The Unbelievers Lisa M. Lilly

A child who never should have been born...

Tara Spencer is the new mother of a baby girl—one who, by all accounts, should not exist.

Despite fears about her child's origins, Tara finds herself settling into the Willow Springs community, away from the prying eyes of The Brotherhood religious order and former-flame-turned-betrayer Cyril Woods.

But when her daughter goes missing and her best friend is violently attacked, Tara's newfound sense of security screeches to a halt. She realizes nowhere will be safe until she discovers the truth behind her virgin pregnancy.

When evil walks among us...

After accepting help from a charismatic but secretive billionaire, Tara's quest for answers leads her across the world. Attacked by those who see her as the ultimate evil, Tara fights to separate the trustworthy from the treacherous as a series of shocking discoveries calls everything she's ever known into question.

In the stunning second installment of The Awakening series, societal roles are tested and religious norms questioned in a thrilling paranormal page-turner combining elements of Rosemary's Baby and The Da Vinci Code.

The Awakening Series

The Unbelievers is the second installment of the popular four-book Awakening series. The Awakening and The Conflagration, Books 1 and 3, are available in ebook and paperback editions. The Illumination, the fourth and final book, will be released in May 2017.

Jordana Schmier says

Do I really have to wait for the next one? Good pacing, good character development, nice foreshadowing but not too many hints. Again, a fun read.

Pam says

I'm HOOKED on this series. I just want to know Tara & Fimi's purpose!!!!!!!!!!

Pam Wessel-estes says

Interesting read!

Overall I enjoyed the first two books very much. I appreciate much of the context for the story, and strong character development. I found it to be a refreshing fictional exploration of religion paired with feminism, atheism and good vs evil. Looking forward to what comes next.

Audiobook

Narration - Shiromi Arserio - Really Good! I loved her voice. I could listen to her all day. There's just something about her tone and the way she speaks...Really loved her voice. As a narrator, she is best as the storyteller. Smooth and solid. She doesn't seem to do a big variety of character voices. There were a few variations and some characters with really terrific accents, but for the most part, you had to listen to content to determine who was who, but as I said, she's still a great storyteller.

One thing that made it a little tough to listen to (I'm assuming vs. reading) is that there are places within a chapter where the scene entirely changes and, for example, we go from a scene with Tara and her sister, then flip to a scene with Cyril and Pete. I'm assuming in the print version, there's probably a little symbol of some kind indicating a change in the scene, but in the audio format, you have no indicator that the scene is changing. I got lost a few times and had to rewind - maybe a longer pause between those scene changes would help? BUT, with that said, at least I enjoyed the book enough to care about rewinding so I could stay on top of things.

The thing I did wrong was to listen to this without having listened to the first one. Don't do that!!!! While it was still enjoyable and enough details are revisited so that I had a pretty good idea of some of the things that happened in the first one, I would have enjoyed it much more had I listened to the first one. So now, I need to go and get the first one and listen and then I'm sure I'll listen to this one again.

This is what I would call a paranormal mystery and I'm completely fascinated with the story line. It's well written, the character's are well developed and it's really been an enjoyable listen. My first thought upon

finishing was - and I quote - "Noooooooooooooooooooooooooooooooooooo!!!!" So, I'm ready for book three RIGHT NOW!

I received a copy of this audiobook free of charge from audiobookblast in exchange for an unbiased review

BookLoversLife says

I liked book 1 well enough that I continued onto this, and I'm glad to say that this is better than the first. You are brought into the story from the very start and will be eagerly listening to see what happens.

Tara's daughter was born at the end of book 1, and Tara hopes that things will be different now that she is here, but she is wrong. She and her daughter are in more danger than ever with everyone wanting to know what she is. With her daughter in more danger, Tara decides that it's necessary to leave her behind and travel further to get the answers she needs to survive.

Tara has really grown since book 1. She now has, not only herself, but her daughter to think of, and it's really brought her strength forward. She makes tough decisions in this one and knows that for them to be safe, she needs answers. She leaves her daughter in her families hands and travels to some remote places in search of who her daughter may be. With some thinking she is the messiah and some thinking she is still the anti christ, Tara knows deep down that her daughter is special, but she needs to know why.

We see different POVs in this one, which I liked a lot. We have Taras fathers perspective, which gives an insight to who he is and why he wanted her committed when he thought she was lying, though he still finds it hard to believe!! We see Cyril back too, though I still haven't forgiven him for what he did to Tara, and I'm glad she doesn't either! Both of these play an important part to the overall story and I liked seeing it from their view.

The plot of this one is really fast paced and intense. Some of the mysteries are unraveled and some of the questions from book 1 are answered but we are left with even more than before! We are also left with quite a cliffhanger. In all honesty, I thought the book was missing pages because it stopped so abruptly. It just seems to end all of a shot and it left me reeling. I was like, How can it be left like that!!!! I need the next one yesterday ;)

In all, this is an intriguing and thrilling read. It will make you think, it will grab you and leave you wanting more, it will entwine you into the story till you turn the last page, or in my case, listen to the last minute. It's an interesting story and I can't wait for the next one.

The narrator for this one is different than the first, and I'm glad for the change. Shiromi Arserio was great. She is pleasant to listen to and really gives her all. She brought the characters and story alive and I hope she narrates #3!!

Disclosure: I was provided this audiobook at no charge by the author, publisher and/or narrator in exchange

for an unbiased review via AudiobookBlast dot.com.

I found this an easy book to listen to. It was interesting and kept my attention. I will probably listen to the next book in the series, but I will not go back to listen to the first one. I read a different review that compared it to Dan Brown. I can see that but I think that the writing is better here and the characters have a little more depth.

If you are looking for a quick read, like a little adventure and find quasi-religious puzzles interesting, you will enjoy this.

Sleepless says

Sanctimonius drivel

The story was dull, pretentious and uninteresting. I didn't connect with characters, locations or the plot. I was unable to even finish this preposterous thriller!

Renee says

This is the second book in The Awakenings series. I recommend reading book one before this one.

I found it fascinating to see how a story of immaculate conception might play out in today's society. In the first book, Tara finds out she is pregnant. This book continues her story after the baby is born, maintaining the feeling of suspense throughout the book.

I liked and related to the main character. This book answered some of the questions left hanging after book one, but then left me dangling by my fingertips from the edge of the cliff with many more questions.

I listened to the audiobook edition which I received free in exchange for an honest review. There is a different narrator to book one, she spoke clearly and at a good pace.

Lisa says

BOOK REVIEW.....

A good page turner of a story. I really liked this book. I enjoyed the complexity of the characters. . I think the author did a good job developing the characters and creating an interesting story that will leave you guessing as to who is good and who is bad. And what does everyone truly want ? I look forward to book 3 and highly recommend this series.

AUDIO REVIEW.....

I found the narrator to be very good at reading the book as well as giving the characters life and voice.

Bob Meredith says

Out

This too kept me on my toes, forever guessing, never knowing what was going to happen, how it would end

Steven Levy says

This was a great follow up to the initial book in the series, The Awakening. The author really has a distinctive way of making the reader care about her main character and her family members, which makes the suspense as to what will happen to them even greater. Additionally, this is a very sophisticated book, yet written at a level that everyone will enjoy. And, unlike in some other books of this type, the dialogue is always crisp and spot on. A must read.

Jim Kratzok says

Good sequel

The story is getting better. It's still uncertain where it's heading but I suppose that's a good thing or else there would be no reason for any further books in the series.
