America's Last Call David Wilkerson

A majority of Americans have concluded that morals do not count. They don't care what their leaders do as long as there is a booming economy and prosperity. God is about to crush this abominable American mind-set. Soon the American dream will become the American nightmare. It will occur suddenly--without warning--and no one will be able to explain how or why it happened. There will be sellers only--no buyers. Yet through it all, those who know God can be assured of constant protection and provision from His hands.

Connie Adams says

David, touches on many prophecies concerning Israel which in many instances mirror America. He prophesied many events though he does not claim to be a prophet. He is warning us of impending financial, what he calls "Financial Holocaust", as well he warns us of what God has forecast in His word is going to come to pass and we had better heed God's warnings and prepare ourselves for the terrible events to come for God will do what He has said he will do. If we repent we will escape the terribleness of that day. You will be in awe as you read this book.

Pug says

Biblically-sound, but dated and dull to read.

Jose says

Sobering to read.

Kim Rempel says

Interesting, and definitely contains some valuable insights. The reader needs to look beyond overly-specific prophecies by the author, but if you can get past that, the general insights about how God works are valuable. I was particularly interested in the comparisons to Sodom. Our nation and culture is shockingly similar...

Liza Gutierrez says

Is one of the best books i ever read.Is a prophetic book.Speak about America last day and is a christian must have.

Victoria says

Considering this book is already ten years old, it speaks a lot of truth to what is happening right now in our country of the US. Perhaps after the decades of warnings Mr. Wilkerson gave us based on the Word of God, God took him up at the best time before seeing most of his Vision coming true, though he saw a lot of it in the works anyway. This was very accurately stated and backed up by the Bible. It was short and a good read.
