Loved it!

As usual this author did not disappoint. What in the world was Maddie thinking? This is one messed up love triangle with her, Smoke , and Tiffani. I have no words to describe the craziness. I blame Maddie. She new that Smoke was married from the very beginning, but she just had to be a thot. Now she's in too deep. I can't wait to see what's going to happen next.

Rashoda says

I'm confused

You start the book off with him leaving Maddie to go back to his wife cause his wife became pregnant but in the end we never run into the scene you started the book off with? I don't like the fact that nothing happened in this book but I have to read another to probably find out nothing is gonna happen in the next I bet... I read this book till the end think I was gonna get more and got nothing.. I understand there is another book but this book I don't like.

Wow

Ok, jumping right in, I don't think Tiffany loves Lincoln. I think it's more about not being alone. She doesn't do anything a wife does to make her home or husband happy. It's all about her happiness. Lincoln married for the wrong reasons. He tried to fix Tiffany's insecurities with a long term commitment and that was instantly a recipe for disaster. Maddie can't be upset with anyone other than herself for losing out on Lincoln because she repeatedly refused his friendship/ romantic advances even after she'd begun to have feelings for him. Before she left for college, she could have made Lincoln hers and there would be no Tiffany. In this case she brought a lot of get heartache upon herself. I can't wait to see what unfolds next.

Fast paced attention grabbing storyline. I think Maddie is going to continue to find herself in the middle of unnecessary drama dealing with Smoke. She should really listen to BFF Nova & take heed. I'll see what she does in the next part. Great read

Princess Trina says

And it begins

This is why you gotta stay strong in your beliefs. It may seem hard especially when your desires seem to be overruling but are the consequences really worth it in the end? Looking forward to part 2 to see how this all goes down.

.

Now that was a petty ending if I ever seen one.. Tiffani just got on my last nerves. She knows that her marriage is ending.. Can't blame her for trying though.. Maddie should have just left Lincoln alone.. Part 2 me please!!

Mad Woman : LOVE DROVE HER CRAZY

This book was good from Start to finish !!! Tiffani worked my nerves the man was working and paying all the bills she was accusing him of cheating from the jump insecurity. She pushed her Husband right into another woman's bed. Maddie played hard to get but once Smoke got a hold to her that all changed quick Maddie should have known drama would be right behind dealing with a married man ! PART 2 i need it quick

Christine mccullar says

Great read

At first I thought Maddie was bogus for messing with this married man. But after reading about tiffani who can blame him. Cheating is wrong but u also can only push a person so far...I guess Lincoln was tired. Did it make it right for him to cheat. No....but I understood

DENISE says

Awesome read.

Wow. Don't want to give it away but this book is on fire. Good from beginning to end. Tiffani just want her marriage to be normal with the man she chose as a husband. But even though he ain't a drug dealer he is still a cheater. Maddie is just a whore. Why not give him the time of day when he was single. But then gets involved with him knowing he is a married man. That can not end good. It deserves more than 5 stars. Great

job.

Great read finish in two hours

Didn't like the fact his Ass got marry when he really wanted her.and she did what she was wrong til he put it in her.and the book ended to soon.

Like that tiff follow him and see who it was

REND FOSTER says

Awesome

Whoa did Maddie really think something good was coming out of this cuddly buddy bond ,Not!!! .Just reading this book I know nothing good is about to happen can't wait for part 2 This book is??? Lady Lissa awesome job

Latia Sanders says

This book was a quick read. It seemed a little rushed to be honest. The characters didn't have enough time to fall "in love" the way that they did but still interesting nonetheless. Also be prepared for a tad bit of redundancy.

Gemini Rule says

Good read!

Good book. Sometimes shit happened. You can't control everything. You just have to roll with the punches. But men do push and push until they get what they want. As long as all the cards not on the table it's all good. But as soon everything is laid out and it's not secretive anymore, the real life begins.

Latiqua Smith says

Maddie & Smoke

Spoiler alert:

I love how the author tells the story from different perspectives. If Maddie wasn't playing hard to get in the beginning her and Lincoln could have been together. Tiffani had issues she needed to deal with before marriage. She pushed Lincoln away. He shouldn't have married her thinking that would rid her of her insecurities. I'm glad Nova and Josiah are still together after all these years even though she liked Smoke first. I'm looking forward to see how this story will unfold.

Latanya Garry says

Definitely A Great Read

I knew from the moment I started reading there was going to be plenty of drama by the way it started out. At first I thought Nova was going to be one of those bitter friends that be hating. However she really just wanted what is best for Maddie. Maddie had tried her best to fight temptation but she ending up failing. Lincoln should of fixed his situation before trying to pursue something different. Tiffani got on my nerves with her whining and insecurities.
