Intense!

Wow, the stories keep getting better. We actually have two stories going at the same time. In one a fanatic group is hating on any supernatural group especially vampires. They are actually attacking them. The other we have a thief who is cursing people to learn about them and their property to steal from them. He cursing one of the PIA and it's a race against time to find him to stop the curse.

Good addition to the series. It keeps getting better. Someone is poisoning vampires and in another case that the PIA team is working on, people are dying and bleeding out their eyes and Max thinks it is connected to a former friend and thief she knows.

If there is one thing Katrina Michaels does extremely well is she gives life to her characters. Love them, or hate them, you can't but help finding yourself believing that these characters are alive. The twists that she slips into her storylines are well plotted and enjoyable. Not wanting to give away any spoilers I have to state that I was taken aback to find out whom the bad guy was. And weeks after finishing the novel I still hate the reverend.

Katrina has become one of my favorite authors, and I highly recommend every book that she has written to date. I can't wait to read her next novel. Hopefully we will not have to wait too long.
