PT Content Master Flash Cards Scott M. Giles

PT Content Master is designed to assist physical therapists to possess full command of core academic content using flash cards. This content knowledge is essential for success on the National Physical Therapy Examination (NPTE) and for effective clinical practice. 200 double-sided flash cards covering the most essential physical therapy academic content. The flash cards are organized into nine unique categories: Musculoskeletal System; Neuromuscular System; Cardiopulmonary System; Other Systems; Equipment and Devices; Therapeutic Modalities; Safety and Professional Roles; Teaching and Learning; and Research. Vibrant colors and visually pleasing layouts make the flash cards an ideal method to review academic content. By possessing core academic content knowledge users are better able to make informed clinical decisions on the NPTE and in clinical practice.
