American Prince

Sierra Simone

American Prince Sierra Simone

I've been many things.

I've been a son and a stepbrother. An Army captain and a Vice President.

But only with Him am I a prince. His little prince.

Only with Maxen and Greer does my world make sense, only between them can I find peace from the demons that haunt me. But men like me aren't made to be happy. We don't deserve it. And I should have known a love as sharp as ours could cut both ways.

My name is Embry Moore and I serve at the pleasure of the President of the United States...for now.

This is the story of an American Prince.

Sarah Toussaint says

Wow. This was a journey!

Let's see...

The previous book worked us through Greer, the heroine's story.

This one shows us what happened with Ash and Embry during their time as soldiers before they even met Greer, through Embry's POV, but Greer's story still continues in the present as do all of theirs as well.

The previous book ended with a cliffhanger and we immediately pick up from there.

The men have to rescue Greer without breaking the news to the nation and then the three will have to deal with a scandalous sex scandal, someone gets pregnant and someone else gets shattered with a big secret.

The sex scenes steam up the air, bringing even more tension between our protagonists.

But despite all of these conflicts piling on top of each other, the story still keeps my eyes glued because no one can deny the chemistry and the love between the three protagonists.

In this story, a prince will become a king and you will be begging for the next installment of this series.

I, for one, am burning with anticipation!!

4.5 stars!

Thank you for reading my review!

Happy reading!!

Martha Boss says

There are stories that you think you know from the beginning. Stories that are always predictable. Boy meets girl. They fall in love and live happily ever after.

This. Is. Not. That. Story.

I thought I was ready for my American Prince. I had it all planned out in my head. I met him when I read American Queen and fell in love. What I got from American Prince was so much heartbreak, pain, and SEX!! So much SEX!!! All the SEX!!!! Did I say SEX!!!! Dirty SEX!!!! Passionate SEX!!!!!! HOT SEX!!!!!!!!!! I NEED MORE SEX!!!!

Sierra Simone has consumed my heart for all eternity with on name. EMBRY!!!

Embry is rich and spoiled, yet dreamy and sad. Simone writes his character so that we fall in love with him,

heart first. We bleed and beg for his touch and his words. She gives us his past and his present clashing together like two gladiators looking for victory. He lives hard and loves harder. No matter how he tries to convince himself, he is worthy of nothing in his life he is worth everything. Embry is the character we have been craving for in books since Shakespeare wrote Hamlet. He is a good man. He is a good leader. I see him becoming more than a prince.

I'm a M/M virgin. Sierra Simon has popped my cherry, and it felt so toe-curling good. When I started American Prince, I was ready for a beautiful M/M/F love story. I wasn't expecting to have my entire psyche gutted open like a fish. I honestly felt like a voyeur spying on a couple of lovers clawing at each other's hearts all in the name of love. I was so horny reading all the sex scenes with Embry and Ash; I had to take one (ok six) for the home team and flick the bean.

You aren't ready for this kind of lover affair. Hold on to your tits my friends. This ain't your grandma's kind of love story.

Tijuana *Book Twins Reviews* says

"I couldn't breathe. Actually couldn't breathe; the air twisted in my chest..." That sums up how this book left me. It's utterly breath-taking! If you haven't read this series yet...WHY?! Trust me; you need this in your life.

Here's the breakdown: American Prince picks up where American Queen leaves off. Greer has been kidnapped. It chronicles the events during and after her rescue. And SO MUCH happens. But most important, there are flashbacks that give us an intimate view of the relationship between Ash and Embry. It's a complicated story of love, sacrifice, ambition, and loss. It's a stunning portrayal of the many facets of love. You can't choose who you love. You can't always control the circumstances of your relationship, but how you respond and deal with those truths is the core of this story. It's poignant, beautiful, raw, sometimes heart-breaking, but perfectly rendered.

Here's what I absolutely loved:

The writing is above reproach. The characters are flawed, but flawless. This is imaginative storytelling at its best!

Ash and Embry's connection. Embry and Greer's connection. And most importantly, how they all interweave and connect. Embry thinks of himself as the bad guy, the least deserving of the trio, but he's so wrong. He's such a brilliantly complex character.

The Arthurian connections – The whole cast of characters show up in one way or another. From Percival to Kay, Sierra packs in the connections to the various tellings of the Camelot myth.

The concept that love is love, but it also means sacrifice. The use of that theme throughout is heartbreaking

and we see the impact of the sacrifices that each character makes. It's very touching. You will FEEL ALL THE FEELS with this one!

Overall, this is my favorite book of the YEAR. Yes, it's only March, but I'm so impressed. I fell so hard for Embry in Book 1 and struggled even harder waiting for his story to publish. I'm beyond pleased with the outcome. I was blown away and am completely under the spell of Sierra Simone.

She has set the bar inconceivably high with this series. It has my highest recommendation and is a TJ TOP FAVE.

Shayna says

Unbelievably brutal and beautiful, AMERICAN PRINCE was on a WHOLE OTHER LEVEL! I've never felt this much POWER from a romance in a VERY long time. I'm a mess. After finishing it last night, I was absolutely worthless the next day. I found myself walking around in a daze, wondering, hoping, and dreaming of a happily ever after that seems so far away. Sierra Simone, you made it HURT SO GOOD. I love AND hate you for it.

I'm not going to share anything about what happens in AMERICAN PRINCE, because I don't want to risk any spoilers, but just know that the shock and surprise you experienced in AMERICAN QUEEN, has NOTHING on this book..NOTHING! I had my suspicions that getting almost an entire book in Embry Moore's POV was going to be heart wrenching, emotionally draining, and completely intense, and I was right, but it was still 150% more than what I was expecting. Sierra Simone has already pushed my boundaries as a romance reader. She has taken me places that I never thought I would go, but she did it with such grace and beauty, that I couldn't help but follow her writing wherever it goes.

Embry, Maxen, and Greer - this beautiful triad has been through so much and they still have more to go. My heart hurts for these amazing and complex characters. Each one brings something to the table that I've never experienced before. We are experiencing them grow and struggle as individuals and as a group. There are connections where you never thought there would be connections. There is an unyielding love at the precipice of all this and I'm dying to get to the end. I wanted to savor Embry's story, but there was no way in hell I was putting this down once I began. AMERICAN PRINCE was SO MUCH MORE than what I expected. After AMERICAN QUEEN, of course I expected the emotional upheaval that it would bring me, but I had NO IDEA that it would affect me this much and this hard, that I'm still thinking about it a week

after I turned the last page.

So prepare yourself for some deep shit. Prepare yourself for heartbreak. Prepare yourself to fall even harder than you have before. I don't even know what I'll do when I get Maxen's book in my hands. I'll probably just stare at it for days, not wanting to rush the inevitable.

This story of an American Prince...well, it's unlike any story you've ever read. It's a story that will change you. It's a story that will hold you hostage long before the last page is turned.

Maria♦*Steamy Reads Blog*♦ says

LIVE! GET IT!!!

➡But in all honesty, I guess what I'm trying to say is that

➡If you thought the first book in this trilogy was hot... then this... I can't even. I don't even know how to describe this book to you. This was like **American Queen on steroids**. lol One thing I do know for sure - this is **the best erotic novel I've read to date**. I'm blown away and speechless, Sierra Simone:

➡If you are like me and you love **in depth character development** and **complicated plots** with whole lot of scorching scenes in it then you will love this one. You have to be a fan on M/M & M/M/F, as I've mentioned in my review of the first installment of this series.

➡The storyline develops both in the **past** and in the **present** and I loved that so much. It gave me a much better understanding of who these three main characters are and what makes them tick. Embry is the star of the show here but Greer gets an occasional POV and Ash is very present in both of their thoughts.

➡There is a balance to every aspect in the story and, even though the book is on the long side, it was never dragging and I found myself devouring it at the speed of light.

➡Ok, yeah, but only about the reading speed. Everything else I swear by. The sex scenes in this book are all **unique** and **refreshing**, **passionate**, **dirty** and absolutely **exhilarating**! You get glimpses of Embry with Greer and Embry with Ash in the past as well as all of them in the present. Some scenes might surprise you. I

had no clue where this book was going and I'm simply amazed at how active Sierra Simone's imagination is! lol Cannot wait for the third book in the series!

Christy says

5 stars!

American Prince wrecked me in the best way possible. That ending... I can't even. Seriously, you all who read this book when it was first released.... how did you even function? I am so grateful I waited and I was able to jump straight into *American King*.

This book was not an easy read. I loved it, but it broke my heart and tore me up. These books are super steamy, but also incredible angsty and emotional. This review will be short and sweet because I'm reading *American King* now, and I need to finish that more than I need to review this LOL!

"Is it ruined? Did I ruin it?"

Title: American Prince

Author: Sierra Simone

Release Date: March 7, 2017

Book 2 of 3

After reading *American Queen*, I couldn't wait to read *American Prince*. I was hoping and praying that *American Prince* would be just as good as *American Queen*. Well, I'm happy to report that I was just BLOWN AWAY by the second installment in this series! I binge read this book in one sitting. Embry's story is nothing short of incredible. *American Prince* is not your average erotic romance. It's so much more. Sierra spun a wickedly sexy and smart heartfelt web of love, lust, lies and sacrifices. Embry and Ash have a lot of history leading up to their relationship with Greer. This emotion-packed journey of the heart and soul will melt your e-reader and captivate your heart. There are so many smart and sexy twists and turns in this erotic rollercoaster romance, and an ending that is going to leave you breathless. I need *American King* now, please.

Karen says

Sometimes I am so glad that I can swear on Goodreads reviews because I want to swear (remind me to untick the Facebook link so my boss doesn't see me all sweary).

Fuckety, fuck, fuck! Fuck the world. Fuck Abilene. Fuck Morgan. Fuck Merlin. Fuck Achilles. Fuck Patroclus. Fuck my Little Prince.

Life is unfair and I am going to sulk and sulk and sulk forever. Even getting tickets for RARE 18 (London baby) won't stop me sulking. Even a trip to the great gin God in the cupboard won't stop me sulking. Even a snog from Adam Levine won't stop me sulking...hmmm that might work actually. Send Adam and send him now!

Sierra Simone you are little temptress of magicness. You lady, you deserve to be spanked, HARD! You have had me sweating and swooning. I haven't eaten all day. My kids haven't eaten all day with the exception of a bag of jelly beans and marshmallow mushrooms - that's two vegetables right?

I'm dead! Want to know what happens in this book? Buy it and guard your heart or it might beat itself right out of your chest.

DEAD!

P.S Facebook unticked.

Second read completed ready for my King. I want to be sick. I want to do all the swears. I want to kick a puppy. Livid. Fuming. Still dead. I'm convinced there is a plan. There has to be. Please Sierra, please don't do this to me. I'm begging. I promise to read all the Chaucer tales. I'll memorise them and recite them. I'll send you bluebells from Yorkshire every spring. Just please, please let there be a plan.

Morgan Cross says

OH MY GOD! I... I can't even put into words how I am feeling right now. I'm shocked. I am blown away. I did not see that coming. I had an idea of how this book would go, but no. It went into a complete different direction. I'm speechless. This book was EVERYTHING. Full of unbelievably hot moments, but also heartbreaking moments. I would go from screaming "NOOO", to having to take a moment to gather my wits because whew, talk about a girl overheating reading those sexy scenes. This book was a roller coaster that I did not want to end!!

I can't even express the love that I have for these characters. I don't think I've ever felt so emotionally attached to characters before, but I seriously cannot stop thinking about them!! I thought I loved Embry in American Queen, but the love I have for him now that I've read American Prince doesn't even compare to

then. To see what great lengths he goes to save the ones he loves, but doesn't feel he deserves that in return is heartbreaking.

Sierra knows how to captivate you with her writing. It's unbelievable. I am so IN LOVE with this book and I cannot wait for the next one. Believe me when I say this book is a MUST read!

Ang~Dirty Laundry Review says

Sierra Simone strikes pure gold with American Prince. Embry's story has set the standard for top of the line, beautifully written, smart erotica. This is the one I'll measure all the others against. It's filled with heartbreak, lust, sacrifice, and above all else, love. It's perfect. As I always say, romance readers are smart and we should read books worthy of our intelligence. This is the book we've been waiting for.

Amy says

Sometimes when I'm reading a book, I find myself slowing down my reading pace as the end gets closer. It's weird: I both desperately want to know how it ends, yet I desperately don't want it to end.

Such is the case with American Prince, the magnificent second book in Sierra Simone's erotic, intrigue-filled romance trilogy. This review will contain spoilers from American Queen, the first in the series, so if you haven't read that, I suggest you do and then come on back here.

We last saw Ash and Embry tangled in the sheets, having celebrated Ash and Greer's wedding night. The bride, however, was abducted by an evil middle east dictator in cahoots with her duplicitous cousin. The good news is that Simone gets you through that scenario fairly quickly, but don't celebrate too much: the repercussions of that kidnapping play out across the rest of the novel.

Whereas American Queen was told primarily through Greer's eyes, this one belongs to Embry. You still get Greer's POV, but Embry takes center stage. As he should, quite frankly. Embry is the Lancelot to Ash and Greer's Arthur and Guinevere, the man who loves his king and queen and would sacrifice anything for them, even his own happiness and contentment. He believes he is a "bad, selfish man;" yet he can't see that he loves so purely and selflessly and is loved purely and selflessly in return.

As you read this book, you sense that Embry will be forced to make a sacrifice that will break his - and your - heart. You will worry about him. You will worry for Ash and Guinevere. You will end the book feeling frantic and sad and anxious, and very, very worried. Simone leaves her characters in perilous conditions, their futures and happinesses uncertain and wobbling. You will revel in the intimacy shared between Greer, Ash, and Embry, particularly that between Ash and Embry. Simone takes you back into their relationship, from the first time they meet to her stunning cliffhanger. You watch them fall in love, and you will lose yourself in their sex scenes. Sierra Simone packs those jewels with the perfect amount of detail, making you squeeze your thighs together as she delivers the quiver.

Never fear, though: you will also revel in the intimacy shared between Greer, Ash, and Embry, particularly that between Ash and Embry. Simone takes you back into their relationship, from the first time they meet to her stunning cliffhanger. You watch them fall in love, and you will lose yourself in their sex scenes. Sierra Simone packs those jewels with the perfect amount of detail, making you squeeze your thighs together as she delivers the quiver.

This is a love story, first and foremost, albeit perhaps an unconventional one. Ash, Greer, and Embry love each other. It isn't always perfect - Simone does not hide jealousies and insecurities - and it certainly isn't safe. It's interesting that Simone never puts you in Ash's head, treating him instead like a mysterious, magnetic leader of two impassioned followers. "I'd be dead before I stopped loving Ash," Embry says. "I will break from loving him, I think. I will split with it, burn with it."

When you finish this book, you will feel the same way.

Amie M says

My Name is Amie, and I SERVE at the PLEASURE of the VICE PRESIDENT!!! OMGWAD!!!

The WORDS that come to mind for AMERICAN PRINCE would have me banned from ALL OF SOCIAL MEDIA... I will say that EMBRY MOORE (and you see were ALREADY MARRIED) has got my WHOLE HEART... Never has a male character in a BOOK took me away as EMBRY has.. This man is COMPLEX in all the right ways, LOVING from the depths of his SOUL willing to make whatever sacrifices to ensure that the ones he is most devoted to feel as if they were his EVERYTHING... His purpose for LIVING. His Love and Devotion to Greer and Ash knows no boundaries, but it is his lack of Love for himself that gives you ALL THE FEELS.... Sierra Simone has a way with words that draws you into her story, making you feel like these characters are every day people... The people YOU KNOW. ... She had me grabbing at anything near by to keep my balance, losing my mind at every single written word... This is what Sierra's writing does to MY SOUL.... she keeps you coming back for more... begging for more.... hoping beyond hope for that next fix.... Embry Moore will always be my number one. This BOOK is MUST READ. 2017 BEST READ...

My name is Amie and I serve at the PLEASURE of THE VICE PRESIDENT OF THE UNITED STATES.♥

Bibi says

****Spoiler***

Update 14/03/2017

At chapter 24

I've suspended disbelief.

Scandal, the TV show, appears more realistic than this book. That scene at Melwas's fortress, when Embry agrees to have sex with Greer has to be the most nonsensical plot manipulation ever. Of course, we *KNOW* now why the author wrote it as such.

Pure, unadulterated, BS.

At chapter 16

This book will not pass close scrutiny. There's a good story there I'm sure but it's lost in the narrative, and being in Embry's head is disturbing.

Considering he was my favourite character in American Queen, I find it hard to reconcile *this* version of him to whom we met in the first serial.

Additionally, it's a bit alarming that the FLOTUS could be so easily taken. There is no way that the President, his Vice, and the First Lady would not have perimeters of secret service protection.

With so much going on, the amount of space dedicated to the sex scenes is disproportionate and distracting. In fact, the many smex scenes left me unmoved and disengaged.

Would someone please explain how Greer turned into a TSTLF?

SueBee★bring me an alpha!★ says

?????????! American Prince, book 2 of 3. How Embry Moore became the second most powerful man on earth while earning the love of his King & Queen!

“Embry holds my husband’s heart in his hands and he doesn’t even know it. He’s too busy looking at the details of Ash’s faces to see the expression, too busy being in love to see how loved he is.”

Books in trilogy should be read in order:

Book 1: American Queen

Book 2: American Prince

Book 3: American King

“I’m not asking either of you,” my husband answered sharply. “I expect you to mount her. I expect you to fuck her. I expect you to make her come. And I expect her to let you.”

This is an **unconventional** epic love saga between a king among men, President, former Lieutenant and war hero, **Maxen Ashley Colchester, Ash**, his best friend, lover, military comrade and Vice President **Embry Moore, Prince** and the girl who would grow up to be their queen, recent college graduate, professor and First Lady **Greer Galloway, Princess**.

Publicly they will face **world crisis, political discord, scandal and tragedies**. But it's the battle they must fight **behind closed doors** that will define them and consume us. Through secrets, lies, greed, lust, betrayal, jealousy and conspiracy they will struggle to hold on to each other and that which is most sacred; An **unapologetic and extraordinary love triangle** that transcends time!

American Queen, book 1 is Greer's story detailing her life, upbringing, first love, first kiss, first lover and how she came to marry the most powerful man on earth while earning the love and commitment of his best friend.

American Prince, book 2 is Emery's story. A candid glimpse into the **enigma of a man** who would capture the heart of a king and a queen though he never felt worthy; The **demons** that plague him, the **secrets** he kept, the inner **battles** he fought and the **sacrifices** he made...

"The little prince in the book is so wise but so sad. Has so much to offer this world and yet he can't stop pining for the one he loves."

Colchester looked right into my eyes and I could not look away."

Maxen Ashley Colchester, Ash is hands-down one of the best heroes I have ever met. Unapologetic in his love, his lust and his commitments he will ~~drive~~ command the story. Twelve words to describe **Maxen**: Imposing, powerful, ruthless, devious, manipulative, focused, enigmatic, irresistible, honorable, unforgettable, vulnerable, and larger-than-life.

Twelve words to describe **Embry Moore, Prince**: Private, loyal, secretive, noble, brave, nurturing, conflicted, complex, reckless, intense, suave and aloof.

Nine words to describe **Greer Galloway, Princess**: Smart, naïve, impressionable, submissive, good-hearted, resilient, trusting, confused and strong.

American Prince, told mostly from Emery's POV, is a masterfully complex and interwoven tale of **seduction, lust, sex, jealousy and love** boosted by themes of **political intrigue**; power, greed, betrayal, scandal, conspiracy and danger.

Alternating between unfolding **current** events and **flashbacks**, Embry must **step up for his country** while villains stir, enemies plot and his king and queen remain steadfast in their love for their prince. It ends with earth-shattering revelations leading right to book 3, **American King** from Maxen's POV for the **conclusion** to their saga.

All-consuming! Magnificent! A forbidden love triangle like no other! 6 stars!

"It was the purest heavens in the midst of the worst hell, and I loved every minute of it, even though it was all underpinned by a lie--my lie—and I knew one day it would burn down around me."

ARC provided to me by author Sierra Simone in exchange for an honest review.

Julie Linhart says

Good god what do I say about this book. Anyone who knows me knows that American Queen was my favorite read of 2016. I really had no clue where American Prince would go. I just knew I had to get my hot little hands on it as soon as possible. Let me start off by saying Sierra Simone writes with such depth and detail. You are fully emersed in the story whether before or after. Because you will see this story is told from 2 povs and from 2 different periods of time

If you think you have an idea of what going to happen in this book let me just tell you right now, you don't! Because soooo much happens. You will see so many sides to your favorite characters that you never knew existed. If you haven't read American Queen stop right here reading this review.

One thing I remember making notes of...we all know from the last chapter of American Queen that Greer is kidnapped. And I happened to note that I loved how Sierra wrote Greer during this in American Prince. She was clear minded, smart and thinking about doing all the right things to escape. Often authors write a weak minded character and I liked that Sierra didn't write her that way. I almost felt like all women should take notes in case they should have be in such a situation. Why I mention this I don't really know but it just stuck out to me while I was reading.

Beyond that particular scenario there is so much going on in this book. So many revelations. So many things you learn just from seeing the story told from a different pov and a different timeframe. You'll see Embry in a different light as well as Ash. You see their relationship in a completely different light as well as the triad.

And if you are wondering if Sierra can once again bring on the heat we'll have no fear. I've decide this author had the ability to build a scene like no other. She just has a talent not just for sexy scenes but just such a story telling talent. I feel like I'm rambling...probably because I just finished this book and am in hangover stage. I

really need American King now!
