The Arrangement

Suzanne Forster

The Arrangement Suzanne Forster

Alison Fairmont Villard wakes in a hospital bed with a face she doesn't recognize and a husband she doesn't know. Andrew Villard, a self-made millionaire, has a bright future but a shadowy past. When he tells Alison the details of their life together, she has no choice but to believe him—and to accept the shocking proposal he offers.

It isn't just the partial amnesia that Alison suffers. She has her own terrifying secrets that can't be entrusted to anyone, even Andrew. Even the police suspect he was behind Alison's near fatal accident aboard his yacht and were ready to charge him with murder before her body was found, battered on the razor-sharp coral reefs.

When the veil of amnesia lifts, it's too late. Alison is caught in a web of her own making. And now an FBI agent with a personal vendetta is about to blow the lid off her deadly marriage of convenience.

Love2Read?HEAs? {Anne} says

1 Dysfunctional Star

Read this a long time ago and disliked it immensely.

I stupidly thought it was Romantic Suspense but IT WAS NOT! It was a Thriller, and not a good one.

Not a fond memory, I assure you.

To the author's credit though, I have read a few of her SS's that appeared in Anthologies, (Contemporary Romance and a Erotic Romance), and they were pretty good. Maybe she should stay away from Suspense?

Alyssa says

Thought it was a really interesting and thrilling book- was hard to put it down. Some of the scenes dragged on a little long, but I could imagine them not in the book. Great twists that turned into an unexpected ending.

Shawn Fox says

I am a fan of Forster books because she always can surprise me with her stories. This one definitely caught me off guard, I wasn't sure in the beginning who the bad guy was, or if there were any good guys at all! Good book, but I read it a few weeks ago....when I went to review it, I had already forgotten who the characters were. Not sure that's a good sign. But, still worth reading if want an edgy book.

Judy Brown says

Intriguing-the first I've read of this author. Interesting premise...good summer read.

Julie says

This book is all about mystery and an event that links two lives

Melissapalmer404 says

Book #18 Read in 2014

The Arrangement by Suzanne Forster

This book reminded me of the book *Gone Girl*....I didn't really like any of the characters or find anything redeeming about them...but I had to finish the book to see what happened to them. In *The Arrangement*, Allison was swept overboard and her husband, Andrew, is blamed. She is then found...or was she? It turns out that Andrew replaced his wife with Marnie, a deformed local girl who was also thought to be dead. He wants to use her to flush out Allison's true killer so that he can be freed from suspicion. A long line of suspects exist, including Allison's dysfunctional mother Julia and her mentally ill brother.

This book has good twists and turns in it. As I said above, none of these characters are truly innocent and some are not even decent people. That being said, readers will want to see what happens to them, if they get their just desserts and how this book will end.

Cassandra says

I actually give this 3.5, but it only lets you do full stars. It was definitely a slow start and I almost stopped reading multiple times. Some of the twists I turns I saw coming, some were a surprise, but about 3/4 of the way through it I knew the "who" at the end, just not the details of "why." Once you get through the first 100 pages or so, it's a pretty quick read. Although having so many Points of View can be a little confusing at times. I agree with another reviewer that said none of the characters were people you would like or wanted to root for. They were all very self-obsessed and not likeable. In the end, though, they all get what's coming to them, so I guess that's fair.

All in all, a good mystery if that's what you like. Just make it through all the boring stuff at the beginning and you'll be good to go after that. It's a long book, but pretty easy to read quickly. The chapters aren't too long, so you feel like you're reading at a fast pace. I would recommend this to anyone that likes murder mysteries.

Jenn says

I was really excited about this book until about p. 186. This book had a great plot but it had so many twists and turns and secrets that I lost track and then got bored because of no reveal. Usually you read a book and they reveal important pieces throughout not this. I did figure out the secret that Allison was really Marnie - that was pretty easy. Everyone in this book had an agenda but you didn't really find out about it until the end. One thing that bugged me was Julia. She was a self involved woman with lots of issues and at the end, she blackmails the lawyer and give the millions to Marnie instead of keeping it and the fact that Tony's father was the one that killed Butch not Marnie. Of course Andrew and Marnie live happily ever after and Bret is killed and revealed as the killer of LaDonna and Allison. Crazy brother wanted the money which was supposed to go to him if Allison died without violating the morals cause.

Theresa says

The lifestyle of the rich Fairmont family of the beautiful beach community of Mirage Bay, California is complicated by murder. The would be dead are Alison Fairmont, Butch Bogart and Marnie Hazelton and there are the would be killers Julia Fairmont, Bret Fairmont, Andrew Villard, Alison Fairmont, Marnie Hazelton and Rebecca, Julia's assistant. Lots to keep you guessing in this tale of a twisted rich family.

Missyk says

I was excited about this - we don't often read mysteries for book club. I was pretty disappointed. The story was pretty weak, the characters were not likeable - in fact, I could care less what happened to the whole lot of them. The main mystery is revealed really early, the rest of it just kind of dragged. The only reason I didn't give it 1 star is I was able to finish it.

Robin says

Silly, yes. Annoying rich people, yes.... Entertaining? Yes!

Liesbeth says

Could have been good, the potential is there.
It just felt like a hard slog.
Don't get to know or like the characters.
Poor attempt at sub plots.
Uncohesive writing.
Did not enjoy this, nor will I remember having read it.

Janet says

Fast and fun!

Melody says

Just a fun quick read. Murder mystery thriller!

MarQuinta Moore says

I've read this three times so far and I can't figure out why I like this book. I am still very confused about some of the things that happened, and why they happened. It is very much like a soap opera, which is dislike, but that kept me reading trying to figure out how the story would play out. I am still very confused by the actions of the mother, and the cop made me so angry. The only character I like was Marnie, and that is because I felt so bad that she was mixed up in this mess, everyone else I just didn't like, even the husband because he forced them to be in that crazy house. Overall a very crazy story, with a lot of twists and turns.
