THE CAPTAIN'S LADY

Diane Wachter says

Jo Goodman, PB-B @ 1984, 1985. Desperate to avenge her parents deaths, Alexia Danty escapes from Captain Tanner Cloud by masquerading as a man. Romance. Okay.

Sylvia says

Colonial

Maura says

I was honestly shocked that this was written in 1984, when the majority of books from that era include macho, domineering heroes who feel it's their place to put a woman in theirs. So imagine my surprise when I read this little gem about a woman so set on revenge that she takes on the persona of a man, a pirate captain named Alex Danty and the hero is not all gung-ho about stopping her. He just wants her to love him.

The hero, Captain Tanner Cloud is not really an alpha...but he's not a pathetic beta either. He's a macho kind of man, but he falls in love with Alex immediately and is willing to do anything to earn her love, except let her go off to be killed in order to avenge her family. But eventually he realizes he must, if they're ever to be together. There are other conflicts, such as the War of 1812, the fact that they're kind of on opposite sides and Cloud has his duty to the U.S. Navy. But under it all is this angst of two people who love each other, but cannot be together until Alex has cleared her plate. And let me just say, the scene where Alex's family is killed is so incredibly well written, that it gave me goosebumps. The feeling of these two being in love and being apart is pretty poignant - stomach twisting kind of angst for me. I loved Cloud - I always love it when the hero is the first to take the fall. He's still arrogant and masculine though (and he says he slept with 2 or 3 women while he was separated from Alex either assuming she wasn't coming back to that it would be a long wait, I'm not sure).

My problem here is with Alex. Cloud is literally willing to do ANYTHING for this woman. He lets her go when everything he is tells him to hold on to her. He risks his career, life and future to take on treason charges so she can complete her revenge and he does not stand in her way knowing what she has to do. Alex on the other hand is so consumed with her vengeance that Cloud becomes secondary. Alex does not love Cloud to the degree that he loves her and my heart hurt for poor Cloud. I could have forgiven Alex if she'd had some thunderbolt moment where she realized how little her vengeance meant to her compared to Cloud and she'd had a chance to grovel (for wasting 2 years of their life) but she didn't. Ideally, it might have been believing Cloud to be dead and she could feel the angst of it all, but no. She sort of subtly came around to the fact that maybe Cloud was more important. So it lacked the punch. If you can get a hold of this book, it's worth the read. In fact, just about anything I've read by Jo Goodman is very well written, high quality

romance, often times breaking the mold of old-skool romance.
