Here Comes Trouble A.E. Via

Librarian Note: Alternate Cover Edition for ASIN: B00Q3UI6VG.

Detectives Mark Ruxsberg and Chris Green are very good at their jobs. Being the enforcers for God and Day's notorious Atlanta PD Narcotics Task Force causes the crazy duo to get into more trouble than they can often get out of. The pair never misses out on an opportunity to drive their Lieutenants crazy with their dangerous, reckless, and costly stunts, landing them in the hot seat in front God... often.

Ruxs and Green love their jobs and they don't mind the very demanding schedule that leaves them little time for socializing or dating. It was fine with them, they enjoyed hanging out with each other anyway.

However, most of the men in their close circle of friends and colleagues are pairing off and settling down. God has Day, Ro has Johnson, and their Sergeant Syn has Furious.

For the past several years, Ruxs has only sought out the advice and company of one person, his partner and best friend Green, and vice versa. Both of these alpha males are presumed straight, but neither can deny the heat that's building in their once 'just friends' relationship.

Okay, I did it. I read another A.E. Via book and didn't give up on it. I was being to believe this author was going to be a one hit wonder, since the only book I read and loved was Defined by Deceit. But I had one friend recommend and offer to buddy read Here Comes Trouble and other friend backing up the recommendation, going so far to say that I could unfriend her if I ended up not enjoying it.

Turns out this friends to lovers' story was not a miss, and it was just what I needed after coming off of an intense read. Ruxs and Green had me swooning. I loved them as a couple, and I loved them as parents. The only complaint I have is about the long winded sex scenes. I'm talking pages and pages. I think one of them lasted two chapter long. It was either skim or fall asleep. What's wrong with quick and dirty?? That can be just as hot if not hotter imo. I would have preferred more of the OTT drama scenes because some of those were really funny.

Anyway, thank you, Bo, for the rec and buddy read, girlfriend. Lorraine, you are not lucky enough to be unfriend by me. My stalking continues. ;-)

Another fun read from A.E. Via full of hot alpha males and hot growly alpha sex. This one was more focused on the relationship than on the action, and we didn't have much focus on the other men, although they were there throughout the story (I did miss seeing God, Day, Ro and Johnson interacting however).

This one was a bit fluffier than the others, but I did love the relationship between Ruxs and Green. Curtis, the teenager briefly introduced when God busted him in Nothing Special, is back and plays a large role in the story and the lives of Ruxs and Green. As with prior stories, the editing and proofreading was rough, but regardless, A.E. Via knows how to write a sexy alpha and an entertaining story.

Jenni Lea says

It doesn't bode well for this story when I see a typo in the blurb.

From winking alpha holes to love deposits, this book sure kept me entertained.

Still needs an editor but at least they didn't travel by Tardis like in the previous book.

Question: how old is Curtis really? I know in the book it said he was seventeen but most of the time he acted, and was treated, like he was ten. It had me scratching my head.

Chris says

This series continues to entertain me and I'm really enjoying the friendship and camaraderie between these guys. Ruxs & Green are the enforcers on the squad who have been partners for a while. They are best friends and loyal to the extreme.... over time they both develop stronger feelings for each other and on one drunken night they act on it. Despite dramas and pain, these two continue to grow their relationship and become fathers. Can't wait to see what's next in this precinct !

Another re-read in anticipation of book 5. Still no sighting of IT guy!

I loved this one. Ruxs and Green are hot and I loved how they come together. Their caring of Curtis is also so sweet. Now I have one more book until I can get to book 5 that is waiting for me on my Kindle. It's not a hardship though, because Don't Judge is my favorite of the Nothing Special series.

3.5 Stars!

This is another one of those cases where I really need 3.5 stars. It really wasn't quite good enough for me to fill 4 stars but I also don't think it warrants only 3. But I am rounding down for lack of plot and an overabundance of typos.

There is no doubt the sex in this book was off-the-charts hot!

Sadly, after the 50% mark that's about all that happened in the book.

The first half was Ruxs and Green in complete denial.

They couldn't have been more obviously in to each other if it hit them upside the head.

Jayzus!

I'm not going to lie they were a little sappy too.

But hey, some sap is good every now and then.

So once Green and Rexs left their denial behind things picked up a bit. The sex helped. And there was some decent plot involving Curtis.

Speaking of Curtis. The last 25% kind of seemed like it was setting things up for him to have a book. And don't even get me started on Genesis Godfrey...

Lord, the things out of his mouth made me cringe. So I am really hoping they don't get a book.

It appears I am safe for now...as there's a new detective in town. Who is...guess what? Gay as well....

Yes way!!!

Bitchie says

From zero to "My Two Dads" in under five seconds!

The cop its took a backseat to the family drama in this one. Considering the outlandish nature of the police business in this series, that should have been a good thing, but that's not the case, because the family bits ended up being even more outlandish than the cop parts ever were.

This is the story of Green and Ruxs, two of God and Day's detectives. They've been partners for years, when they both start to feel more for each other. All those bits are pretty good, but it started to go off the rails when the kid came into play.

We first met Curtis in book 1, he was the kid robbing the store, that God and Day helped out. The task force kinda took the kid under their wings, helping him out, giving him work, and just becoming like family. But Curtis' sick mother passes away, and that's where the silly bits started. (view spoiler)

The editing was bad here, too. The words were mostly right, but the sentence structure was awful. A LOT of sentences were broken into two. When they really just needed a comma. Making them jarring and awkward.(see what I did there?)

Then there was the timeline, which makes my head hurt. In book 1, God is reunited with his brother Genesis, a senior in high school, making him roughly 17-18. (eta, I just checked, Gen was 17 in book 1. "His brother was at least six-foot-two already at the young age of seventeen")Now, Gen plays football for the Bulldogs, and is 22. In book 1, Curtis tries to rob a store, and we learn here he was 15 at the time, but while 4-5 years have passed for Gen, Curtis is only 17! I said before this series is like a soap opera, and apparently the author also subscribes to soaps' wonky aging syndrome, too!

So, for me, the first half of this book was close to a 4 star read, the last half was a 2 star read, so I'm going with the average, and giving it a 3.

What I liked :

- The action scene.
- Slow burn best friends to lovers plot. Hell yeah!
- I did not expect to be that sappy. But I really liked it!
- I want more of Curtis and Gen's storyyy!
- Thank goodness there's no hinting about foursome in here like the previous one. I'm sorry. I'm still picky with menage.

What I disliked :

- Umm.. Maybe too much sex for me. But I bet it's not for everyone else. *shrug*

4* My favourite so far.

I must admit that despite its faults I find I'm addicted to this series, I just can't get enough of these guys and their almost completely gay task force.

As with the previous books it's totally OTT and once the sex starts there's a lot of it but I can't get enough.

Ruxs and Green are partners and the enforcers for God and Day's Narcotics Task Force. They've been friends for forever but lately things are changing, Green realises his feelings for Ruxs have changed and he wants more but how does he let Ruxs know and how will Ruxs react, will it change everything between them.

As well as their relationship we have a huge drug bust plus we meet Ruxs's drug addicted mother and Curtis is back. I loved where the story is going with Curtis and I really want more of that.

My one huge disappointment was the previous book had unsolved murders and I assumed that story would continue in this book but it doesn't. Now I hate lose ends and I can't believe the author would kill several people and not finish it.

Who's the killer?

It's inconceivable that the story will just be dropped but with no mention of it here (unless I missed it) it seems odd to jump a book but hopefully it will pick up in the next one.

3.5 SALACIOUSLY SINFUL, FLUFFTASTIC stars

(4+ for the sex; 3 for the plot; 2 for writing quality)

Chris Green and Mark Ruxsberg have been partners for ages. Green is bi; Ruxs is bicurious and definitely hawt for his partner. When they hit the sheets, they tear the bed to shreds. I'm amazed the frame survived the assault.

I loved the tension and slow burn at the beginning, because once the guys got together (and it didn't take long), it was all Kiss Me and Fuck Me and Love Me galore.

And the lovin' was oh-so-damn good: lots of sucking and licking and rough playing and nipple pinching, and paragraphs like this one:

The thick rod pulsed against his walls right before Green felt an amazing warmth saturating him on the inside. His lover's come flooding his well-loved ass. It reminded him of a stomach being filled with cocoa on a cold winter's night. So satisfying and warm, full of comfort and so goddamn delicious.

Cause nothing says warmth and comfort like an ass full of cum.

I think I liked this book best out of the three. There was still unnecessary melodrama (especially with Curtis at the end), but overall the focus was on the relationship and, while we visit with the MCs from books 1 and 2, they do not take over the story (like God and Day did in book 2).

Via has a thing for shitty mothers who turn loving and pure. We had God's mom in book 1 who kicked him out of the house and shunned him for years, yet in this book is referred to as a "good Christian mom who raised her sons well." The hell?

Ruxs' mom and her druggie boyfriend are the main villains in this story. I will never understand how a strong man like Ruxs is willing to enable an adult woman to such a degree. I know boys love their mamas, but there's gotta be a limit.

I fully grant my son permission to kick me to the curb if I ever get high and attempt to kill him with a brick.

Curtis, the gang's 17-year-old adopted son who is closest to Green and Ruxs, is a main character but not a well-sketched one. He's portrayed as being brave, yet he often sounds and acts, and is treated, like a child. He's introduced as one of the MCs for a future book (along with blink-once-and-he's-your-boyfriend Genesis, God's little brother) in a not so subtle way.

There are still writing/editing issues galore in this book: random fragments, purple prose (see quote above), lack of commas, and more I can't bear to ponder. I wish Via would find a better editor, because these books are fun and have potential.

*****3.5 Stars*****

This one is my favorite in the series so far! No weird names (except for the previous characters), no big-budget-movie-over-the-top-testosterone-fueled action (well, mostly)....just a book that mostly centers on two guys finally admitting their feelings for each other and embarking on a relationship.

Overall, this series has been a little too much for me, with the characters being a bit too over the top for my liking. Don't get me wrong, I love me some Alpha men, but these guys are over-exaggerated Greek Gods. It's just a little hard for me to take them seriously.....so I stopped. I read this for the pure entertainment it was supposed to provide...and guess what...it worked! I really enjoyed this one!

One area where A.E. Via excels is the steam....you'll hear no complaints from me there. You get it all...

From the beginning foreplay...

Which naturally progresses to a healthy dose of...

And concludes with a very satisfied reader...

With the book mainly focusing on Green and Ruxs, we get a whole lot of the above...with a good balance of down and dirty and slow and sweet. All of which worked for me.

The other aspects of the story, unfortunately, still felt too manufactured and forced. Especially the sub-plot dealing with Curtis.

Curtis is a 17 year old boy the crew has taken under their wing. They'd ran into him a couple of years ago trying to rob a store to help his mother keep the lights on and help with her medical bills. His mother is now in the hospital full time and hanging on to the last few weeks of her life. Curtis is basically the gopher boy at the station so the guys can look after him, especially Green and Ruxs, who have the closest relationship with Curtis.

The inevitable tragedy happens and Green and Ruxs step up to the plate to help Curtis. Here we move from 0 to 60 with such lightening speed it made my head spin. (view spoiler) Also, Curtis' character wasn't developed enough to have such a big role in the second half of the book. He was a 17 year old boy, who at times acted and behaved like a preteen,...and then throw in God's brother, Genesis and some drama with Ruxs' mom and "boyfriend" and well....

You lost me again.

This author has a lot of potential and some really great ideas, however they seem to get lost in the execution. With the help of a good editor, a more focused plot, and slightly better developed characters, A.E. Via could easily become a go-to author for me.

Susan says

The good things about this book:

- It is a best friends to lovers story
- The guys are badass cops
- Lots of sweetness
- Very low on the angst
- Some hilarious scenes (the blowjob in the car scene)
- There is a very nice setup with 17 year old Curtis for one of the next books. I so want to read that one!

Things I liked less:

- The badass parts were very over the top. It was too much.
- I am still not a big fan of God and Day (their superiors on the force)
- It was a bit too long to hold my interest the entire time
- I never thought I'd say this, but.... TOO MUCH SEX. And no recovery time needed. These guys fucked each other's brains out all. day. long..

So overall an enjoyable read. It's not really necessary to read the other 2 books first. I haven't read the first book because that couple (God and Day) ends up in a foursome kind of relationship. I did read the second book and liked that one better than this one.

If A.E. Via had toned down the badassery a bit, it would have been better imo.

I have re-read this book multiple times now and I still enjoy reading it. This is reason enough for me to change my rating from to 5 stars. I really got addicted to A.E. Via's books :) I also changed my mind about Gen...I would like to read his book....right now would be good :P

Original Review

I really liked this one. This book was was HOT as shit !!!

So our two heros are both big strong, badass alpha cops, and they are both members of God and Day's team (book 1). They have been partners and best friends for years, but recently, Ruxs has started to have sexual/romantic feelings for Green.

Green is bi (but nobody really knows) and Ruxs is straight....or well...he was straight.

This is a slow burn, but let me tell you, once the built is over...things are on like donkey kong !!

There is all sorts of action going on (I mean they are cops after all) and there is a subplot about a 17 year old boy that the department sort of adopted.

This series just keeps getting better and better. So far though, this book is my favorite, but that can all change in the future, because hopefully there will be many more books in this series.
