the one he will choose. Will has a rather unusual bucket list.

COUNTERSPY is a short novella that gives Will Cochrane's background from the time he was seven and his CIA father was killed; at seventeen he killed four men that attacked his mother and were trying to get his sister; he put his sister in a private school; then he joined the French Foreign Legion; graduated with an honors degree from Cambridge; recruited by M16 and has served nine years as a top secret operative. He also works with the CIA. COUNTERSPY is also a lead in to Mr. Dunn's next Cochrane book, DARK SPIES that is a superlatively edgy and white knuckle suspense tale – if the first few pages are anything to go by.

COUNTERSPY is paced like a speeding bullet with action on most every page. Matthew Dunn has created a quick read that keeps the reader invested in every word and connecting with the intelligent, straightforward characters he has produced. There is also an excerpt from DARK SPIES to whet your appetite to Will's next adventure.

Faith Sarfaty says

Love Will Cochran

Another great read from Matthew Dunn! Grabs you from beginning to end. I was almost chewing my nails off every second! Can't wait for Dark Spies!

Marissa says

ARC for Review

Will Cochrane is a spy working for the M16 and handles joint M16 –CIA joint cases. His father was an American working for the CIA when he was captured and thrown in prison before he was tortured to death when he was five. Later on he watch his British mother murdered after protecting his younger sister from four men.

The CIA is lead to capture an Indian Muslim who after five days of waterboarding says that his code name is "Trapper" and that he is planning to kill Will Cochrane. Leaving him in jail while they seek out if he is telling the truth the prisoner escapes.

He eventually tracks down Will after Will is place in a safe house. They eventually meet up at a deserted place where the real "Trapper" kills the fake one and tells him that they will meet again one day. The fake one was told that Will was the one who killed the fake's dad and that was his motive to kill Will even though Will had nothing to do with it.

It's a case of mistaken identities and what will happen to Will when they do meet again. What is the reason why Trapper wants revenge on Will, we can only wait and see.

A fast pace read that keeps moving along.

Allison says

One: I have never read anything else in this series.

Two: the actual story in this book is only 80 pages, the other 70 or so are an excerpt from a forthcoming, at the time of publishing, novel.

Three: I was enjoying the story until it suddenly stopped and I was greeted by the aforementioned excerpt. Causing the story to be rather underwhelming, and feel more like a prequel or something than an actual novella.

5ngela says

It's been a long time since I read espionage fiction. I thought the story gonna bore me with its predictability but I were surprised with the endings (if it can be called endings). Anyway, I find that I am looking forward to read Mr Dunn next books. Hope it was better.
