The Reaction Suzanne Young

Shortly after going on a recovery road trip with Michael Realm, James Murphy returns home to bring his girlfriend Sloane a file. Her entire life--the memories that had been erased by The Program--are contained in a manilla folder. James wishes he could save Sloane from her pain, but he can't save her from the past.

A short story set in the world of The Program series by Suzanne Young, The Reaction leads into the last novel in the series, THE COMPLICATION.

Jay Miraldi says

Just a little check in with James and Sloan, not a whole lot of revealing or shocking information but it's okay.

I sought this novella out after finishing Realm's road to redemption (aka The Recovery). If you were drawn into The Program series from the start, Book #1, this will be a satisfying mini-read and give you some closure to your favorite characters.

"Together, they are a blaze."

I can't lie, I've missed Sloane and James - I love Tatum & Quinn but I really missed the first I read through The Program. I can't believe our next book will have all the characters making a cameo. I'm ready, I think - but these few pages only start it and now I'm worried.

Because The Program is far reaching, never dead.....always just a sleeping giant. I can't wait to see where this goes!

The reaction 5??

Realm is giving people back their memories and it makes me love him even more. I don't care that he was somewhat evil I loved him!

I've missed Sloane and James too I didn't realize how much I missed their relationship, their journey until reading this short, short story.

I love seeing the originals even if it was just for 7 pages.
