The Ultimate Maze Book Galen Wadzinski

Entertain and challenge your brain with this bonanza of puzzles. Thirty mind-boggling mazes, created by a master maze designer, include labyrinths involving 3-D constructions, directional arrows, over-and-under structures, as well as key mazes, surface mazes, designated stops, and much more.

The puzzles are designed around clever themes and are categorized by difficulty into five levels--from "No Brainers" that take about five to ten minutes to solve, to "Full Brain Overload," mazes that might take hours to find a solution. (A picture of a brain with varying amounts of gray matter appears next to each maze to indicate its level of difficulty.)

There's also a "hints section" that provides clues for all but a few of the easiest puzzles. Use the hints section if you get stuck, but working the easier mazes will help you solve the more difficult ones. So grab a pencil and a-Maze yourself!

Jessica says

I've always loved mazes but been frustrated to only find them on my son's menus in restaurants, and so easy that I finish them before I can get much enjoyment out of them. Only recently it occurred to me to try to find some mazes for adults. This is the first one I bought myself, and so far I've found everything ranked as less than a "full brain" to be pretty easy, although I have had to allow myself to make some wrong turns in order to figure some of them out, which is gratifying, for my purposes anyway. But the first "full brain" maze -- the tenth maze of thirty in the book -- stymied me the first time I tried it. That was a couple of weeks ago; now I'm going to give it another go....
