Crossing The Line

Lori Wilde

Crossing The Line Lori Wilde

Our private medical facility is a lush oasis of tranquillity, catering to affluent patients who require complete discretion. Our latest staff addition is Dr. Dante Nash, an extraordinary specimen of hotness...er, professionalism. In fact, nurse Elle Kingston can't seem to keep her eyes-- and her lusty thoughts--off him. But Dante is more than a sexy-pants practitioner who makes Elle weak in the knees--and in other parts.

He's also undercover for the FBI. There have been some illicit goings-on here at Confidential Rejuvenations. Dangerous ones. And it isn't just Elle and Dante's sizzling affair that's about to blaze out of control...

Martha says

I enjoyed reading this book. The hero, Dr. Dante Nash, is an Alpha male with a protective streak a mile wide. The heroine, Elle Kingston, is strong when she needs to be, a bit insecure about her own self-worth as a woman, and a born nurturer. They strike sparks off each other from the very beginning, but each is keeping secrets from the other. There is some suspense involved in this book, and it is the first in a continuing series called Perfect Anatomy, set in a swanky hospital near Austin, Texas, called Confidential Rejuvenations. I think the author, Lori Wilde, will be writing the other books in the series as well, and I look forward to reading those also.

Allison says

ok - leaves you wanting to read the next book

Sally says

Another book that had lurked on my kindle for an eternity and which I whipped through on holiday when in search of light reading. It was OK. Hero was a bit one dimensional. Heroine nice enough. Both of them spiked with special sexual hedonism drug to enable wild monkey sex on a pool table while maintaining the fiction that 'she doesn't do that sort of thing normally'. Paper thin 'plot' involving drug deals and undercover police and stuff. So yeah. It was OK.
