**Welcome to Madison Creek Where Northern Hospitality Meets Southern Comfort**

*A Contemporary Inspirational Romance*

Haley Madison packed her big dreams and drove to the Arctic. Well, all right, so it's Madison Creek, Michigan. But for a Texas gal, this frozen land ought to come with a sled and huskies. If it wasn't for her family's rundown property, she'd have stayed where the sun shone bright and warm. However, she has grand ideas for her inheritance even if the town has thrown up their objections to her plans.

Ethan Winters hated going home and admitting failure. Sure, he has a special talent with the violin, but he has bigger ambitions than playing at the local bowling alley. And then there was the idea of facing his father. No, he wasn't ready to go home just yet. He veered off the interstate and drove to a little town named Madison Creek. Maybe his luck would change.

When the southern SnowBelle literally blows him off the road with her rogue snowblower... more than just his luck will change.

## From Reader Review Snow Belle for online ebook

### Anne Rollin says

This book was filled with fun, spunkiness, and snarky banter. I found it to be very enjoyable. She brings her southern charm to the north and the small town isnt quite sure what to do with her. He is a home town boy wanting to make it big playing his violin. He wants to help her attain her dreams.. she doesnt want him to give up his.. for hers. Will they be able to meet in the middle and both have the dreams they want.. read to find out.. I would recommend for all. Clean romance.

A very nice book.The simple life of a small place appealed to me.It was enjoyable to read how a neglected property was finally developed.Both Gayle and Ethan are lovable,sincere people.And for a change,there is no villain or vamp.That is rather rare

### Jan Mcleod says

Haley is a Texan gas who moved to Northern Michigan to start her dream on property she inherited from her grandfather. She is spunky and stubborn. Even tho people in the small community want to help her, she refuses. Enter Ethan, by accident, who thinks his dream is to become famous with his violin. The two characters meet and the results are fun, spunky banter, and finally a romance. They both finally seek the Lord for guidance in what He wants for them.

The characters are delightful, and the plot is refreshing. A good, clean read you don not want to miss.

I can imagine what Michigan felt when Haley landed there from Texas.

Ethan was an example of opposites attract.

These two are the epitome of Northern hospitality meeting Southern comfort.

Asking The Lord to guide them in their decisions was comforting.

I look forward to the next one in this series.

Good job from One Texan to another.

It's hard to start over, even harder when you have lost everything you know and are comfortable with.

Luckily Haley inherited a large country home with the perfect barn for her beloved horses and new business she hoped to open. Unfortunately it meant she not only lost her grandfather but she would have to leave her hometown in Texas that she loved, and move north to Michigan and the cold she hated. Pluck and resolve was all she had on her side as the townspeople seemed to be against every idea she had to support herself. An angel falls into her life, or rather Haley runs him off the road, and a new, bigger adventure begins,. Both

### **B. D. Mann says**

I found this Christian fiction offering to be a delightful story. Some Christian romance authors turn me off to the genre even though I am a devout Christian because they tend to advocate an intolerance for anything that is not totally in agreement with their own particular brand of Christianity. The protagonists in this story are great role models for those who truly believe that God is a loving God who will assist us if we but ask for His help. They also demonstrated that we often fail to recognize divine assistance when it is given. The book caught and held my interest right from the start. The story was realistically believable as a whole with characters who fit right in with common, everyday folks. Misunderstandings occur in day to day relationships in real life just as is depicted in this story. How great it was to see how some characters who were initially depicted as adversaries became reconciled to the heroine as the story progressed. Regretfully, I had to ignore some editorial mistakes. When I am engrossed in the story these mistakes become significant, unnecessary distractions. Maybe editors should actually read the books with an editor's eye themselves and correct these mistakes before the book is released to the general public.

I laughed out loud a number of times at the antics of Haley, the transplanted Texan, as she tried to navigate Michigan and get along with the locals, including one special Yankee that slid into her life. In a world where a lot of romances are vanilla, this one offers a burst of original flavor. Not to be missed!

Cozy Christian Romance

I love the premise of this story. The location and plot are top-notch. The author weaves the story around totally believable characters. While this is a faith filled story, it does not bury the reader with the Bible. This is the first in a series that I look forward to reading. While this novel stands alone quite well, it also leaves lots of room to examine the stories of other characters. There is no cliffhanger ending. I love this author's work and plan on reading all of her work. I received this book for free and voluntarily chose to post my honest review.

As a Michigander, I enjoyed the typical small town dynamics and struggles of Madison Creek, a rural farm town: struggles of young versus older population, plus financial and job concerns. How does a community revive a town - maybe through blending northern hospitality and southern comfort. Delightful read with a romance between a southern belle and violin player. Romance at its best.

## **Beverly says**

This is a charming contemporary romance where Haley Madison and Ethan Winters find themselves at cross purposes, but warm up to possibilities after reluctantly spending some time together in a tiny town called Madison Creek, Michigan.

Haley arrived at her grandfather's side just in time to spend a few days before he was off to his eternal reward. Now, she had to figure out how to make a living from his farm, located in a small town on Lake Michigan, so that she could get her sister out of the foster care system. She's under a time limit, strapped with few financial options, and facing opposition of the sale of her grandparents' fine old Victorian home from the local historical society. Not that she wants to sell it, but how else can she prove to the courts she has a stable home and an income to welcome her sister to?

When violinist Ethan Winters is literally blown off the road by a runaway snowblower, manned by one of the most beautiful angels he's ever seen, what else can he do but accept her hospitality while his car gets repaired? When he discovers her name is Haley Belle, he quickly nicknames her Snowbelle, in memory of their flurried and snowy introduction. As he and Haley get to know each other, Ethan is beginning to wonder if God hadn't somehow orchestrated (pun intended) this little side adventure to show him that life is not all violin playing and fame.

I had so much fun reading this light-hearted Christmas story. Even though Haley was born in Michigan, she was raised in Texas, making her southern ways and accent stand out in the small town of Madison Creek. She was gamely trying to arrive at ideas to make a living for herself in Michigan, but getting no encouragement from the town folk who could see that her ideas were limited in the colder northern weather and more suited to her Texas background. Ethan finds himself standing between the town historical society and his snowbelle in an effort to come up with an idea that would make everyone satisfied.

It's a great short story. I understood the dilemma and rooted Ethan on in his efforts to win a snowbelle over to his point of view as well as her heart. I loved the conclusion. It was immensely satisfying.

Loved this book. A gal from Texas moves to Michigan when her grandfather is dying and he leaves all his property to her. She wants to sell the house (because there are too many memories) and turn the barn into a restaurant that serves Tex-Mex food. The town is against her selling the house and fights her every step of the way. She causes a guy to crash his car (while she is running a snowblower that grandpa tweaked) and then lets him stay while his car is being fixed. They start to have feelings for each other but then he gets a

call that he has been waiting for that the NY orchestra wanted him to audition. He is not sure if that is what God really wants him to do anymore and realizes that is not what he wants anymore. Will he go to the audition and play with the orchestra? Will she transform the barn into a restaurant and sell the house? Will they be able to work things out or does she make it so he will not want to stay?

### **Jolyn says**

I enjoyed this story where Haley and Ethan met by literally running into each other and then had to figure out what role God had for them to play in each other's life. They also both struggled with the question "If God gave me my talents, then why wouldn't He want me to find a way to use them?"

However I was surprised and disappointed to find the Lord's name taken in vain several times throughout the story. The presence of profanity in a Christian story caused me to severely lower my rating of what otherwise would have been a 5-star story.

Sex - a few sweet kisses

Language -several instances of profanity

Violence - none

Religion - prayer, Bible verses, decorating for Christmas, seeking direction for life decisions from God through prayer and the Bible

Great Book!

Haley and Ethan are great characters in this book. The other characters in this book are just as good, too. This is a Clean Christian Romance and written very well. I like how they talk back and forth. In Madison Creek - Haley and Ethan are thrown together, with I believe the help of the Lord. I love how they did that.

I enjoyed this read and highly recommend it!!
