I thought these books were really well written, I loved the story and how they progressed and the switch I didn't see that one coming it made the read different and I was eager to read more to see what the outcome would be couldn't wait to delve into the other books and the good thing was I didn't have to wait as it's a set. You will not be disappointed as once again an amazing series by Victoria. If you're looking for a fast-paced read with some sexy bikers then this is the box set for you.

Two Princes

Fantabulous!!! Victoria does it again.

Just when you think, OK this is a new genre for her. Will she be able to hold my interest like she did in the Knights of Black Swan Series?

BAM!!! Yes she can! From the 1st sentence to the last sentence. She grabs a hold of you & does not let you go. Heart pounding & exciting. The usual Victoria Fun scenes also. I laughed out loud & there were times I gasped out loud. The interaction between the Brothers keeps you turning the pages to find out what is going to happen next! I love that A Season in Gemini was at the beginning of this book. Don't wait get your copy so you can enjoy this book as much as I did!

There is a lot of real life action & adventure in this book. We are given a different kind of heroine to enjoy! The things that happen in this book could be what happens at your neighborhood bar or restaurant. I loved that about this book. I could easily picture meeting these people in my neighborhood.

Oh My Goodness the hotness of the Twins. ~~~~ fanning myself~~~~ Of course The Father Brant is still smoking hot also. Of course my husband would just love Brigid Bailey. He has a thing for Ginger's & well-endowed women. So this book is great for both men & women to read! What are you waiting for. Go get your copy NOW! You will not regret it. 5 stars

Job well done Victoria!!!!

Bikers Brother

Victoria knocks another one out of the park! As you will come to expect from a VD book. She grabs a hold of you and keeps you enthralled right to the last page. I love a good road trip & VD takes us on a whopper of a ride. Brandon is the twin to Brash, who we met in Two Princes. Brandon wants to be a part of the Sons of Sanctuary MC club. To prove himself he volunteers for a job no one else wants. To protect the Daughter of a Very Rich man. Cami is Divorcing her abusive husband. Brandon has to get her away from NYC to Texas, to keep her safe. They clash, yet are very attracted to each other. As expected with one of her books. I laughed, Cried, sat on the edge of my seat. The suspense is great! Not just your ordinary MC contemporary.

This book also has a bit of the dark side to it. It does delve into the MC characters. It is truly a great read. Yes it does have a wonderful HEA!

Nomad

The most wonderful thing about Victoria Danann is that when she writes a book, it is going to be so very entertaining. This book is no different in that it is very entertaining. It also grabs you and reels you into the story right from the 1st sentence. I could not put it down. Read it the 1st time in one sitting. The second time I took a little more time. WOW the heartache in this book! Two lost souls that find each other and experience a journey of salvation together. Such a moving tale. The romantic outcome is Pure Victoria Danann. She keeps making me fall for all of her main men. This book is not different. I totally fell for Cannon Johns in a big way. If you are looking for a adventurous read, this is the story to get. It can be a stand alone, but I highly recommend you read the others in this series 1st.

Devils Marker

WOW! Victoria Does it again! This book is very edgy and full of intrigue. Win is very likable yet still what I would picture an MC member to be like. As per usual for my reaction to a VD book. I laughed out loud, Gaspd, sat on the edge of my seat, and Cried. But this time it was a happy cry. For those of you that are Daddy's little girl, you also will cry. Love the new characters we are introduced to. It helps a bit if you have read the other SSMC books, but it can be read as a Stand Alone. Win and R.C. are a hoot together. The interaction keeps me coming back for more. Favorite quote. "Arcy. There aren't enough angels in heaven or demons in hell to keep me away." You know you want to read this book, so get your copy and start reading! From a Forever Fan... Pam James.

Just recently discovered this series and am loving it! I have read the first 5 in the series but have not yet gotten to Batiste. Kind of scary for me since there's a warning about sexual violence in it. I love sexual but not violent. I am on to reading Victoria's Knight's of Black Swan series after finishing a must read series of books in the Havenwood Falls series first.

A Season in Gemini (Sons of Sanctuary MC 0.5) -(Intro to Sons of Sanctuary) - This story really shows both sides of the fence so to speak. One woman that comes from corporate money and one man that comes from dirty money who wants nothing to do with it. Garland is a woman who gets what she wants when she wants it until her father puts a halt to it and giving her an ultimatum. Brant is a man who gets what he wants but gets it honestly instead of following in his father's footsteps. When Garland and Brant come face to face they both want each other. Garland sees a bad boy that she knows her father will hate and Brant sees a spoiled woman but as they keep bumping into each other the friendship grows and they learn a lot about each other. This story is filled with so many surprises and sucked me in straight from the first page.

Two Princes (Sons of Sanctuary MC #1) - This story has a Parent Trap meets Motorcycle Club feel to it, but that's where the similarities end. You have identical twin brothers that are raised by their parents separately, they meet 23 years later and then the fun begins. I seriously couldn't get enough of Brash and his good nature bantering with everyone he knows and meets. Brandon was a bit stiff but loosened up after some time. The brothers' craving for peanuts is funny. When it came down to them learning about each other's lives it was quite comical but they took to it like a second skin eventually. I was definitely captured into this story from the first page to the last.

The Biker's Brother (Sons of Sanctuary MC #2) - This is most definitely very different than what I am used to reading by Victoria, but I couldn't love it more. In a lot of ways, it reminds me of my late husband from 11 years ago and his stories of when he used to ride with a bunch of different biker groups and participated in some of the 'protection' details.

Nomad (Sons of Sanctuary MC #3) - So much emotion, togetherness, and love. Family always sticks together no matter what, and this story shows it all the way through.

Devil's Marker (Sons of Sanctuary MC #4) - Win, Catcher, Zipper, Boss, and R.C. all captured my heart in so many different ways. Loved every word and can't wait for Catcher's story.

Two Princes

Two Princes was a wonderful story, but way too short. It needed to go on and on. It's about twins separated at birth, living in different states and different worlds. A biker boy & billionaire boy whom don't know they are missing something in life until they meet. So cool how they took to each other. I really did enjoy it and will purchase the next in the series. Thanks for my nights entertainment.

Bikers Brother

Biker's Brother, book 2 the story of Brandon. Brandon wants to be a part of the Sons of Sanctuary MC club and need to prove himself. Cami needs to get away from her abusive ex-husband. Brandon takes on the job of keeping her safe and getting her from New York to Texas. It doesn't matter if Victoria Danann is writing a paranormal series, other world stories or biker's lives....it will be a great story.

Nomad

Nomad, is Cann and Bug's story of heartbreak, redemption and fulfillment. They meet when they both are at their lowest. Bud is just one week shy of turning 18 and being a legal adult. She knows she needs to keep away from her father until her birthday so that she can keep her baby. Cann is making one last journey home to say goodbye before taking his own life. He has roamed for years trying to escape a tragedy that rocked his entire world. Then he finds Bug. He just has to help her, so they run together to save her and her baby. When they find the Texas Rangers on their trail, Cann and Bud must rely on the Sons of Sanctuary as well as one another to find safety and a possible future together. This was a wonderful story that will keep your interest from start to finish. Loved it.

Devil's Marker

What a wonderful book Devil's Marker is. I couldn't put it down. There is humor, suspense, sex, and lots of action. Not your typical biker book. Win is a character you can't help but root for and fall for. You can try and figure out the ending, hope for what you want to happen...but until you get there you just don't know how it will turn out. Victoria Danann has a way of writing that makes you feel like you're in the scene with all the players. That to me makes a successful story. Thank You again Ms. Danann for this latest adventure into the wonderful world of your writing. I recommend this book for everyone.

TWO PRINCES

You get two books when this is purchased. "A Season in Gemini" and "Two Princes". Oh my goodness, I love this series! I was so involved reading during the flight from Phoenix to Maui (6 hrs) when I finished we were 20 minutes from landing in Maui!

The Biker's Brother

If you like intrigue, danger, descriptions so detailed you can smell the rain, feel the sun and suspense so intricately written you suddenly realize you are holding your breath; this book is for YOU!

Nomad

All I can say is, I couldn't put it down even for a bathroom or sustenance break! I was all in to this beautifully written story of heartbreak, redemption and fulfillment. Another superbly executed addition to the SSMC series!

Devils Marker

A biker (Win) who walked away from the wild side comes to the SSMC seeking a quieter life as a legit investment strategist. Little did he know he'd be jumping out of the frying pan into the fire when the club president asks him to fill a marker owed to a Texas Ranger. This is my favorite book in this series and Victoria Danann masterfully unfolds this suspenseful, fun, edgy and emotional story which draws you in and never lets you go. It ends with you wanting more for multiple new people weaved into and throughout this amazing adventure of the mind.

Shannon Vaughan-Patton says

Loved these books! Totally unexpected twist in story line. I was totally captivated by the description of the biker boys and I can not wait till there are more of these amazing men and women. I am not usually one to read anything but Paranormal romance novels and this set had me from the beginning. These bad boys keep you captivated.

Great set of books

I previously read each of these books when they first came out, and loved each one. In this set makes them a great value. Love this series. Rack book is very well written and extremely entertaining to read.

Ann Ellis says

A great MC series. I enjoy reading this series. The characters are flawed but so rise about their circumstances to find love and to do right for others. I recommend this series.

Ellen Sandberg says

Now you can get them together at last. This is an exciting series. I am not usually drawn to stories about motorcycles. However, Victoria Danann has created such complex characters and compelling stories these are hard to resist. And why would you want to resist?

You may read my full reviews under each of the individual titles.

Fliss Taylor says

After reading the knights of the Black Swan by Victoria Danann I thought I'd give her biker books a try and I must admit I was pleasantly surprised.
If you enjoyed her other books I do recommend you give these a try.

pamela d bryant says

Pretty good!

I chose this rating because this was a pretty good set of books. I enjoyed most of the characters. This series or set of books were about protecting what and who was meant to be your lady. Also about trust. Great read. Recommend to all MC lovers.

Christine Simpson olesinski says

To be very honest, these were my first motorcycle books. I was very pleasantly surprised how much I liked them. I only took the leap into this genre, because I have come to love the writing of Victoria Danann so much, that I knew she wouldn't steer me wrong.
