His Curvy Woman Sam Crescent

Ace Heart has always been the bad boy. Women have fallen at his feet, begging for him, but he has only ever wanted one girl. Throughout high school, he watched her from afar but never got close. His time to claim her as his own passed, and she moved away. Three years ago, though, she came back, and she's now working for him. He can't hold back any longer. It's been too long, and he intends to claim this curvy woman for himself.

All of her life Trixie Dean has done what her parents wanted. She was the model student, the perfect daughter. But when her parents tried to get her to marry their "perfect guy", everything fell apart. Trixie wanted to do something for herself. She started with getting a tattoo, and one thing led to another, until finally, she got the job working for Ace Heart.

Ace wants to claim Trixie for his own, and Trixie wants to belong to him in every single way that counts. Can she fight off the demons of her past, or will she be forever lonely? Can Ace prove to her that his curvy woman is worth fighting for?

I am not as curvy on the top, but, on the bottom half, I've been told I have a black woman's booty. This is probably why I love reading romance stories where curvy woman are appreciated as the truth is most of us aren't skinny models who have the perfect body shape that we curvy woman dream of. I have a work colleague who in my team in my mind has a great body shape that I could wish for, but it's not meant to be. In His Curvy Woman by Sam Crescent, we meet Ace who owns his tattoo shop and Trixie Dean who was once living what others saw as the "perfect life" until she cracked and ended up on Ace's doorstep three years ago. For the past three years, he has been trying to work up the courage to tell her how he feels and as he is about to discover Trixie feels precisely the same. One thing leads to another, and you can guess the way the story unfolds. What I did like about this book, was that Trixie was able to confront her mother and therefore in one aspect get closure on her past which allowed her to move forward with the future with the only one who mattered - Ace Heart. An excellent quick steamy sexy read from Sam Crescent.

I liked this story. I liked that even though Ace and Trixie were attracted to one another, they didn't get together instantly. As the years past both characters had the one another on their minds. But it wasn't until three years earlier that Trixie came back into Ace's life. Although they were not together in the past, I still felt like this was a second chance romance. I liked the chemistry between Ace and Trixie and liked them as a couple. Whilst reading this book I wasn't bored and devoured this book in one sitting. The storyline for this book is easy to follow and a nice read.

I Voluntarily reviewed a copy of this book

I loved this one, I think my favorite one so far. I loved Trixie and Ace together. Trixie went through a tough time, finding the person she wanted to be and now she is free and happy for the first time in her life and she wants to experience happiness to the full

A short, sexy, steamy read that will want you wanting more

3.5 stars a quick fun summer read. Ace and Trixie knew of each other in high school the years went by and Ace is a successful tattoo artist with his own business. Trixie went the corporate road and was not happy! She meets up with Ace and they begin to work together until Ace finally admits his love for Trixie.

His Curvy Woman, the fifth entry in Sam Crescent's Curvy Women Wanted series, stars Trixie Dean, a woman who was always the good girl, the obliging/agreeable daughter, who finally decides to take control of her own life. One way to do that is by getting something she's always wanted, a tattoo. Turns out her tattooist is an old high school classmate, Ace Heart. One thing led to another and Trixie has been working for Ace for the past three years.

Ace has wanted Trixie since high school -- even before then. He thought he lost his chance with her when she went away to college. Trixie, too, has wanted Ace since high school. They were from opposite sides of the tracks and neither felt good enough for the other. Their unions were always fleeting and interrupted -- handing her a book in the library, but someone walks in, staring at each other across the field, but someone walks between them, etc.. They were ships passing.

Now, it's been three years since Trixie waked back into Ace's life and he's not going to let her go. A steamy kiss after work one night fulfills one of Ace's fantasies and opens Trixie's eyes to see that she can have what she wants, and she wants Ace (which works out great, because he wants her, too!).

This sweet story is short (listed at 56 pages), but is filled with great characters and so much emotion. (I especially love a scene late in the story that has Ace giving advice to a client who wants to tell his girlfriend he's in love with her. Wonderful!!) Pair that with an HEA -- yes, please! This is one of my favorite stories in this series.

"His Curvy Woman" is the story of Ace and Trixy.

Couple who's always has feelings for each other, finally gets together one wild night in this tattoo & lust filled tale.

I liked how the H was celibate after he saw the h again, and this book was more sweet than dirty.

Nice epilogue.

His Curvy Woman is a great addition to Curvy Women Wanted. I loved Ace and Trixie toghter. They have waited for this happiness for long time.

It's a perfect story to read if you don't have much time. It's quick, sexy, no dramas, second chance romance.

I enjoyed this but i wish we saw more of the three years when Trixie came into his life.. like it was a quick catch up she didn't want the life her parents wanted for her to gave it up, walked into a tattoo parlor and got inked up by the bad boy in high school and now she working for him.. so this is their second chance at love.. still took him 3 years to finally tell her he been in love with her since kinder ???

Like come on Ace your the "bad boy" and you don't have the balls.. that was my problem with ace.. No alpha bone.. on getting what he wants..

Low in angst, hardly no drama, our guy has bee. Celibate for 3 years, Trixie doesn't like sex (at first since she had bad partners)

Instalove/lust

No cheating

This is the fifth book in the curvy women wanted series and I think this one is the best its a quick insta love but it has all the feelings of a full-length book. The story line is solid fun and uber romantic, The characters are fun and full of joy love and a touch of hurt from their past.

I think Miss Crescent has done a fabulous job with this book and I cannot wait for the next one in this series.

The author is fastly becoming one of my all time favourites.

I actually had to go back couple of time to double check if this was indeed a Sam Crescent book or not.

- there is about 9 years of separation : 18-27; neither stayed celibate during that time.
- However they were never in a relationship. In fact, despite both having a crush on each other, they never actually spoke to each other in high school. so this I couldn't count as cheating. They just made the best of their shitty lives.
- Hero's mum very nastily told him he is way out of the heroine's league, so hero never approached her in high school, and then tried to move on, only hearing bits and pieces from gossips, so his lack of celibacy is understandable, but there was no indication he was a manwhore.
- heroine was trained to be a professional AND a good wife who serves so a little knowledge of sex was appreciated as well. and she also thought she was out of his league, and then could never trace him via social media so she also tried to move on.
- From the moment she reappeared in his life, he was absolute faithful to her. He waited for three years before he made the first move as she was in a REALLY bad place emotionally. He gave her space, a job and friendship. And he stayed celibate and didn't stray. He acknowledged he is still out of her league, she may never want him, but fate has landed her on his doorstep and he was not looking at another woman, despite the possibility of next zero chance of ever scoring with the heroine.
- The heroine accepted his declaration of love and her own feelings so readily that it was almost boringly tame, however, it was nice for a change. So no pushing.
- No OW/OM drama.
- No OTT alpha shit. No force. The whole thing was very consensual.
- Even though they keep on saying they loved each other since high school, it was really teenage crush, I really didn't mind they were with other people before.

P.S. However, somebody really need to do SOMETHING about this authors covers. They get bad to worse with each book!

KnottyGirl Reviews says

Sam Crescent continues her Curvy Women Wanted series in this wonderful novella about tattoo artist Ace Heart and his shop assistant Trixie Dean. Sam is an awesome author who writes books about real women, with hips, tummies, and curves abound. As a curvy woman myself, it's refreshing to read stories about women who are more of the societal norm, size 12 or above.

Trixie has worked with Ace for the past 3 years. Before that, she had gone to business school, been top at her firm, and almost married, all at the hands of her parents. She was miserable, so she gave it all up and went to work for Ace. Ace has always had a thing for Trixie, but he never thought he was good enough. Now, he decides it's time to let Trixie know how he feels, but does she feel the same? Trixie certainly doesn't like other women coming on to him at the shop. Will she finally take what she really wants?

You'll love this short story by Sam, and the sex scenes are so hot they'll burn up the sheets! Keep your fire extinguisher handy!

A sexy short

This one is for all the curvy girls who love a sweet romance that features women like them. I loved Ace and Trixie.
