I'll be honest, it wasn't what I was looking for, but it's inspired me to try some things and see where they take me. Sometimes we get lucky and find out that what we weren't looking for is actually something we can benefit from.

Moss's perceptions of Hekate are very different from my own, but her heart is obviously in her service and dedication to goddess and craft.

Several of the hymns and invocations are beautiful and moving; I hope the author doesn't mind if I speak them at my own altar.

I envy the author her convictions and her devotion. May we all be half so blessed in our relationships with the gods as she.

This is a tricky book. There were plenty of things here that didn't quite strike me as true, as a lot of this is based on the author's personal ideas about Hecate, which says at least as much about her as it does about the deity, herself. I might have rated this lower if the bulk of the book hadn't driven me to develop my own personal conception of Hecate, which wasn't quite the same as the one presented here, but wasn't entirely different, either. The writing might have been toned down a bit, since not everything is insane or erotic (or both at the same time), but despite that, this was a worthwhile read.

This has been one of the best reads I have had of a spiritual book. It is a short read, and I made myself read it slowly as it is a devotional, and this is a devotional like no other I have read. It pulls you into the feeling of the Goddess, it gave me goosebumps at times. I recommend this to anyone following a Goddess path, even if you don't follow Her.

Stephanie Mahaffey Clark says

Hard to read I wanted so badly to learn more about my favorite goddess and I'm sincerely disappointed.

This is a good little book and I will admit it is a little different than some might like. It's a book of different writings from the author. It has a feel of the author's personal writings or meditations on Hecate, but the author's prose are beautifully written and there are tid bits of information and wisdom throughout the book. When I read it I picked it up and read it when I felt called to it and it always seemed to speak to me about

something going on in my life at the time I would read it. The back of the book has quite a bit of information about Hecate such as scents, colors, God/desses that are connected to Hecate and so much more. It was a quick read for me, but one that is a keeper on my shelf.

Odd book. The writing isn't bad, sort of pretty and dramatic, but it reads like a kind of lonely love letter. It will definitely give you a glimpse into the author's interpretation of Hekate, but I wouldn't recommend it for those seeking information on that particular goddess. Much of this reads like journaling/ dream journaling. Very little actual information or history having to do with Hekate. A bit all over the place. She really lost me when she started calling Hekate the mother of dragons. Definitely not what I was looking for.

Great devotional

I recommend this book to any Hekate devotee. I enjoyed the prayers, rituals, and recipes within this book. I loved the authors perspective. I will come back to this book as reference and to prepare the recipes within.

Books like this are difficult to review because you're never really "finished" with them. It's a devotional, a work of love and Moss pulls this off with warmth and imagery that will leave anyone with more than a passing interest in the Dark Goddess of Witches a clearer notion of who and what she is. Unfortunately, most of the material I've read on Hekate tends to be dry and overly loaded with obscure history. Moss deals with her goddess on a personal level, as one who truly knows the object of her devotion. The book is short, but there's a wealth of inspiration to be found in it. Recommended for those on a "darker" path.

A devotional, as the title states

This book was written in the honor of Hekate. For that alone, it speaks to me. The end of the book includes different methods of practice, resources, and magic to help further our connection with Her.

A couple of days ago, I finished reading the Pagan Portals book on Goddess Hecate. The author had explained her overall experiences with working with this goddess and how She had come to be in her life. There was a lot of things in the book that I had already known from my own personal experiences with

having had "met" her. She appeared in the same form and same way as Hecate did to the author.

One part of the book, I was drawn to was the challenge that Hecate does to see if an individual is worthy of being blessed by her. If you passed, a gift would be bestowed upon the individual. For the author she was given a pair of earrings with Goddess Hecate on them. For me, she didn't challenge me and handed me a statue with herself on it.

I was supposed to have meet someone in that dream. The mystery person was supposed to be apart of the challenge that Hecate had originally set in store for me had left. This, Hecate informs of.

I asked her, "why they wanted to meet with me?"

In which, Hecate replies, "She was supposed to challenge you, but she left you with this gift."

The last thing that the author explains is being touched by a God/dess is a blissful and blessing moment. I remember the first time, Hecate had touched me. In my dreams, I heard myself say something that I had said to myself. It was: "I feel spiritually connected to the Moon Goddess." I heard my voice say this on repeat until I saw the moon and Goddess Hecate. She reached out and held me. She called me her child. At the time, the religion I was learning the deities were within nature. The moon being the goddess and the sun being the god. Yet, that religion was not my spiritual home. I had no idea that who I was hugging and being spoken to was Hecate. She wouldn't let me look up at her she had held me in such a loving tight embrace. It was later in the book that mentions Hecate's other names that she is known by and one of them is the Moon Goddess. That I discovered who it was that I had dreamt about.

The another time, I was touched. I had fallen asleep on our living room couch. Hecate stood at the far end near the end table by our back door. I saw her and got excited, but I was exhausted. She stayed while the bird that woke me up did its mating calls for what feels like an hour. Until it finally shut up, I curled into the couch and just as I was about to fall asleep. I feel her touch on my cheek. Stroking them, and in my mind I could hear her voice calling me her child.

Overall this book has helped me improve my relationship with Hecate and overall understanding of who she is. My view of Hecate is very different then the author. The author sees Hecate as a Savior, while I personally see her and many other deities that I have yet to be introduced/known to as allies and mentors my higher self. Just like all outside things, the God(s) and Goddess(es) are contributing by aiding my higher self through some level of transformation by inspiring the knowledge that they posses.

I give this book, 5 stars for giving me some idea of who Hecate is. I would gladly re-read this and recommend it to anyone who wants to know who Hecate is.

This book was not quite what I was hoping for. It was very interesting to get another person's view and experience of Hecate but I was hoping for a little more guidance on how to interact with her myself. I do like that we're given reading suggestions and I did find this a fantastic as well as touching display of Vivienne Moss' love for Hecate. I recommend this book to anyone interested in someone else's experience living and interacting with Hecate daily.

Introduction to Hekate

I gave this devotional full stars because it opens the door to who Hekate is, what she is about and how this lady experiences her presence in her own life. It is beautifully written, atmospheric and captivating. A good place to start learning about Hekate, and an enjoyable journey for the reader who is already familiar with this enchanting Goddess.

Felt like I was just reading someone's journal with crappy poetry. Really did not enjoy this or get much out of it. Would be helpful for others who are new to the path.
