Wicked Intentions

A.D. Justice

Wicked Intentions A.D. Justice

A ruthless killer is on the loose, threatening an innocent woman's life.

Painful secrets from Rebel's past will be exhumed and put on full display. Desperation drives him to save the only woman he's ever loved.

Tragedy strikes in the most unexpected ways, reducing once strong walls to mere rubble.

One man's breaking point is where another man finds his stride.

True love can't be bound.

Not by time.

Not by distance.

Not by measure.

But can it flourish?

It's been said good triumphs over evil and love conquers all. But can a foe be defeated if the lines between good and evil are blurred?

When the dust settles and the smoke clears, the last man standing wins. Can Rebel overcome the Wicked Intentions that have ensnared him?

Letty (Cover to Cover Book Blog Reviewer) says

The Steele Security series keeps getting better with each book. Rebel is the newest addition to this plethora of hotness that share their stories with us. Wicked Intentions takes us into his life and what he was before he joined his 'brothers'. We learn about his days in the Army and the life with Heather that he's been keeping secret from some of the other members of 'his family'. (mainly the women)

I found their story fascinating and Heather is such a wonderful heroine. Her attitude, her way of thinking, her witty comebacks when she's dealing with the guys...she's just a wonderful character. The love between her and Rebel is palpable and can be felt through the reading pages. Their pain from events in their past, I could feel it and at times felt the sadness trying to creep into my own eyes. The story takes you on an emotional journey, where these characters will definitely take over your heart and not let go.

The other couples, all lending a part of their lives to make this book even more engaging and worth reading. I just loved the whole thing! And Shadow...we can't forget him. I can't wait for his book.

Cheryl Welch-Keene says

Usually by the time you get to book 4 in a series, you can already tell how the story will go within the first few paragraphs. Not true with this one. AD does an amazing job with her story telling. Getting a look into the minds of the Steel Security members and their loved ones is always interesting, never dull, and always hot. Getting a look into what made them into who they are is what makes a good story. It isn't just about sex, or violence, it's about the lives, feelings, hopes and dreams of these friends for life.

Braxton thought he was doing the right thing when he ran away from his life, family and wife. He thought she would be better off.

She loved him no matter what, but secretly she was glad he was doing what he thought was right.

One mad man could bring it all down on them.

If you are looking for more than just a hot read, read AD's Steele Security series, especially this one. You won't be sorry. These are some of the most fierce, loving, compassionate men you will ever meet, and their loves are strong, beautiful, and not above telling these alpha men what they want.

Marissa Michaelson says

5 stars and a Rebel yell!

Calculating and driven are nothing but a few qualities in Braxton's arsenal.

He is also loving, caring and passionate. It all comes to the forefront with Heather..

squee I loved this newest addition to the Steele Security family...

Tina Morgan says

Wicked Intentions it should be wicked author...lol. But in all seriousness this is a great book! This is the fourth book in this series and they keep getting better and better! I want all the Steele Security men!!! It picks up right where the last one drops off and it had me on the edge of my seat almost the entire time. I laughed and I cried, I'm not sure if I've ever cried as hard as I did in her other books. I love getting to know all these characters little by little and then a lot it's there book. If you haven't read the other Steele Security books one what in the world are you waiting for and two I would recommend it before this book....just saying. They are so well written and the characters are so well developed it's like you know them all personally. If you love mystery, angst and romance with some humor these are the perfect books for you and I highly recommend them all!!!

Meghan Murphy says

I had the privilege of reading this book before it was released and to be honest, it completely blew me away!

This is the fourth book in the Steele security series and picks up right where book three ended. I didn't think I could love this series anymore then I did, but AD Justice had me falling for Braxton "Rebel" Reed from the first paragraph. He's a badass with a warm, gooey center! Fiercely loyal to those he loves, a terrorist knows exactly where to hurt him the most. His family. Will he be able to figure out Rashad's next move before it's too late? Or will he lose his reason for living for good??

AD Justice does a phenomenal job writing this book. It had me on the edge of my seat wondering where she was going to take it from the first chapter. It had all the amazing qualities that you'd expect from her but so much more. The friendship between the Steele security men, the love they have for each of their spouses, but most importantly you see a side of Rebel that really got to me. My heart physically ached with what he went through. I don't want to give too much away...the entire story was captivating and hands down the best book of the series! I cannot wait for the next!!

I highly recommend this book.

Veronica LaRoche says

This series just gets better and better. With starting off were the last book left off, I could t wait to see what was gonna happen. I really liked seeing how Rebel & Heather were friends to lovers and how they overcame such a heartbreaking loss. With the threat to Heather, Rebel will do anything and everything to protect her. With the help of Steele Security no one will hurt someone they care for, but when tragedy strikes one of there own might not come out alive. Really love the ending and can't wait to read the next book in this series

Amazeballs Book Addicts says

I am going to start off by saying that I am one of those people that stalks the author to find out when the next book is coming and while there aren't many authors that I do that to, AD Justice is absolutely one of them. So I have been in love with this series from the very beginning. Noah stole my heart in Wicked Games, then came Bull who I will shamelessly admit I have claimed him and threatened anyone who dared to take him from me, then we have all the Steele guys in Wicked Nights for a catch up on them all and low and behold at

the end of that one you are left with a WTH just happened. So, to say I was full on stalker mode begging for this book is a huge understatement. True story just ask her. I am NEVER disappointed when it comes to AD Justice and this one honestly hit it out of the park ten times over. I love that we get an insight into Rebel before Steele Security. This one like the others in this series are a fantastic balance of romance, suspense, action and finally those panty melting moments that only AD can write. I'm telling you if you haven't read this series you MUST DO IT NOW!! These are ones I have read numerous times and each time I am blown away by just how amazing it is. Do yourself a favor and get them. I'd bet money these will be some of your favorites too!! There aren't enough stars for me to give this one what it deserves!

Review by Tabitha

Crystal Spieker says

Oh the Rebel effect! I have been in love with the Steele Security team since book 1 (Wicked Games) and I think I always say each new book is my new favorite, though Bull was always my ultimate, not any more (sorry Bull) but Rebel is the man!

Picking up from the cliffhanger in book 3 (wicked Nights) we finally get Rebels story! This is a fast-paced thriller that will keep you on the edge of your seat and guessing! This book warmed my heart, had me laughing, had me wanting to go smack Rebel on his way too thick skull, and bawling my eyes out! Not only is this a great love story, it is also a very suspenseful as a determined killer is after Rebel and those he loves. This is a series that just gets better and better! If you have met the Men of Steele Security, you need to (start with book 1)! You will not be sorry! If you have read previous books and are on the fence if it's worth continuing, let me assure you it is! A.D. Justice does not disappoint! You will LOVE Rebel's story!

Denise Van plew says

This is one series I have really enjoyed with each one being better than the last. The men that make up this company simply scrumptious but the story behind each one so fitting. When this one became available snapped it up especially since I had been waiting what would soon be impatiently. Wanted some promised answers and wanted to see if my suspicions were true or not. This would be told also with Rebel who has ties to the nurse Heather as the main focus in the who's turn in the team. Some continuing story line too feeding the wonderment on what is happening next. Steve Steele is still going through a traumatic event with me rooting for a positive delivery. First given a background on the two with the history, this author never leaves you in the dark where it counts. Also builds up the characters to where they are larger than life like they are next to you. She will put you through the wringer with top notch detergent to get every last bit of emotion she can out of you while delivering this story. I had forgotten tissues was using my sleeve at one point, not thinking that I might need them but excellent authors I should of remembered you never know. Drama has also built ten fold in this one by now with every step of that keeping you on the edge to where you might get a crease in your seat. She does not skimp on the heat in this story ether so do not despair on that. Humor has its place too with this being one well balanced suspenseful romance. All in all she has swept me away again with my patience now ticking away for the next one.

Becca says

The Steele Security family is back in another exciting story of love, loyalty, and sacrifice with Wicked

Intentions. From the first page to the last, A.D. Justice had me captivated by the intense connection and undeniable chemistry that fueled Rebel's relationship with Heather. Their deeply rooted feelings and hard-fought love made their story something truly special. These two felt fated in a way that had me wholly invested in their future despite the endless obstacles they faced. Not only did Heather and Rebel share some seriously raw emotions, but there was also plenty of flirtatious banter and deliciously steamy encounters to keep me grinning. A.D. Justice filled their world with the colorful personalities we've come to love from the previous books in the series. A source of hilarious antics and inappropriate commentary, Liz also returned, providing the perfect amount of levity for this story and making me laugh at all the right moments.

I've adored Rebel since the first moment I met him, but his life was very much a mystery. I was anxious to see what A.D. Justice had up her sleeve with this character and I was definitely not disappointed. Wicked Intentions revealed a man who had fallen deeply and irrevocably in love at a young age, only to face devastating heartache. His pain was palpable, as was his resolve to honor his love for Heather and the commitment they had made. His unwavering loyalty and unconditional love was powerful and heady, giving Rebel and Heather's story an emotional intensity that gripped me and refused to let go. Heather was the perfect match for this complicated alpha. She was kind, loving, strong, and just feisty enough to keep up with the Steele Security crew. A.D. Justice wrote this character with a genuine vulnerability that really resonated with me, allowing me to connect with her without hesitation. By the time the book was finished, I had no doubt she was meant to be a part of the close-knit family I've come to know and love.

Since Rebel and Heather are already married when the book begins, A.D. Justice expertly utilized flashbacks to set the stage for their relationship and build the emotions behind their story. As we reached current events, I was caught off guard by Heather and Rebel's unconventional relationship, however A.D. Justice infused it with an emotional honesty that was refreshing and addictive. Wicked Intentions brought some serious heat as tensions reached an all time high and threats against the couples were abundant. My heart fluttered and faltered as Rebel, Heather, and the rest of the characters navigated the dangers lurking in the shadows, keeping me furiously turning pages as I rode out the emotional rollercoaster that was this novel. A.D. Justice's writing continues to impress, demonstrating both her growth as an author and her innate talent for crafting enthralling storylines and developing enchanting characters. I'm already anxious for more of this incredible series. Wicked Intentions delivers heart, heat, and plenty of humor in one deliciously unforgettable alpha package!

Judy says

This is book 4 in the Steele Security series and if you have not read books 1-3..go read them!!! These men are major hot men and you'll be glad you get to learn about them!!! This book has been my favorite so far!!

I'm so happy that Rebel got his story! He will go to the ends of the earth to protect Heather, his wife! All of the hot Steele Security team are in this book and it just made the story so much better that they all support each other (the women in their lives included) and are very dedicated to what they love and do the best....protect!!

Wicked Intentions is so much of everything!! It's mysterious, hot, scary, nail biting, edge of your seat and want to throw your kindle good!!

Five stars is not enough and my review won't do it justice...this book is worthy of more!!!

Nicky says

I was so looking forward to Rebel and Heather's story. What a ride. The love between these two is palpable and beautiful. This instalment comes with intrigue, angst, fear, heartache and is wonderfully written like the rest of this series. One more to go and I for sure will be left with a big fat book hangover. Great job!

Nadia Debowska-Stephens (Obsessed by Books) says

"Their love was stronger than the blast that had rocked their world.
It was more consuming than the fear that had tried to tear them apart."

Book Four in this series picks up where we were left... Rebel has a wife!!! Threatened by the maniacal terrorist cell that was exposed in the series this has now become very personal. With one man on a quest to avenge the death of his family and Steele Security on a mission to defend their family, friends and the general public this is a high octane, explosive read. The team comes together to decipher the next move of a mad man who's aims are no longer cut and dry but have become very personal and highly emotional. Can they figure out the next move before its too late?

Wicked Intentions is a fast paced edge of your seat drama. Revealing Rebel's secrets it shows the man behind his game face. He is a man driven by the woman who holds his heart and it's so poignant to realise what led him on to the path that ended with Steele Security. This story, although it deals with some gritty and all too real issues, was sensitively written and emotionally charged. I found myself commiserating, laughing and crying right alongside them. The sense of family, loyalty and togetherness was very prominent throughout and even though they faced danger and suffered loss their love for each other and belief in their abilities never waivers.

A wickedly fantastic five star read.

Rachel says

OMG, I LOVE REBEL....I've loved him all along. What a fabulous character he is. Now we get to delve a little deeper into this wonderful character and meet Heather!

I was lucky enough to beta read a copy of Wicked Intentions...and AD Justice just keeps bringing it! Rebel and Heather's story is full of everything that's a must for a favorite read...

suspense, intrigue, hot alphas and of course sexual tension! With each page you find yourself deeper and deeper...ensconced in Rebel's life as a killer is targeting those he loves. AD Justice can write. Her books aren't all the same...you can't always guess what's going to happen next. She intertwines perfectly the amount of sexy with the suspense...The alpha with the only woman that can make them whole. Her books are always page turners; always leaving you wholly satisfied.

This is book 4 in the Steele Security Series and starts right as three (WICKED NIGHTS) leaves off, so make sure to read them in order...and I swear on all that's holy...you will love each and every one of the boys...And soon you'll be leaving your own spoiler free 5 star review!

Sarah - Vanilla Twist Reads says

Steele Security is a must read series by A.D Justice, the suspense, twists, love and down right HOT passion keep you turning the pages and wishing for more. These books need to read in order to understand the dynamics of this family.

Wicked Intentions is Rebels and Heather's story and what a heart warming story it is amongst the dangers faced by Steele Security. These two have a past that not many know of and even those close to Rebel don't know of it until Heather's life is threatened .

I'm going to leave it here as I don't want to spoil the story for you but I will urge you to go get your copy and enjoy this fantastic series. I will admit I cannot wait to read the next in this series.
