NASH

When a buy-out brings me face-to-face with Bonnie Calhoun, it looks like she's been waiting for me since college. Could this be my second chance? Her n*pples are hard the second she opens the door. She tries to hide her true desire, but it's too late. Only problem is, she thinks I'm still the same old playboy. Is it possible to show her that I've changed?

VINCENT

I needed to decompress in the middle of nowhere--and I found Gemma Ramsey, a girl who didn't want to be found. She's the kind of woman who leaves marks on your body. Making love to each other was our only concern. The perfect vacation for me. There was only one problem--this wasn't a vacation for Gemma. This was her home. Her real life. I wanted more, but did she?

CASPER

I wasn't looking for anything when the sassy redhead, Lily Fitz, led a protest against my company. I'm not used to women resisting me. Most women aim to impress me. Not Lily. And now, I can't resist her. I want her. I need her. But how do you tame a wild animal? So, I did the only thing I could. I had her detained.

Sara Oxton says

Billionaires protest is a great four star read. This is a complete romance series, it contains three full length HEA romances that do contain scenes that are not suitable for under 18's, and are guaranteed to make you blush, and hot, so don't read it at work or on a public bus. Unless you like getting hot in public, then definitely go ahead.

Kira Blakey never disappoints she writes alpha billionaires in a genre that there are too many alpha billionaires to count, the difference is she writes such individual and deep characters that you can't help but fall in love with them, even when they misbehave.

This collection isn't just hot, it's funny as well. The characters are brought to life, and we meet three couples who face opposition Casper, Nash and Vincent have all met their matches, the only thing is will those matches stick? Or will they fall apart and lose each other? As mingling business and pleasure doesn't always have the positive outlook people are looking for.

Elysian Fields says

This is actually a collection of three stories that are each standalones but together complete a collection. The set includes the stories: Billionaire's Protest, Billionaire's Claim, and Billionaire's Promise. Each story is about 40,000 words each and involves a different set of characters but is set in the same world; each of the male leads being college friends.

Billionaire's Protest: This is the story of Casper & Lily. Casper is a little difficult to like in the beginning. I had a hard time getting attached to him and caring about him but he redeemed himself at the end and I felt that he really did love Lily. Lily was a sweet character and I really enjoyed reading about her. Lily and Casper meet at a protest. Lily gets into a bit of trouble and Casper saves her. Their romance is instant as Casper enjoys that Lily has no idea who he really is. I liked the concept of this story and the plot line was good I just did not feel any connection to Casper until the end so it was a bit difficult to connect and care for the developing romance. The story is a bit rough and needed a bit more for me to truly enjoy it but it was a good start to the collection.

Billionaire's Claim: This is the story of Nash & Bonnie. Bonnie has poured everything she has and is into her business but it is failing and she needs a new buyer. This is where Nash steps in and takes over. Bonnie is not happy as she does not like him, he is almost like her arch enemy, and releasing her company to him is both difficult and heartbreaking. Their relationship turns from love-hate to love as the story develops. This was my favorite story in the collection and I truly felt it was sweet and believable. There was a little drama but not a lot.

Billionaire's Promise: This is the story of Vincent & Gemma and it is a little shorter than the previous ones. Gemma is from a small town and does not really understand the city life. She is in college and working at a local diner to take care of her finances. She is driving to work when she gets a flat tire and a handsome man stops to help. Their love develops fast from here and the story is mostly about their relationship. It is fast and sweet and there is little conflict or drama. This story is all about their love. Vincent was a great character with a developed sense of what he wants in life and Gemma is just the woman to provide that. I liked these characters and felt it was a sweet way to wrap up the collection. I received an ARC and am leaving a voluntary review.

Crystal says

I really loved all three books in this set. I enjoyed meeting all three men and the women that showed them what they were missing in life.

Casper is a man that doesn't want to change. He meets Lily at a protest out in front of his office. This story was really hot and exciting. I don't know why I thought Casper was up to no good but really he wasn't. It takes a little bit for Lily to realize that she has to trust herself and not be jealous. I like how she stands up for herself.

Bonnie hates the thought of signing her company that she has spent the last five years trying to make work. It is even worse when she finds out that her old college crush Nash is going to buy it. These two have wanted each other for years and lets hope that Nash's secretary doesn't come between them and ruin what they have together.

Vincent needs a break from everything and goes on vacation. He knows that his parents want him to marry. He just needs some quiet time. That changes when he meets Gemma when she is on the side of the road with a blown tire. This was a really exciting read. I loved what he did to Big Mike.

The author did a great job with these books. I guess the thing that I didn't like is that you really don't get any of Casper's POV like you do with Nash and Vincent. I was a little disappointed in that. Other than that I really liked the books.

I voluntarily read an ARC of this book.

Nicole Henderson says

I volunteered to read this book as I like Kira's work her first series was from the heart. This series is different as in it takes men who are born into money and girls who are from the other side of the tracks.

This first couple we meet is Casper and Lily. Casper is the hero that rushes in to help Lily when she gets hurt at a protest. Unbeknown to Lily, Casper is the owner of the company she is protesting about. With a few ups and downs this story ends with a HEA.

The second couple we meet Nash and Bonnie who went to university together and basically competed against each other at school work. Years down the track Bonnie's company needs to be sold because she can't afford to keep it. Along comes Nash her nemesis to buy the business. Again not a smooth sailing into this relationship, but it also ends on a HEA.

The last couple we meet is Vincent and Gemma. Vincent has just made a break through in his area of research and is having a semi vacation when he comes across a young lady whose car is broken down. Gemma is a young girl working and studying to get on with life. Her main goal is to study medicine but first she has to overcome the many hurdles put in her way. This story again doesn't see the couple fall happily in love and everything go smoothly there are plots of speed bumps along the way. But again it does have a HEA.

PS Did I tell you all the men are friends.

Anyway give this box set ago it's an enjoyable read.

Would I recommend this boxset YES

Billionaire Protest

2 stars

I received this book for a voluntary, completely honest and non-incentivized review. This is the 1st book of 3 in this set. I'm hoping it gets better. It was hard to understand the attraction or more so Casper's attraction to Lily. Casper does not come across at all as being a stand up guy, so in this too I don't see the attraction Lily has to him except for physical. The whole plot from beginning to end lacked a lot of depth and I wasn't sure what the point was. Again, hoping it gets better.

Billionaire Claim

4 stars

I received this book for a voluntary, completely honest and non-incentivized review. This is the 2nd book in the series and already I enjoyed it more than the first. The characters were more believable and their connection and attraction seemed genuine. I wish they would have been more forthcoming with each other and what happened with Sera? Is she still there?

Billionaires Promise

3 stars

I received this book for a voluntary, completely honest and non-incentivized review. This is the 3rd book in the series. I found it short and sweet. There wasn't a lot of drama, just well intentioned insecurities. Characters were good and the plot was decent.

Cheryl Graham-Petit says

Billionaire's Protest, by Kira Blakely, is a box set comprised of: Billionaire's Protest, Billionaire's Claim, and Billionaire's Promise. Each is about 40k words.

This was a nice collection of billionaire romances featuring three unique men and their interests, desires, wants/needs, and more. I've read Billionaire's Protect & Billionaire's Claim, both of which I enjoyed. I imagine the final will be just as good as the others.

Billionaire Protest Set

Billionaire Protest Book

Lily was a protester extraordinaire, with her purple, pink, and glitter green sign her six year old niece helped her make to protect the Green Gleneagles Habitat. She is waving and screaming with the rest.

All of a sudden she is looking up at a nice butt who is trying to protect her. He kept telling her to stay down, while he is fighting people off with his fists. He finally gets her away to a place where she can clean up.

Let's take stock. She has been down on a parking lot, hit in the face, which bled and had tampons stuffed up her nose, she was hurt in the back of the head, then she sat down and laid out on the couch. Then Casper, Her Hero, messed her up on any flat surface.

If this is how they met hold on to your pants, or not, and enjoy the hilarious ride. I volunteered to review this ARC book using my own opinion.

Shelly Celli says

I voluntarily received and reviewed an ARC. All the stories are great! Definitely recommend to everyone.

1. This was a fun read. Casper and Lily are complete opposites that you think would never mesh, but they do. They're hot together, and Lily's temper is hilarious at times. After meeting at a protest, the chemistry between the two is undeniable, you never expect what happens next though.

2. This was a romantic story. Two people pining after each other in the past, but neither ever knew. Talk

about second chances. You can tell immediately that Nash had feelings for Bonnie when he showed up at her house. The more they were together, the hotter the chemistry. I wasn't surprised by his father's reaction, but I was happy about how he reacted, and how she believed him right away. Not to mention Sera. Wow, what a....

3. A great finale for the box set. Gemma could have never expected Vincent. From the moment they met, he was smitten, much like his best friends with their respective better halves. Gemma is massively overwhelmed and keeps running away from her feelings, scared that he will not want anything to do with her once he finds out about her real world. He surprises her, and now she just wonders if she'll achieve her dreams of becoming a doctor.

Lexee Toste says

This was an interesting bundle. There are 3 full length books included, all about 3 billionaire friends. They are all standalone reads, as we don't get to see much of the friends but they do all play a small role in each book. Every one of the guys ends up with a woman that is nowhere close to being in their social circle. They are each drawn to the woman immediately and don't know why but they can't stay away. The women have a hard time trusting the men and figuring out what their motives are, but they can't really stay away from the men either. There is an attraction and connection that is just undeniable. They were all interesting reads as they have to deal with the differences on where they come from and figure out how to make things work. They are all explicit and the sex and sexual tension plays a role in every story. They all felt like they were fairly quick reads as everything happens over a short period of time and things move quickly. Overall, I enjoyed reading the stories.

I voluntarily reviewed an ARC of this book.

Moriah says

These 3 stories were great to read. Casper and Lily meet each other outside a protest. This story happened really fast, but it was sweet. Bonnie and Nash knew each other in college, but never acted on their feelings. Vincent and Gemma were my favorite. He was in town for work and hiding out when she had a flat tire and they had instant chemistry. I voluntarily reviewed an advance reader copy of this book.

Scrap says

I voluntarily read and reviewed an advanced copy of this boxset

Kira Blakely is such an amazing author, This set includes three standalone books but the main male characters are all friends

In book one we get to meet Casper, He is your typical alpha male who doesn't take rejection lightly, When Lily protests his company

he just has to have her. She is Feisty and gorgeous.

In book two we meet Nash. Nash and Bonnie went to college with each other, Bonnie had a HUGE crush on him then but he

didn't acknowledge her, Or so she thought. This was a GREAT second chance story and my favorite of the three

book three we meet Vincent and oh wow that man is HOT, He is taking a vacation from his work and his

family when he runs into Gemma.

They have an instant attraction but will that be enough to form a relationship, Will his family ever accept her. Does that even matter.

Kimberly Hutchins says

Part 1 Casper and Lily.

Casper met Lily when he came to her rescue when she got knocked down while protesting outside his office building. After getting her away from the crowd he sends her to his office to wait for him. He then offers her a job, then proceeded to make out with her.

The next day Casper turns up at Lily's door asking her to a company party, in Hawaii.

On the private jet on the way to Hawaii they spend the whole flight in the bedroom on the plane.

At the party everything is going well till Lily over hears Casper talking to another woman (Samantha) and causes a scene, then takes off. Of course Casper follows her and they make love then go back to the party.

In the morning Lily demands to be taken home, when they get on the plane they have a fight and Casper spends the flight in his office. Then when they land they both tell each other to stay away from them.

A few days later Lily sees Casper on tv doing an interview and rush to apologize to him.

After 6 months of seeing one another, Lily is still not sure whether they actually have a relationship, or if they are just sleeping together. But then she overheard Casper talking to Samantha in his office. She heard Samantha asking Casper out that night,, then get angry because he had other plans. He told Samantha that he had plans to spend the night with his girlfriend, because he had been out of town and hadn't seen her in a few days.

The only thing that would have made this story better would have been if it had been written with Casper's point of view as well as Lily's

Part 2 Nash and Bonnie.

Nash and Bonnie were in college together, and were very competitive in the classroom.

Years later and Bonnie's business is failing and Nash buys her out.

Then he offers her a job working for him, but she has to think about it.

In the meantime they attend a charity event together, where Nash buys a \$3 million necklace for her.

Their relationship goes along very quickly, and Bonnie moves in with Nash.

Then 8 months later he asks her to marry him.

Part 3 Vincent and Gemma.

Vincent finds Gemma on the side of the road with a flat tyre. They proceed to argue about who is going to change the tyre. They give up in the end and Vincent drives Gemma to work. They walk into the diner and Gemma's boss comes out yelling at her.

Vincent proceeds to fight with him and gets Gemma fired.

Vincent and Gemma get a bit carried away with each other and spend a few days locked away in his cabin. Then he has to go home and convinced her to go with him.

She doesn't have a good time there and wants to go home, he comes back with her to meet her parents. They both love him and he indicated that he wanted Gemma to move in with him.

6 months later and they are blissfully in love and couldn't be happier.
